Southern States

ENTERPRISES

Southern States Enterprises is recognized by the Department of Homeland Security as an Essential Infrastructure Business in the National Effort to fight COVID-19 Virus. To the extent possible, we will dedicate Service Center Resources to ensure that our customers are able to continue daily operations without interruptions,

Employee Remote Location Safety Protocol

In an effort to contain any potential COVID-19 infection and spread among staff, business partners and our community, Southern States Enterprises' workers will use the following precautionary measures:

NO EMPLOYEE will be allowed on-site who displays respiratory symptoms or has had contact with a person known or suspected to have COVID-19!

Employee will undergo **daily screening** including: symptom and temperature check, social contact and travel history.

Employee will follow all **CDC hygiene protocol**.

Employee will contact customer **prior to entering facility**.

Employee will follow **any customer posted and implemented** Covid-19 protocols.

Employee will use **rubber gloves** while working with equipment, parts or product at customer locations.

Employee will **disinfect vehicles** compartment touch points **before & after** service. Employees will be supplied with a suitable disinfectant.

Upon request, **Technicians will perform service outside** (weather & facility permitting).

Employees will **practice Social Distancing** on premises and interact only with those in the line of work.

Employees will **disinfect** computer & signature pads **before & after** customer signs electronic work order.
