# SOS & LEIN ACCESS

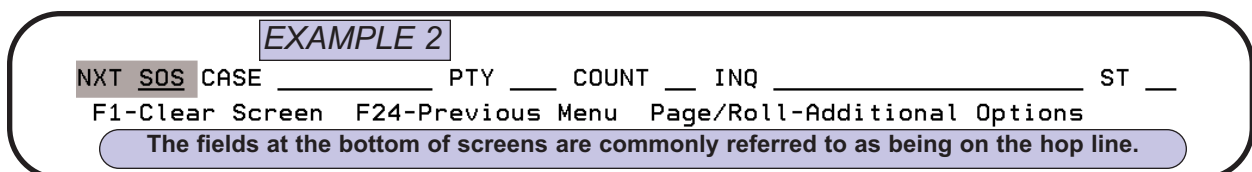

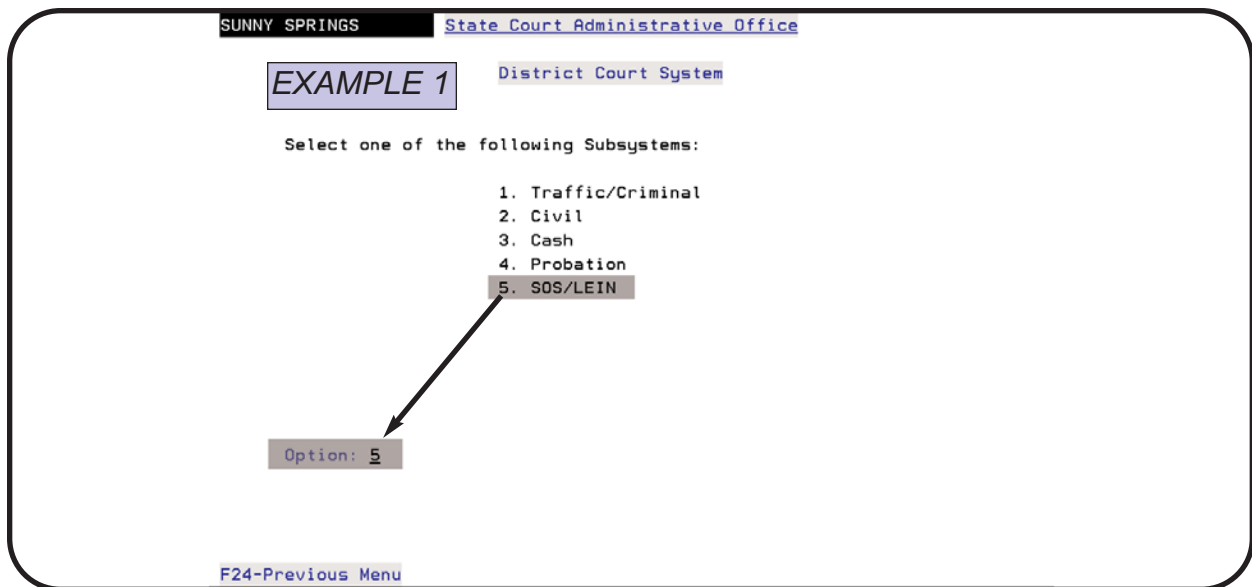

This chapter will describe ways to access the Secretary of State (SOS) or Law Enforcement Information Network (LEIN), your menu options for SOS or LEIN, and where to get assistance from SOS, LEIN and JIS.

## Accessing the SOS & LEIN Selection Menu

The three ways to access the SOS & LEIN Selection Menu are:

- On the **District Court System** menu type option **5 (SOS/LEIN)** in the *Option:* field and press **ENTER**. (*EXAMPLE 1*)
- Type **SOS** in the *NXT* field and press **ENTER**. (*EXAMPLE 2*) You can use this “hop line” from any screen to access the **SOS & LEIN Selection Menu**.
- An option on a “personalized” menu.

