

DOCK & DOCK SAFETY

Safety Is The # 1 Concern On & Around The Loading Dock.

SERVICE

Southern States mobile field service technicians are here to keep your shipping and receiving operations running smoothly and at the lowest possible cost. Let's face it - most mechanical equipment will fail at some time. Optimization is about investing the right amounts of money at the right time to ensure maximum uptime at minimal cost.

PARTS

Parts are important, and "cheap parts" are usually not the lowest cost. Southern States provides leading brands of new products. When it's time to replace a part, we provide the OE - Original Equipment - Parts, wherever and whenever possible. Parts are important! We provide the best quality parts to keep you safe and productive.

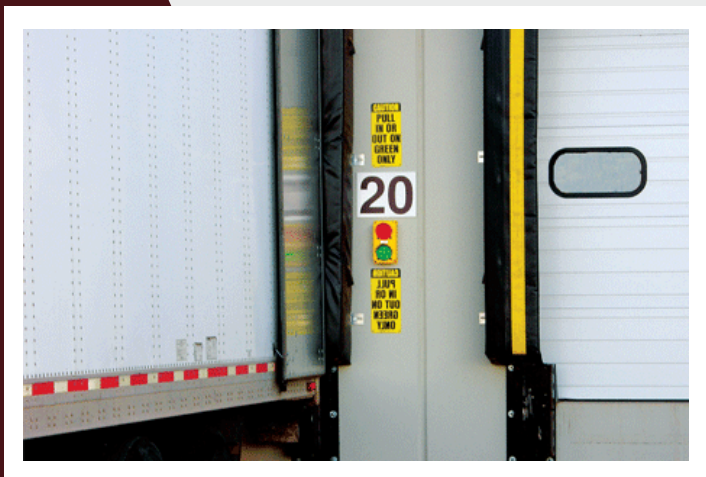

SERVICES AVAILABLE:

- Ⓢ Planned Maintenance Services
- Ⓢ Routine repairs and emergency / breakdown repairs
- Ⓢ Installation on new or replacement equipment
- Ⓢ Safety Surveys

SURVEY

Contact us today for a loading dock safety survey of your location. Will provide a written check sheet of the condition of your dock area and what needs to be fixed to ensure your dock area can pass an inspection if one occurs.

Most importantly - *Be Proactive*

FIRE DOOR SAFETY ALERT

NFPA Code 80* requires all fire doors regardless of use to be tested and inspected annually. DASMA** recommends the following procedures:

- Ⓞ Visual Inspection
- Ⓞ Operational Check
- Ⓞ 1st Drop Test
- Ⓞ Reset the door
- Ⓞ 2nd Drop Test

DASMA** recommends drop tests should be performed by a trained fire door system technician. Our team at Southern States Dock & Door realizes this can be a daunting task to tackle that's why we are here to help.

*National Fire Protection Association <http://www.nfpa.org/codes-and-standards/all-codes-and-standards/list-of-codes-and-standards/detail?code=80>**Door & Access Systems Manufacturers Association 11/26/01 Rev. 1/15; Rev. 03/15. Visit www.dasma.com for the latest version.

Contact us today to schedule your fire door drop test or loading dock survey.
