The SCOPE Procurement Summit is a unique invitation-only event that has been bringing together top-level supply chain executives for over 12 years. Using a unique model of targeted one-on-one research meetings with leading solution providers, paired with an 100% peer driven educational program addressing the latest technology trends, operational challenges and improvement opportunities. SCOPE is the best way to come together with top leaders to exchange ideas, collaborate and define the future competitive landscape for procurement.

**KEY THEMES:**

**STRATEGIC SOURCING & CONTRACT MANAGEMENT**
Connect the dots between senior purchasing, sourcing and supply chain executives for a comprehensive view of the overlapping challenges of procurement. Master the protocol for optimal performance in inventory and cost management, contract compliance, achieving greater transparency across the chain, supplier management and risk mitigation.

**DIGITAL TRANSFORMATION OF PROCUREMENT**
Artificial intelligence, cloud, mobile, blockchain, and big data are changing the game for procurement executives and will play a critical role in how the industry moves forward. This track was created to bring together procurement experts to discuss building a methodology on how to digitize your operation to create a more agile, more competitive organization.

**SUPPLY CHAIN STRATEGIES TO INCREASE VISIBILITY**
Supply chain visibility has moved from the "luxury" phase to a mandated necessity. Your informed customer base demands it and technology has cracked open a new world of risk mitigation and optimization opportunities. From technology selection to best practices, we’ll give you the leg up and save you from the hard lessons of operating below the curve.

**WORKFORCE AND TALENT MANAGEMENT**
Learn how you can create optimal conditions for your people to achieve innovation, realize their potential, and find true fulfillment in the workplace. Experts will discuss the finesses of managing the changing manufacturing landscape and tackling the task of attracting, and retaining, qualified talent.

**TARGET AUDIENCE**
Senior Level Executives (C-Level, SVP, VP, Director, Lead, Manager) of:
Procurement • Purchasing • Sourcing • IT • Supply Chain • Logistics • Operations