## SOS & LEIN Selection Menu

Once you have accessed the SOS & LEIN system the **SOS & LEIN Selection Menu** displayed below will appear. If you **Page/Roll** the **LEIN TAC Selection Menu** at the bottom of this page will appear. Type in one of the option numbers listed in the *Option:* field and press **ENTER**. A detailed description of these options and the chapter where they can be found in this User Guide is on the following page.

```

### LEIN TAC Selection Menu

# Menu Options - Descriptions & Functions

SOS & LEIN Selection Menu		
Option	Description and chapter of User Guide	Function
1	<b>Secretary of State Inquiry (Ch. 2)</b>	<ul style="list-style-type: none"> <li>--&gt; Driving records and addresses for Michigan drivers</li> <li>--&gt; Vehicle plate and VIN information</li> <li>--&gt; Repeat offender status</li> <li>--&gt; Eligibility for restricted license</li> <li>--&gt; SOS "System" inquiries including vehicle title and registration status, water craft info and boating record, snowmobile registration info, handicap permits, etc.</li> </ul>
2	<b>LEIN Inquiry (Ch. 3)</b>	Warrant checks, criminal histories, ORI number inquiries, etc.
3	<b>LEIN Admin Message (Ch. 4)</b>	Send messages to an ORI (LEIN agencies)
4	<b>LEIN Entry (Ch. 4)</b>	Enter or delete warrants and probation conditions into LEIN. Inquiring on valid PACC codes is done from the LEIN Entry screen, but is described in Chapter 3 - LEIN INQUIRIES.
5	<b>LEIN Multiple DLN Inquiry (Ch. 3)</b>	Request multiple Michigan and out-of-state driving records. Also does a warrant check ("Q" inquiry) at the same time.
6	<b>Hit Confirmation Request (Ch. 3)</b>	A request by the court to check if a warrant on the system is valid because the defendant is in custody now.
7	<b>Hit Confirmation Response (Ch. 3)</b>	Either a yes or no response to the Hit Confirmation request (see number 6) on whether a specific warrant is valid.
9	<b>CHR Entry (Ch. 4)</b>	Criminal History Reporting to Michigan State Police - Central Records Division. An entry here fills in the judicial portion of the criminal history.
LEIN TAC Selection Menu		
1	<b>LEIN Operator Certification and Warrant Validation Notification (Ch. 5)</b>	Enter certified LEIN operators or inquire on certified LEIN operators in your court. Allows court to validate warrants.
2	<b>QLOG Format (Ch. 5)</b>	A history log for the number of criminal history records requested for a specific ORI number. Used by LEIN auditors and for internal checks on your system.
3	<b>District Court Warrant Validation Reports (Ch. 5)</b>	Electronic validation of warrants issued by the court.

# Where To Get Help

## Department of State (DOS)

Please use the resources below when you have questions regarding laws or policies being implemented by the Department of State {also known as the Secretary of State (SOS)}.

- Michigan Department of State Court Manual
- Court Liaisons Lee Ann Gaspar (810-762-0764), Karri Ferri (517-636-0962) or David Handsor (517-636-0129)
- Abstract Processing (517-322-1598)
- Michigan Department of State Information Center (517-322-1460)

## Law Enforcement Information Network (LEIN)

Please use the resources below if you have questions regarding LEIN messages, inquiries, entries, legal questions regarding use of LEIN, or LEIN policies.

- LEIN Operations Manual;
- Your Terminal Agency Coordinator (TAC) and/or your Local Agency Security Officer (LASO);
- Criminal History Section Help Desk 517-241-0606;
- Michigan Criminal Justice Information Network (MiCJIN) Service Center Help Desk 877-264-2546 or [mspleinfss@michigan.gov](mailto:mspleinfss@michigan.gov).

## Judicial Information Systems (JIS)

If you have a **hardware** question, your connection to SOS or LEIN is not functioning, or you need to add a user for access to SOS or LEIN you should contact JIS Operations.

- JIS Operations (888-339-1547) If an operator answers, ask for **Operations**. If voice mail answers, select **option 5 - Operations**. Hours of operation are Monday - Friday, 7:00AM - 4:30PM

If you have a **software** question or are not sure who to contact, contact the District Court System (DCS) Help Desk by phone, email, or fax.

- DCS Help Desk Phone (888-339-1547) If an operator answers ask for the **District Court** help desk. If voice mail answers, select **option 1 - District Court System** questions. Hours of operation are Monday - Friday, 9:00AM - 4:00PM.
- DCS Help Desk email is [dcshelpdesk@courts.mi.gov](mailto:dcshelpdesk@courts.mi.gov)
- Fax (517-373-7451)
- JIS District Court website can be found at [courts.mi.gov/jis](http://courts.mi.gov/jis)

## Field Descriptions: SOS Inquiry screen

**Print:**      (~~PRT or Blank~~)

**2010/1 Software Release:** The *Print:* field and **F8-DspQ** function key were removed and **F6-Display/Print** replaced **F6-Display Message**.

~~Type **PRT** in this field to print inquiry response from SOS or leave blank to view the record on-line. Complete your inquiry data and press **ENTER**. If you entered **PRT**, the response will be sent directly to the assigned printer. If left blank, press **F8-DspQ** to view the response.~~

**Access Type:**      (**DLN CER MIP ELI 42 40 NAM VPN SYS**)

- DLN** This will request an edited driving record by using the Driver License Number (DLN) in the *Key:* field. No spaces or hyphens are used. This request is the same as doing a **SYS** in *Access Type:* and **36;1**; in the *Key:* field.
- CER** This will request a “certified” driving record by entering the DLN in the *Key:* field.
- MIP** This will request an unedited driving record and check the driving record for any prior Minor in Possession deferments. This request is the same as doing a **SYS** in *Access Type:* and **42;3**; in the *Key:* field.
- ELI** The response to this inquiry by entering the DLN in the *Key:* field will determine eligibility for a driver to obtain a restricted license.
