Janus International and LEED® for New Construction

LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus-based rating system for developing high-performance, sustainable buildings developed by The U.S. Green Building Council (USGBC).

The LEED for New Construction and Major Renovations Rating System guides and distinguishes high-performance commercial and institutional projects. Following is Janus International's contribution toward them:

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Janus International product components contain Post-consumer and Pre-consumer recycled content as listed below.

Janus International Recycled Content 2015

- Pre-painted Steel Curtain and Hood Material
 - 86% Total Recycled Content
 - 38% Post-consumer Material
 - 41% Pre-consumer Material
- Structural Steel guide and components
 - 83% Total Recycled Content
 - 95% Post-consumer Material
 - 5% Pre-consumer Material

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

- Janus International Group, LLC., 135 Janus International Blvd., Temple, GA 30179
- Janus International Group, LLC., 13374 W. Peoria Avenue, Surprise, AZ 85379
- Janus International Group, LLC., 1256 Brittmoore Road, Houston, TX 77043
- Janus International Group, LLC., 620 W Main Street, Butler, IN 46721

Minimum percentage of recycled material that is procured within a 500-mile radius of manufacturer;

- 99%

Percentages are based on information received from our vendors and have been represented to Janus International as true and accurate.
