

The SCOPE Supply Chain Summit is a unique invitation-only event that has been bringing together top-level supply chain executives for over 12 years. Using a unique model of targeted one-on-one research meetings with leading solution providers, paired with an 100% peer driven educational program addressing the latest technology trends, operational challenges and improvement opportunities. SCOPE is the best way to come together with top leaders to exchange ideas, collaborate and define the future competitive landscape for supply chain.

**KEY THEMES:**

**SUPPLY CHAIN STRATEGIES TO INCREASE VISIBILITY**

Supply chain visibility has moved from the “luxury” phase to a mandated necessity. Your informed customer base demands it and technology has cracked open a new world of risk mitigation and optimization opportunities. From technology selection to best practices, we’ll give you the leg up and save you from the hard lessons of operating below the curve.

**WORKFORCE AND TALENT MANAGEMENT**

Learn how you can create optimal conditions for your people to achieve innovation, realize their potential, and find true fulfillment in the workplace. Experts will discuss the finesses of managing the changing manufacturing landscape and tackling the task of attracting, and retaining, qualified talent.

**ADOPTION OF RISING TECHNOLOGIES**

Artificial intelligence, blockchain, automation, robotics, IoT, IIoT and the like have transformed every aspect of procurement. We’ll help you nail down this soup of buzz words into an effective strategy for technology driven processes, backed by case studies and proven best practices.

**TRANSPORTATION MANAGEMENT STRATEGIES TO REDUCE COSTS**

Industry experts will cover a range of proven strategies to effectively measure and minimize transportation costs. Navigate the ins and outs of successful 3PL partnerships, last mile delivery, contract negotiation, driver shortage solutions, and more.

**WAREHOUSE MANAGEMENT AND OPTIMIZATION**

Address some of the most pressing challenges that come with Warehouse Management. We’ll cover labor, automation, inventory, WMS selection, fulfillment demands and more to improve your day-to-day operations and cut costs.

**TARGET AUDIENCE**

*Senior Level Executives (C-Level, SVP, VP, Director, Lead, Manager) of:  
Supply Chain • Logistics • Operations • Distribution • Warehousing • Procurement • IT*