- 42** This will request an unedited driving record by entering the DLN in the *Key:* field. The response includes accidents where no ticket was issued. This request is the same as doing a **SYS** in *Access Type:* and **42;1**; in the *Key:* field.
- 40** This will request the current address of the driver without displaying the driving record by entering the DLN in the *Key:* field.
- NAM** Use this to request a driving record by typing the driver’s name in the *Key:* field (Format: FIRST MIDDLE LAST SUFFIX). You may enter the full name and date of birth in *Birthdate:* field (Format: MMDDYYYY) or you may also enter the full or partial name to get a list of drivers with the same name, their DLN and city of residence. You can then do a second lookup to obtain the driving record with the DLN or full name and DOB. **NOTE:** A hyphen (-) is the only punctuation allowed when typing a name. If there is no known middle name or if only the middle initial is known, start your search including that information.

An MIP Deferment request can also be done via the LEIN Inquiry screen by using **42B** in the *SOS:* field. See Appendix D on page A-5.

**Access Type: continued on next page**

**Access Type, continued**

**VPN** This will request the Michigan vehicle registration by entering the Vehicle Plate Number (VPN) in the *Key:* field. No spaces or other punctuation are used.

**SYS** Various “system” inquiries provided by SOS can be performed by using **SYS** in *Access Type:* and a SOS Inquiry number in the *Key:* field. See page 2-5 for a listing of these inquiry numbers or the Michigan Department of State Court Manual, Section I. **NOTE:** Always end your “SYS” request with a period in the *Key:* field.

**Key:** \_\_\_\_\_

Use this field to enter data (Name, DLN or SOS numbers) for *Access Type:* inquiries described above.

**Birthdate:** \_\_\_\_\_

The date of birth (DOB) is entered, along with the full name, when doing a **NAM** *Access Type:* inquiry. Format: MMDDYYYY

**Additional****DLNs or VPNs:** \_\_\_\_\_

There are 15 additional lines for running driving histories or vehicle plate inquiries. You must enter **DLN, CER, MIP, ELI, 42, or 40** in the *Access Type:* field with the first DLN or VPN in the *Key:* field.

See page 2-6 for SOS inquiry examples.

## Function Keys: SOS Inquiry screen

Function Key	Description
F5-Retrieve	Retrieve same information entered from last request if you have not left the SOS Inquiry screen
<b>F6-Display/Print</b>	<del>Go to the Display Messages screen when you have a MW (message waiting) at bottom of screen</del>
F7-Outq	<del>Display the Work with Output Queue screen that all SOS responses are sent. This will show any SOS responses made by others in your court who share the same SOS printer and other non-SOS type print files stored in that output queue.</del>
<del>F8-DspQ</del>	<del>This will display only those SOS inquiries initiated by your sign on. See Work with All Spooled Files on page 2-6 for further details on viewing or printing the response.</del>
F24-Previous Menu	Return user to the <b>SOS &amp; LEIN Selection Menu</b>

**2010/1 Software Release:** Function key removed.

**2010/1 Software Release:** Changed to **F6-Display/Print**. Toggle between Display Mode and Print Mode. The current mode is displayed in the upper-right corner of the screen. Print Mode will send responses directly to your associated printer/out queue. Display Mode will make available the responses to display on your screen. See **F7-Outq** for instructions on how to display your responses.

The mode can be hard set by the court's Terminal Agency Coordinator so that a user has only Display or Print ability.

**2010/1 Software Release:** **F7-Outq** has a dual purpose. While in Print Mode (see **F6-Display/Print**), displays the Work with Output Queue screen to determine the status of the printer's output queue. While in Display Mode, displays a list of all of your SOS or LEIN responses still on the system. From there you can display the response with option 5=Display, delete the response with option 4=Delete, or change the response with option 2=Change to redirect it to an active printer/outq. While in Display Mode the list of responses will always show your oldest responses first. Therefore, for ease of displaying and privacy concerns, please Delete any responses you no longer need. **F11=View 2** from this screen will display the creation Date and Time in the last two columns of each response.

# Work with All Spooled Files

**F7-Outq**

If you are not printing the response to your inquiry you will need to press the ~~F8-DspQ~~ function key (described on page 2-4) at the bottom of the Secretary of State Inquiry screen to view the response from SOS. This will display the Work with All Spooled Files screen.

Secretary of State Inquiry

Print:     (PRT or Blank) Type PRT in the Print: field before you submit your inquiry to SOS if you want the response to print.

Access Type:     (DLN CER MIP ELI 42 40 NAM VPN SYS)

Key: \_\_\_\_\_

Birthdate: \_\_\_\_\_

Additional DLNs or VPNs: \_\_\_\_\_

Leave the Print: field blank if you want to view the response to your inquiry. Press the F8-DspQ function key after entering your inquiry to SOS. This will display the Work with All Spooled Files screen containing SOS responses initiated by your sign-on.

F6-Display/Print

# Examples: SOS Inquiries

## Name Inquiry (NAM)

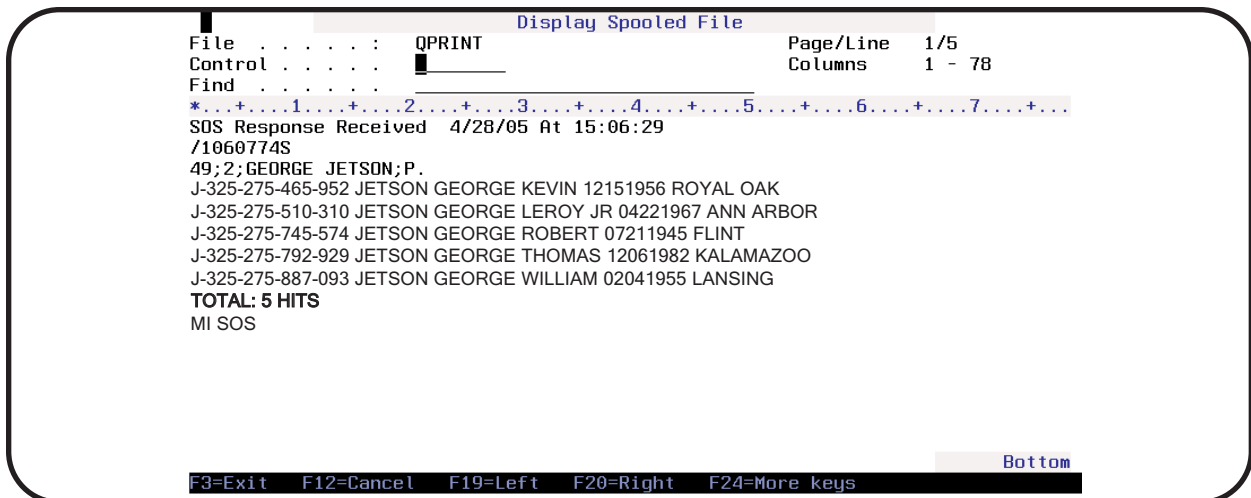

An inquiry used frequently is the name inquiry (NAM). Use this inquiry when you only have a name. In this example the *Print:* field is blank. You will need to type **NAM** in the *Access Type:* field and one of the following in the *Key:* field:

- First and last name (GEORGE JETSON)
- First name, middle initial and last name (GEORGE K JETSON)
- First, middle and last name (GEORGE KEVIN JETSON)

Press **ENTER** after typing data. See the screen sample below.

