Lock up with SecurGuard &
UNLOCK A WORLD OF SMART SECURITY

SECURGUARD IN-WALL DOOR CONTROLLER

This cloud-enabled and wireless in-wall door controller benefits businesses managing virtually any type of door including:

Electromechanical locks, magnetic locks, door strikes, automatic garage doors, manual sliding doors and beyond. Paired with the SecurGuard mobile app and desktop software, you can install the controller without needing to run a single wire for power or data and gain features such as: access from a smart device, virtual key management, remote unlocking, customized access schedules, motion sensor detection, activity notifications, and mesh networking technology allowing for two-way communication between the lock and cloud.

SECURITY, COMPLIANCE, AND PRIVACY STANDARDS

Janus customers operate in nearly every industry and region across the world, including highly regulated industries such as utilities and government applications. The privacy and safety of our customers is our top priority, so we ensure our products and services contain the highest level of security.

BLUETOOTH 4.0
Bluetooth smart encryption technology

CLOUD-BASED KEY TRANSFER
Keys are stored on secure servers to prevent compromising sensitive data

CRYTOGRAPHIC KEY PROTOCOL
Keys are assigned based on permission levels and used to encrypt all communication to and from the lock

THIRD PARTY TESTING
SecurGuard has passed rigorous third-party testing

END TO END ENCRYPTION
Double-secured transmissions using end-to-end 128-bit AES encryption

CUSTOM SECURITY LAYER
Additional custom-built encryption protocol prevents Bluetooth replay attacks

CHOOSING THE BEST MODEL FOR YOUR BUSINESS

IN-WALL BATTERY POWERED
Ideal for remote locations or locations without existing wiring such as: construction sites, storage facilities, old buildings etc.

IN-WALL HARDWIRED
Ideal for locations with existing wiring and door locks such as: office buildings, schools, retail locations, etc.

MOTION SENSOR

The SecurGuard In-Wall Door Controller has a built-in front-facing motion sensor allowing for:

NOTIFICATIONS
Receive notice of movement in front and behind the door

HEAT MAPS
Creation of heat maps showing areas of your facility that experience the most traffic

VIRTUAL PERIMETER
Usage of controller to create a virtual perimeter around your facility

BEHIND DOOR DETECTION
Optional sensors to monitor behind door motion allowing automatic unlocking from the inside when motion is sensed

AUTO WAKE
Automatic waking of controller in battery only applications

TOUCH SENSOR

The SecurGuard In-Wall Door Controller is equipped with a capacitive touch sensor allowing easy waking of battery operated units. The benefits of this include:
ELIMINATES NEED FOR UNRELIABLE PARTS
Technology extends battery life without unattractive buttons or switches that are prone to breakage or water ingress

STREAMLINES DESIGN AND DURABILITY
Keeps an attractive, durable, water-resistant design that has no set screws or unattractive mounting hardware.
DIMENSIONS + DURABILITY

IN-WALL BATTERY POWERED

8mm
70mm
100mm

WEIGHT
With Batteries .79lbs / 12.8oz / 362g
Without .41lbs / 6.6oz / 187g

IN-WALL HARDWIRED

8mm
70mm
45mm

WEIGHT
.31lbs / 4.9oz / 140g

BODY
Zinc Alloy

OPERATING TEMPERATURE
-40°c to 75°c / -120°f to 167°f

WATER RESISTANCE RATING
IP66

BATTERY TYPE AND LIFE
4 x 18650 RECHARGEABLE
1+ YEAR

CERTIFICATIONS
CE FC RoHS UL

COMPATIBILITY

All SecurGuard hardware offers a wide range of smart device compatibility

iOS
iPhone 4S or newer models

ANDROID
Devices with BT 4.0, Android 4.4 or newer models

WIRELESS CAPABILITIES

SecurGuard Security services with remote control

AUDIT TRAILS
Cloud-storage for all audit trail data

QUICK-CLICK ACCESS
Manage quick-clicks via the SecurGuard App

MESH NETWORKING TECHNOLOGY
Allows for two-way communication between the lock and the cloud
