

The SCOPE Logistics Summit is the new addition to the SCOPE family, a unique invitation-only event that has been bringing together top-level supply chain executives for over 12 years. SCOPE uses a unique model of targeted one-on-one research meetings with leading solution providers, paired with an 100% peer driven educational program focusing on warehouse, distribution and transportation optimization.

KEY THEMES:**TRANSPORTATION MANAGEMENT STRATEGIES TO REDUCE COSTS**

Industry experts will cover a range of proven strategies to effectively measure and minimize transportation costs. Navigate the ins and outs of successful 3PL partnerships, last mile delivery, contract negotiation, driver shortage solutions, and more.

**WAREHOUSE MANAGEMENT AND OPTIMIZATION**

Address some of the most pressing challenges that come with Warehouse Management. We'll cover labor, automation, inventory, WMS selection, fulfillment demands and more to improve your day-to-day operations and cut costs.

**REGULATORY CHANGES AND KEEPING UP WITH COMPLIANCE**

Recent regulatory changes regarding import/export tariffs, packaging, labeling, and many others have diluted the clarity of future costs and processes. Experts will provide their forecast for the longevity of the new landscape and help you to navigate and stay compliant in an uncertain environment.

**WORKFORCE AND TALENT MANAGEMENT**

Learn how you can create optimal conditions for your people to achieve innovation, realize their potential, and find true fulfillment in the workplace. Experts will discuss the finesses of managing the changing manufacturing landscape and tackling the task of attracting, and retaining, qualified talent.

**ADOPTION OF RISING TECHNOLOGIES**

Artificial intelligence, blockchain, automation, robotics, IoT, IIoT and the like have transformed every aspect of procurement. We'll help you nail down this soup of buzz words into an effective strategy for technology driven processes, backed by case studies and proven best practices.