Go to your outqueue by using **F7-Outq** and display the file as described on page 2-6. The screen below will appear showing the number of “hits” that match your criteria. If you need to run a driving record, note either the DLN or the full name and DOB and do another SOS inquiry using this additional information.

**Name Inquiry (NAM), continued**

If there are more than 50 responses (hits) to your inquiry you will receive the message shown below. If you receive this message you will need to re-submit your inquiry with either a middle name, initial or *Birthdate*: in order to reduce the inquiry results.

**MORE THAN 50 HITS (NAMES) WERE ENCOUNTERED. PLEASE RE-SUBMIT YOUR INQUIRY WITH MORE INFORMATION.**

**Name Inquiry using Name and DOB (NAM)**

~~Print: \_\_\_\_\_ (PRT or Blank)~~

Access Type: SYS (DLN CER MIP ELI 42 40 NAM VPN SYS)

Key: 51;1;G8ZG5595PZ319234.

Birthdate: \_\_\_\_\_

Additional  
DLNs or VPNs: \_\_\_\_\_

Always end a SYS request with a period in the Key: field.

See page 2-5 for a table of System inquiries (SYS) that can be performed.

### Example: Driving Record Inquiry Response

“The Michigan Department of State (MDOS) Driver Database contains data sets that identify Michigan drivers. The history of driver license activity and actions are also maintained in this database. File inquiries are run to produce a historical driving record. Records are maintained for each individual licensed in Michigan and for drivers with no Michigan license, driving information reported to the Department of State (both in-state and out-of-state drivers over the age of 14) involved in crashes and/or convicted of certain traffic violations.

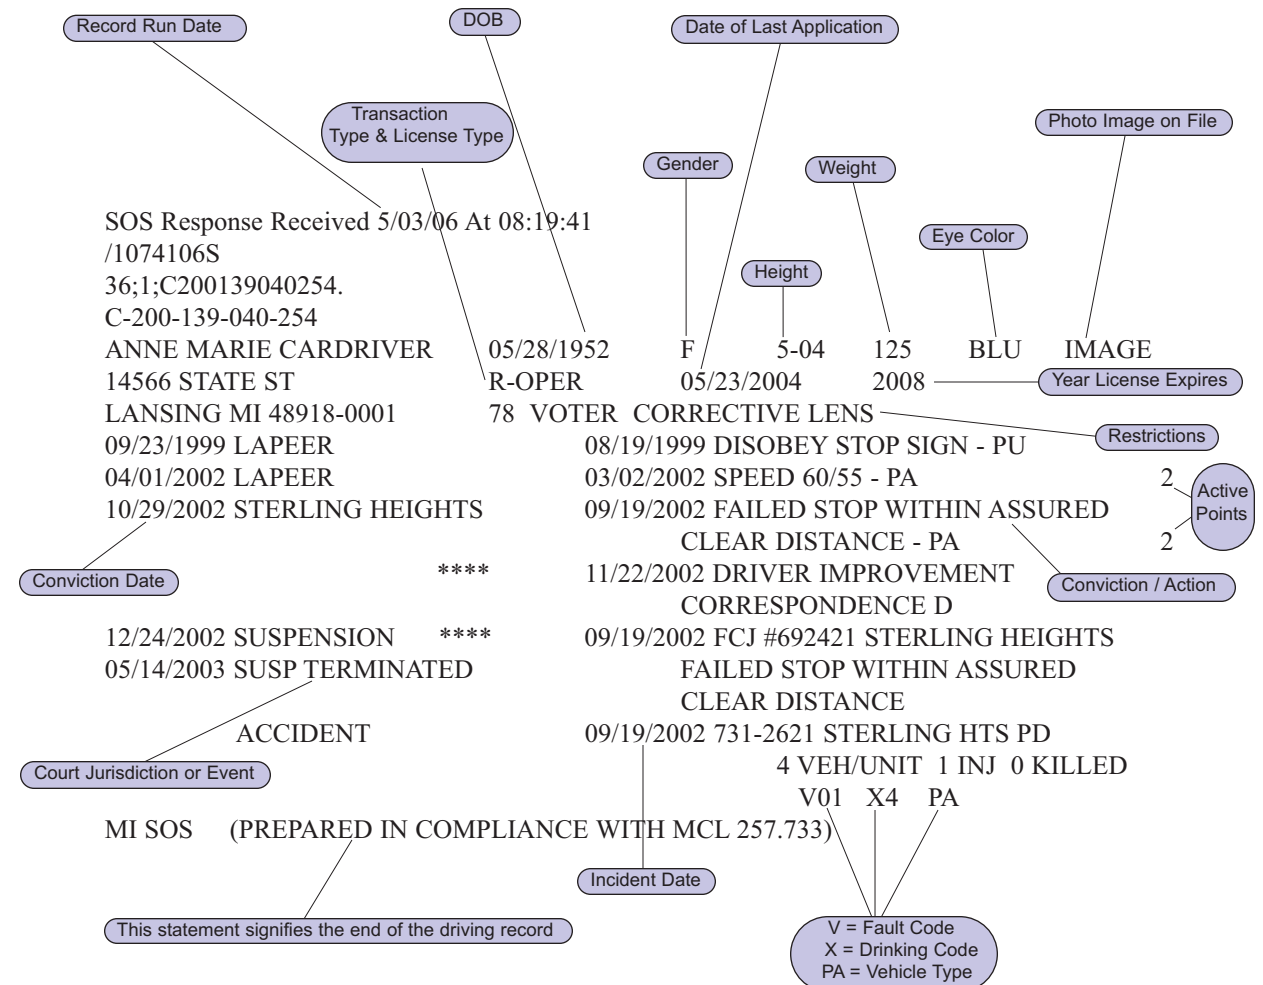

Driving record information originates from Secretary of State branch offices, police agencies, courts, other states, internally from within the Department of State and the Department of Public Health.

A driving record includes such things as convictions for traffic violations, civil infraction determinations, failure to answer court judgments, crashes, and license withdrawal actions or restrictions on driving privileges.”

**PLEASE NOTE:** The above quote is taken from the SOS publication *How To Effectively Interpret Information Found On A Driving Record*. Please see the MDOS website below or call the MDOS Information Center at 517-322-1460 for more detailed information explaining driving records beyond what is described in this User Guide.

**Example: Driver Record Inquiry Response, continued**

<b>Commercial Driver License (CDL) Groups</b>	
A	Allows driver to operate a vehicle which tows another vehicle with Gross Vehicle Weight Rating (GVWR) of 10,000 pounds. Group A also allows the driver to operate Group B & C vehicles.
B	Allows driver to operate a single vehicle having GVWR of 26,001 or more and/or a combination of vehicles having GVWR towing a vehicle not more than 10,000 pounds GVWR. Group B also allows the driver to operate Group C vehicles.
C	Allows driver to operate small vehicles designed to carry 16 or more passengers including the driver and/or a small vehicle carrying hazardous material in small amounts, requiring a placard showing hazardous materials on board.

CDL endorsements may follow the CDL Group designation. There are four CDL endorsements that are required to operate specific types of vehicles. These endorsements are shown in the table below.

<b>Commercial Driver License (CDL) Endorsements</b>	
T	Double Trailers - Needed on a Group A license when towing two trailers. (Triple trailers are not permitted in Michigan.)
N	Tankers - Required on Group A or B licenses when hauling liquids or liquefied gases in bulk in permanently mounted tanks, or portable tanks rated at 1000 gallons or more. A tanker endorsement may also be needed on a Group C license when hauling hazardous materials in a small tanker.
H	Hazardous Materials - Needed on a Group A, B, or C license when carrying hazardous materials or hazardous waste in amounts requiring the vehicle to be placarded.
P	Passenger - Required on Group A, B, or C license when the vehicle is designed to carry 16 or more people, including the driver.

## Example: Vehicle Identification Number Response

The SOS response shown below would result from an inquiry using **SYS** in the *Access Type:* field with the SOS lookup number **51;1;** in the *Key:* field.

## Criminal Penalties for Misuse of Department of State Records

Any personal information obtained from Department of State records are restricted for use in carrying out statutorily permissible purposes. Law enforcement officers, civilian staff and court staff who access license plate or driver license records for personal use can be prosecuted for a Driver Privacy Protection Act (DPPA) felony. See MCL 257.903 for further details and specific penalties.

*This space reserved for your notes.*

# LEIN INQUIRIES

*This chapter will provide general LEIN information, descriptions of LEIN inquiries, and examples of LEIN inquiries.*

## Law Enforcement Information Network

The Law Enforcement Information Network (LEIN) is a Michigan based computerized information system established as a service to Michigan's criminal justice agencies. It is the goal of LEIN to maintain accurate and timely documented criminal justice information readily available to all criminal justice agencies.

LEIN stores criminal justice information which can be instantly retrieved from computer equipment located at Michigan State Police Headquarters and furnished to any authorized agency through a LEIN or LEIN linked terminal. Through the Judicial Information Systems (JIS) interface with LEIN, courts have access to criminal histories/history reporting, warrant entry/recall, out-of-state driving records, entry/cancellation of conditional bond release information and probation orders, and sex offender registration. The LEIN information in this User Guide is meant to be a general guide for using the LEIN network on the JIS system. All courts should have a copy of the LEIN Operations Manual to assist them in these and other functions not described in this User Guide.

