

Heartland Training Conference Agenda

TUESDAY

April 10th, 2018

9:00 AM | **Registration & Networking**

10:10 AM | **Keynote & Guest Speakers** To be announced soon!

12:20 PM | **LUNCH** Provided by Heartland

1:20 PM | **ALL: MySchoolApps Online Applications**

Open to all attendees. See how MySchoolApps significantly reduces the time you spend processing applications.

LunchBox: Operating the Point of Sale

Overview of serving line processing, transaction management, and functionality review.

Mosaic: Point of Sale Best Practices

We'll provide an overview of serving line processing, transaction management, and functionality review. Including detailed training on how to edit Menu Product prices as part of the day-to-day process. We will also discuss the impact of CEP on meal pricing, cover common over-looked but useful settings, and review tips for customizing menus.

Cafe Enterprise: See What's New

This class will cover new features in recent versions of Café Enterprise.

**MCS: Customizing Your Report Menu To Fit Your District
- How To Guide**

Designing and customizing reports in all applications, including setting default criteria, hiding criteria options and customizing report menus settings, and review helpful tips for customizing your menus.

WebSMARTT: Introduction to WS Sync - Sync vs. Replication

Learn the basics on what is needed, preparing for conversion and advantages of WS Sync vs Replication.

WebSMARTT: See What's New in WebSMARTT 3.21

This class will cover the upcoming changes and exciting new features in the upcoming release.

2:30 PM | **ALL: Creating Salad Bar Recipes**

Open to all attendees. In this session, we'll explain why including salad bars in your menu plan is a good choice and show you how to set up the recipe for different types of offerings, including: pre-portioned and pre-packed salads to emulate the grab-and-go concept, Self-serve bars where students have an unlimited choice of the items and quantity, and Self-serve bars where the choices are limited.

LunchBox: Operations Management

Learn how to manage POS Menu Products, POS Menus, Close Day Reporting and Pricing Updates.

Mosaic: Increasing Participation and Speeding up your Serving Lines

Learn how to utilize Breakfast in the Classroom, Speed-E mode functionality, and Bulk Meal Entry to increase participation and keep your serving lines running smoothly.

Café Enterprise: POS Level Up 1 - Operating Sales Mode

Overview of serving line processing, transaction management, and functionality review.

MCS: Maximize Your Income

Learn about the Franklin/Newton back dating feature and DC matching.