The LEIN system also provides an interface and message forwarding to various agencies on a statewide and national basis. The major agencies that interface with LEIN are given below and described in greater detail beginning on page 3-3.

- **NCIC**      **National Crime Information Center**
- **III**        **NCIC Interstate Identification Index**
- **NICS**      **National Instant Criminal Background Check System**
- **NLETS**    **National Law Enforcement Telecommunications Systems**  
                  {including the **Canadian Police Information Centre (CPIC)**}
- **SOS**        **Michigan Secretary of State**
- **CMIS**      **Michigan Corrections Management Information System**

General policy concerning the operational principles of LEIN is based upon the recommendations of the Criminal Justice Information Systems (CJIS) Policy Council.

## LEIN Access and Penalties for Misuse

Full LEIN access is allowed to the following criminal justice agencies in the performance of their legitimate criminal justice duties:

- Courts (Criminal Divisions only)
- Correctional Agencies
- Governmental Law Enforcement Agencies
- Pre-trial Service Agencies
- Probation and Parole Agencies
- Prosecutors

Courts are cautioned that their right to access LEIN data is restricted to what can reasonably be construed to be related to their official, mandated responsibilities.

Criminal penalties for the misuse of LEIN are provided in Section 4 of the LEIN Policy Council Act, MCL 28.214, effective February 1, 2006. This specifically states:

- (6) A person who intentionally violates subsection (3) or (5) is guilty of a crime as follows:**
- (a) For a first offense, the person is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$500.00, or both.**
- (b) For a second or subsequent offense, the person is guilty of a felony punishable by imprisonment for not more than 4 years or a fine of not more the \$2,000.00, or both.**

Questions on LEIN access restrictions or other LEIN polices should be addressed by referring to Sections 1 and 17 of your LEIN Operations Manual, your Terminal Agency Coordinator (TAC) ~~or the Criminal Justice Information Systems (CJIS) Policy Council. The address and phone number for the CJIS Policy Council are given below.~~

~~CJIS POLICY COUNCIL  
714 S. HARRISON RD  
EAST LANSING, MI 48823  
PHONE: 517-336-2620~~

Executive Order 2008-17 abolished the CJIS Policy Council, transferring all of the authority, powers, duties, functions, records, personnel and property to the Department of State Police.

# LEIN and Interfaced Agencies

## LEIN

The Law Enforcement Information Network (LEIN) data files contain the following information that may be of interest to criminal justice agencies. Additional files that LEIN may provide information from can be found in the LEIN Operations Manual.

**Michigan Criminal History Records System (CHR).** The CHR System is an automated file that contains persons with a Michigan criminal history record.

**Wanted / Missing Persons.** This file includes individuals that are wanted for:

- Civil Infraction Bench Warrants
- Felony and/or Misdemeanor Warrants
- Criminal Bench Warrants
- Civil Warrants
- Non-Criminal Processes
- Injunctive Orders
- ATF Violent Felons

**Sex Offender Registrations.** This file contains persons convicted of certain offenses under Public Act 295 of 1994, as amended.

**Probation Conditions.** The Adult Probation Conditions File was added to LEIN in August, 1999 and are mandated to be entered in LEIN under Act 449, P.A.1998, when a condition includes the protection of one or more named persons. Other conditions of adult probation may also be entered, but is not mandated. Also, a Juvenile Probation Conditions File was added to LEIN in April, 2000, and entries are not mandated, but may be entered in LEIN at the discretion of the court of jurisdiction. (Quote from LEIN Operations Manual, Section 1.2, 1/1/02)

## National Crime Information Center (NCIC)

The National Crime Information Center (NCIC) is the Federal Bureau of Investigation's (FBI) national headquarters computer system, providing out-of-state criminal justice information files to all local, state, and federal agencies. Through NCIC, LEIN users are able to receive criminal justice informational files from other states.

## NCIC Interstate Identification Index (III)

NCIC III is an automated system that provides interstate exchange of Criminal History Record Information (CHRI). Through NCIC III, LEIN users are able to receive out-of-state criminal history records.

## **National Instant Criminal Background Check System (NCIS)**

The National Instant Criminal Background Check System (NCIS) is a nationwide system operated through NCIC and the states to obtain information on individuals who may be prohibited from receiving or possessing a firearm under federal or state law. Refer to Section 11 (CHR & III Criminal History) of the LEIN Operations Manual for specific files and information available from NICS.

## **National Law Enforcement Telecommunications System (NLETS)**

The National Law Enforcement Telecommunications System (NLETS) is the message switching computer link between Michigan LEIN users, other states, US territories, and Canada. Through NLETS, Michigan LEIN users are able to communicate with out-of-state and Canadian criminal justice agencies and motor vehicle/driver record files.

## **Michigan Secretary of State (SOS)**

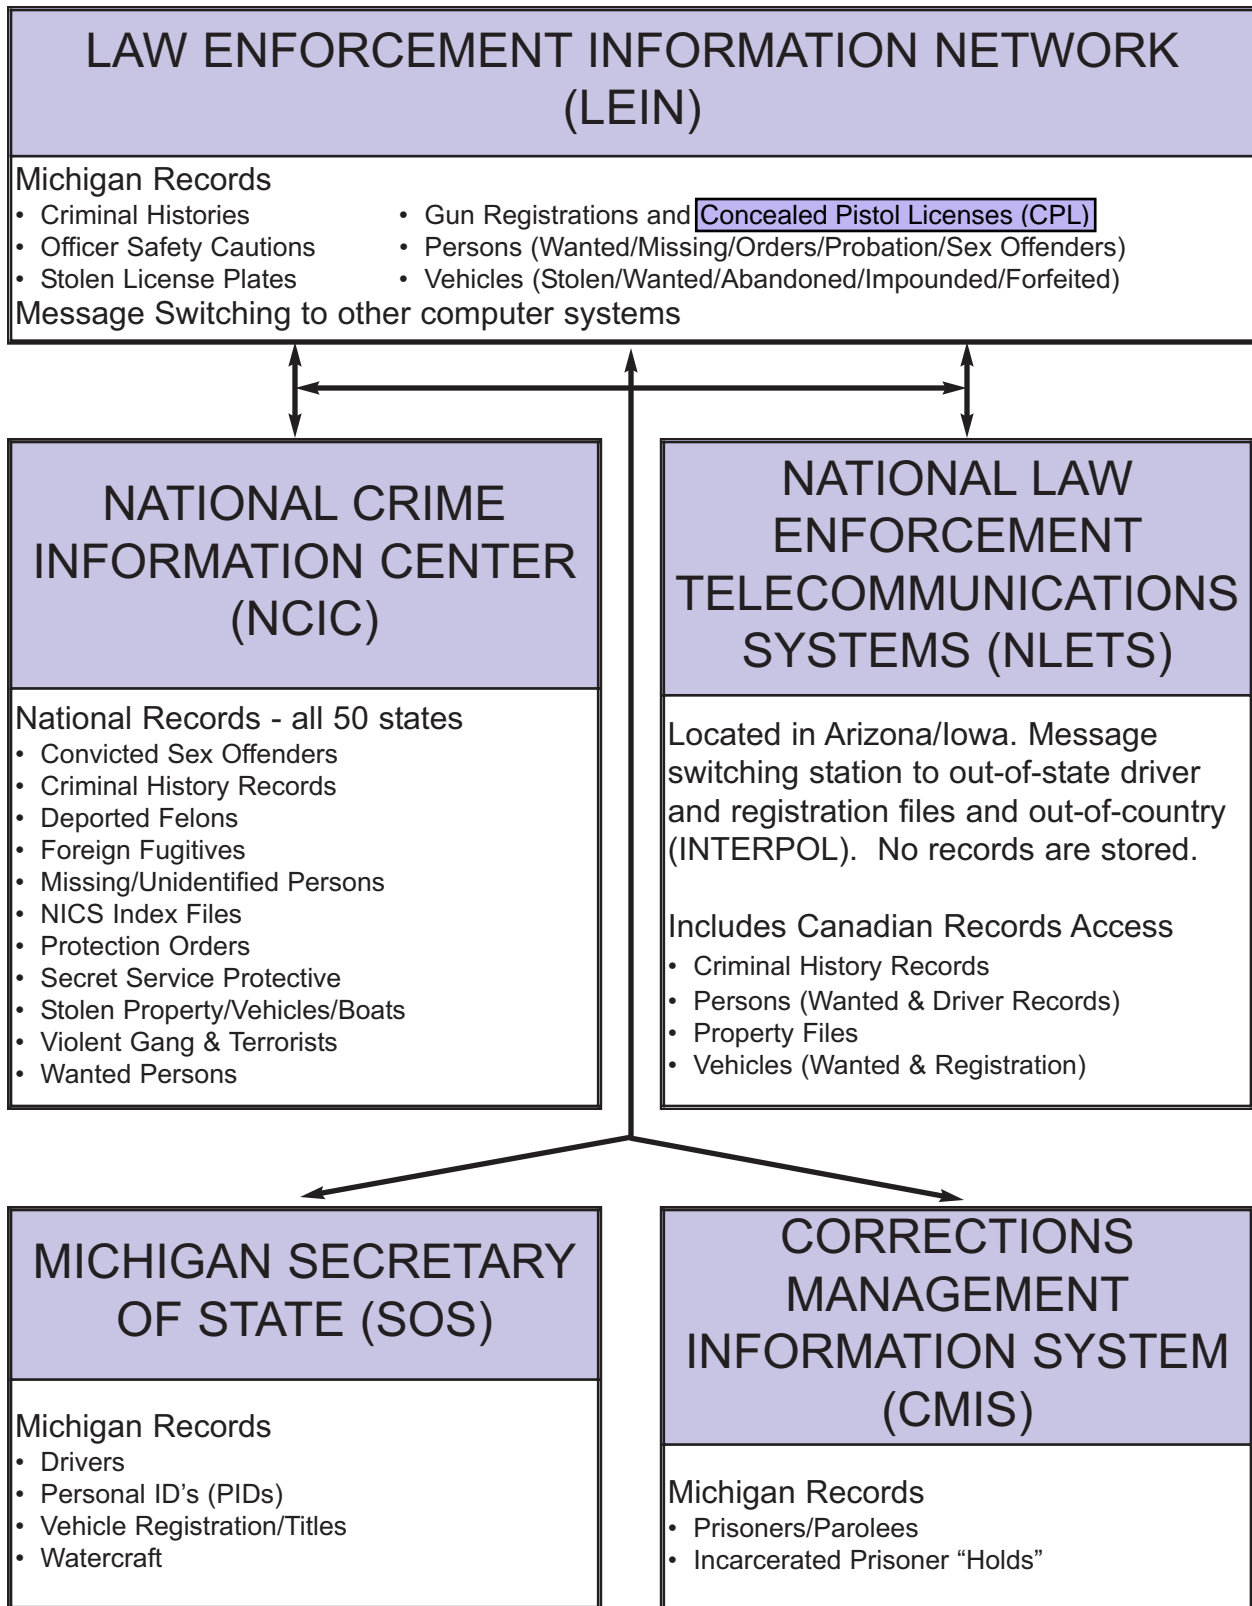

Also known as the Department of State (DOS), the Secretary of State (SOS) computer system contains Michigan Vehicle and Driver Record Information. Through SOS, LEIN users are able to receive Michigan vehicle registration and title information, driving and boating records, and personal identification records.

If you wish to access SOS information without going through the more complex LEIN system, use the SOS Inquiry screen as described in Chapter 2 of this User Guide.

## **Michigan Corrections Management Information System (CMIS)**

The Corrections Management Information System (CMIS) contains records for all persons assigned a Michigan Client (Prison) Number. Through CMIS, LEIN users are able to receive prison information on persons incarcerated, on parole, or in a community placement facility in Michigan. In addition, information is available on persons who have been discharged from a Michigan prison, have escaped from prison, or who once were a prison inmate but are now deceased.

# LEIN and Interfaced Systems Chart

## Terminal Agency Coordinator

NCIC requires each agency to have a Terminal Agency Coordinator (TAC). The TAC shall be a person versed and knowledgeable in rules, regulations, applications and operation of LEIN/NCIC and the interfaced systems. The TAC shall have the authority to act on behalf of the departmental agency head as liaison with the LEIN Field Services Section. Please refer to Section ~~1.17~~ of the Lein Operations Manual for further details.

October 2009:  
Changed to  
Section 1.13.

TAC duties and responsibilities include:

- Serve as primary liaison with the LEIN Field Services staff
- Ensure system integrity regarding security, access and dissemination of LEIN/NCIC information
- Coordinate training and operator proficiency testing
- Maintain and update LEIN and NCIC manuals
- Ensure compliance with LEIN/NCIC record validation
- Coordinate audits with LEIN Field Services Section
- Establish communications channels with other criminal justice agencies
- Attend all applicable LEIN/NCIC training

Chapter 5 - LEIN TAC Selection Menu will explain how to certify LEIN operators, validate warrants online, and get a history log of criminal history inquiries.

**January 2009:** Each agency must also appoint a Local Agency Security Officer (LASO). This person serves as the the security point-of-contact for local agencies that have access to the criminal justice network and shall be responsible for ensuring compliance with LEIN and NCIC security policies, rules, and regulations. This person could also be the TAC.

## Operator Certification

The TAC is responsible to test and certify all operators. An operator is defined as any person that uses a computer terminal to access or update, no matter to what degree, LEIN/NCIC data. In addition, the TAC is responsible to test and reaffirm these operators every two years. A 70% passing grade shall be attained by all operators. The court may elect a more stringent pass/fail qualification for certification. Certification and reaffirmation tests are provided in the TAC Manual or may be prepared by your agency.

The TAC must maintain a list of the operators that have been certified and reaffirmed in LEIN. For information about certifying and reaffirming LEIN operators, see Chapter 5 of this User Guide or refer to Section ~~1.18~~ of the LEIN Operations Manual. A sample certification test can be found in the LEIN TAC Manual distributed by the Michigan State Police.

October 2009:  
Changed to  
Section 1.14.

# LEIN Access Options

Type the most appropriate option in the *Option:* field from the **SOS & LEIN Selection Menu** or the **LEIN TAC Selection Menu** shown below and press **ENTER** to access the LEIN entry or inquiry screens. You can also type a Message Key in the *Option:* field and press **ENTER** to take you directly to the appropriate screen. Please see the table on the following page for a specific list of Message Keys that will work in the *Option:* field.

9. CHR Entry	<b>EJUD</b> , <b>MJUD</b> , <b>CJUD</b>
<b>LEIN TAC Selection Menu</b>	
1. LEIN Operator Certification	<b>CER</b>
2. QLOG Format	<b>QLOG</b>

The Message Keys used in the table above are further described on the following page and are given in alphabetical order. ~~A list of LEIN Message Key codes can be found in Section 2.11 of the LEIN Operations Manual.~~

**October 2009:** A list of Message Key Codes is no longer provided in the most recent edition of the LEIN Operations Manual.

<b>LEIN Message Key Codes</b>	
<b>Code</b>	<b>Message Being Sent to LEIN</b>
A	Administrative Message
CER	Certify LEIN Operator
CJUD	Cancel Judicial Information to CHR
CPB	Cancel Probation Orders
CPPO	Cancel Personal Protection Order or Injunctive Order
CSUP	Cancel Supplemental Record
CW	Cancel Wanted Person
EJUD	Enter Judicial Information to CHR
EPB	Enter Probation Orders
EPPO	Enter Personal Protection Order or Injunctive Order
ESUP	Enter Supplemental Warrant or Missing Person
EW	Enter Wanted Person
MJUD	Modify Judicial Information to CHR
MPB	Modify Probation Orders
MPPO	Modify Personal Protection Order or Injunctive Order
MW	Modify Wanted Person
Q	Query or Inquiry with summary response
QH	Query Criminal History Record files
QHW	Query Criminal History and Wanted Person files
QLOG	Query For Number of Requests for Criminal Histories
QO	Query Out-of-State ORI files
QPACC	Query Prosecuting Attorney's Coordinating Council (PACC) code
QPBN	Query Probation Records
QR	Query Criminal History Record files by SID/FBI/FPS
YQ	Administrative Message Requesting Hit Confirmation
YR	Administrative Message Responding to Hit Confirmation
ZO	Query Michigan ORI file

# LEIN Inquiry

The purpose of the LEIN Inquiry option is to request a search of the LEIN and/or interfaced computer systems files. The most common use is to search LEIN and NCIC files for wanted or missing persons or to access Criminal History Record (CHR) files. Other types of inquiries will also be described in this section.

- On the **SOS & LEIN Selection Menu** type **2 (LEIN Inquiry)** or **Q, QH, QHW** in the *Option:* field. Press **ENTER**.

```

*This table continues on the following page.*

Table continued from previous page.

LEIN Inquiry Screen Fields			
Field Name	Scan Line #	Information needed	Format
PNO:	20:	Person Entry Number (aka SYSIDNO) or NCIC NIC Number.	5035455 W494492796
PRN:	51:	Prison Number. Six digits assigned by Dept. of Corrections. (aka as Client Number or Inmate Number)	123456
STA:	10:	State. Two character code from a Country, State, US Territory, or Canadian Province.	MI BC (Appendix A)
OLN:	11:	Driver's License Number. Michigan drivers license number or state and drivers license number.	D616067108888 NY/B123456APEQ123456
PLT:	13:	License Plate Number. Michigan license plate number inquiry sent to SOS. For non-Michigan plates, use scan line LIC: (31:)	123FFG FFG123 AB123C A123BC
LIC:	31:	License Plate.	CCYMM/STATE/NUMBER 200608/IL/ILL123
LIT:	28:	License Plate Type. This line indicates the type of plate, not the style of vehicle. A vehicle may bear a commercial plate type (CO) - even though SOS titles the vehicle as a station wagon.	PC = Passenger Automobile CO = Truck plate AQ = Antique (Historic) Plate DX = Handicapper MC = Motorcycle (Appendix H)
VIN:	32:	Vehicle Identification Number.	1GKDM19W1WB512345
SOC:	12:	Social Security Number.	123456789
MNU:	40:	Miscellaneous Identifying Number. You must use a two character code followed by a hyphen, then the number. May include alpha characters.	SS-12345678 (SS = Selective Service Number) (Appendix B)
CNL:	43:	Cancelled Record Information. LEIN will return cancelled records as follows: <ul style="list-style-type: none"> <li>• Within last year for wanted and missing persons, sex offenders, probation and custody orders.</li> <li>• Within last year for stolen, impounded, abandoned, and forfeiture vehicles containing a VIN.</li> <li>• Within last 15 days for wanted vehicles and vehicles entered without a VIN.</li> </ul>	YES
MIS:	41:	Remarks. Used to include additional information or to further describe a record.	FREE TEXT - 200 CHARACTERS

**The Add'l Information:** lines are for using other scan lines that are not available on the LEIN Inquiry screen. A period is required at the end.

## Function Keys: LEIN Inquiry screen

Function Key	Description
F5-Retrieve	Retrieve information entered from last request if you have not left the LEIN Inquiry screen
F6-Dsp/Prt	<del>Go to the Display Messages screen when you have a MW (message waiting) at bottom of screen</del> See page 2-4
F7-Outq	<del>Display the Work with Output Queue screen and determine the status of responses</del> See page 2-4
F12-Line #'s	Convert literal field names to scan line numbers
F12-Literals	Convert scan line numbers to literal field names
F24-Previous Menu	Return to the <b>SOS &amp; LEIN Selection Menu</b>

## Types of Searches - Inquiries

Type of Search: \_\_\_\_ (Q-Inquiry, QH-Criminal Histories, QHW-Both)

The *Type of Search*: field shown above accepts options for inquiry in LEIN. The most common are described below. The number following the description is the section of the LEIN Operations Manual (LOM) where you can find further information.

Type of Search:	Description of Search - Inquiries
Q	Used for all valid operational inquiries and will cause a search of LEIN and NCIC (III) files for open warrants. (LOM, 6.1) Concealed Pistol License (CPL) File.
QCCW	Inquire on a Permit Number in the <del>Handgun (CCW) License File</del> . This inquiry will not check the LEIN/NCIC wanted person files.
QH	Search for possible matches in Michigan CHR and/or NCIC files for a segment of the criminal history. When used with the SID, FBI, CTN or PRN a more complete criminal history record can be obtained. (LOM, 6.4)
QHIT	Search the LEIN "No-Hit" File. The "No-Hit" File contains records of recent inquiries by other courts/agencies also without a "hit". (LOM, 6.1)
QHW	Search the LEIN and NCIC CHR files, and also the LEIN and NCIC Wanted Persons and Missing Persons Files. (LOM, 6.4)
QPBN	Search the Probation Conditions File only using the Probation Number. (LOM, 5.17)
QR	This search provides the full CHR from the SID number for Michigan and each state or federal CHR from NCIC by using the FBI number. This inquiry is done after an initial "Q", "QH", or "QHW" inquiry that provides the Michigan SID number or FBI number. (LOM, 6.4)
QWAR	Produce a list of up to the 100 most recent warrant records entered by an ORI that are still active. (LOM, 6.1)
ZO	Obtain ORI number information by either using the ORI number as the search criteria to determine the agency or using agency location to obtain the ORI number. (LOM, 6.10)

## Purpose Field (**PUR:** or **52:**)

A maximum of 17 characters, including the slash, are allowed in this scan line. This field is required with all Michigan Criminal History Record (CHR) System and NCIC Interstate Identification Index (III) inquiries to describe the purpose of the inquiry. The most common of the inquiries used in the District Court System are shown in the table below. Refer to Section 12 of the LEIN Operations Manual for specific use of these and other Purpose codes. See page 3-25 of this User Guide for Canadian inquiry Purpose codes.

October 2009:  
Changed to  
Section 11.

Per MSP Court Disposition Issues 2/23/09: See additional Purpose inquiries in Appendix K on page A-13.

Purpose	PUR: (52:) Format
Criminal Justice	C/(purpose of inquiry) C/Arrestment C/Sentencing
Criminal Justice Employment	J/(purpose of inquiry) J/Probation Officer J/Court Clerk
Concealed Weapon Permit Inquiry	F/(purpose of inquiry) F/COW
<p><b>Controlled Substance</b></p> <p>To determine if a defendant has used the provisions allowed under MCL 333.7411 (Controlled Substance). This information is suppressed if using the purpose code "C".</p>	<p><b>7411</b></p> <p>(This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Conviction Set Aside</b></p> <p>To determine if a defendant has used the provisions allowed under MCL 780.621 (Setting Aside Conviction).</p>	<p>CSA/(purpose of inquiry)</p> <p>CSA/Arrestment CSA/Sentencing</p> <p>(This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Domestic Abuse</b></p> <p>To determine if a defendant has used the provisions allowed under MCL 769.4a (Domestic Assaults). This information is suppressed if using the purpose code of "C".</p>	<p><b>ABUSE</b></p> <p>(This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Holmes Youthful Training Act</b></p> <p>To determine if a defendant has used the provisions allowed under MCL 762.14 (Holmes Youthful Training Act). This information is suppressed if using the purpose code of "C".</p>	<p><b>HYTA</b></p> <p>(This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Identification Segment</b></p> <p>It is recommended that LEIN operators use this prior to entering a warrant into LEIN, to "pack" the record with additional information, such as physical descriptors and alias names. An inquiry by name using QH or QHW will return any possible matches along with the SID. Then an inquiry by the SID using QR is made to obtain the Identification Segment.</p>	<p>I/(purpose of inquiry)</p> <p>I/Warrant</p>

2/23/09: The CSA Purpose code also is used for Set Aside Adjudication under MCL 712A.18E

 **REMINDER:** Scan line *MIS: (41:)* may be used to further describe the purpose of the inquiry.

## QH or QHW Inquiry

Law Enforcement Information Network Inquiry Print

Type of Search: Q (Q-Inquiry, QH-Criminal Histories, QHW-Both)

OPR: JAY    FOR:     PUR:

NAM:     RSX: U \_

DOB:     OCA:     SOS:     CMS:

**Required fields for a QH or QHW inquiry are shaded**

FIELD	INFORMATION	FORMAT
Type of Search:	Type of search requested	QH or QHW
OPR: (55:)	Operator Field is automatically populated by JIS with your AS400 User ID	D1500JLF
FOR: (56:)	Person/Agency Requesting	JUDGE MARSCHALL/99TH DC
PUR: (52:)	Purpose code and reason	C/ARRAIGNMENT (See previous page for codes)
NAM: (1:)	Name of defendant	SMITH/JOHN/ROY/JR
RSX: (2:)	Race / Sex Race field is populated by JIS with an U, but may be changed.	W M <span style="float: right;">(Appendix A)</span>
DOB: (7:)	Date of birth (YYYY/MM/DD)	19560614
OCA: (15:) - or - MIS: (41:)	OCA: (15:) Court case number MIS: (41:) Remarks At least one of these is required. The MIS: field is not shown in screen example above.	06-12345

## Q Inquiry

The Q inquiry searches LEIN and NCIC (III) files for open warrants. The required fields are the same as the QH or QHW shown above, with the exception of *PUR: (52:)*. This field must be omitted unless it is an inquiry to Canada (see page 3-25 for more information on LEIN inquiries for Canadian records). A Q inquiry cannot be performed with an out-of-state SID number.

## QR Inquiry

The QR inquiry results provide the full CHR. After the initial Q, QH, or QHW inquiry, type the FBI number in *FBI: (39:)* or the Michigan SID number in *SID: (50:)* and press **ENTER**. To avoid getting the warrant check information again, use a QR request instead of another QHW with the FBI or SID number. If both numbers are known, use only the FBI number. If it is an out-of-state SID number, you must enter the number and the state.

## Probation Records Inquiry (QPBN)

The probation conditions are entered into LEIN similar to warrants, using different message keys and some additional scan lines. An inquiry into the LEIN “hot” files (wanted/missing persons) may also return a probation record when you use Message Keys Q, QHW, or QH with purpose code F/. Also, Message Key QPBN may be used to query into the Probation Conditions File **only** using a Probation Number PBN: (87:).

Query Probation Number Required Fields

## LEIN Inquiry for Canadian Records

You may also access Canadian criminal, driving, and vehicle records through LEIN. A few examples are found in this section. Further information on Canadian inquiries and responses may be found in the LEIN Operations Manual, Section 6.9 and ~~15-4~~.

October 2009: Changed to Section 13-4.

### Canadian LEIN Inquiry Purpose Codes

Each LEIN inquiry to Canada must have a Purpose Code *PUR*: (52:). Canada only allows the Purpose Code "C" (*PUR:C/reason*) for criminal history inquiries. Other Canadian inquiries must indicate a Reason Code, followed by a Person/Property In-site Code indicating whether the subject of the message is present or "in-site". These two codes are separated by a slash "/", i.e., *PUR:TY*.

#### REASON FOR REQUEST

Narcotics  
 Fraud (includes counterfeit documents)  
 Violent crimes (includes robbery, murder, rape, bombing, etc.)  
 Traffic Violations  
 Theft  
 Humanitarian

#### REASON CODE

N  
 F  
 V  
 T  
 S  
 H

#### PERSON/PROPERTY IN-SITE

Yes  
 No

#### CODE

Y  
 N

A few examples of Canadian LEIN inquiries begin on the following page.

## ORI Lookup Files (QO and ZO)

ORI lookup files are maintained by LEIN, NCIC, and NLETS. These files are accessed by inquiring on the ORI of an agency. Message keys QO and ZO are used to access these files with data in the *Add'l Information:* field. For example, a ZO inquiry on a Michigan ORI will return a response from LEIN containing the agency name, mnemonic, address, telephone number, fax number, TAC, and hours of operation. You can also obtain an ORI by using the location and type of agency as the search criteria. Please see the table below for further descriptions and format. Complete the appropriate fields and press **ENTER** to process your inquiry. A few examples are on the following page.

Further descriptions of these and other ORI inquiries can be found in Section 6.10 of the LEIN Operations Manual.

<b>QO and ZO Inquiries</b>	
<i>Type of Search:</i> field	<i>Format for Add'l Information:</i> field
ZO (Obtain Michigan ORI information)	ORI/MI630995J.
QO (Obtain out-of-state ORI information)	ORI/TXDPD0000.
ZO (Obtain ORI for specific agency by City/County/State location)	LOC/SOUTHFIELD.STA/MI.TYP/JJ. (LOC/CITY or COUNTY.STA/STATE CODE.TYP/TYPE CODE.) *See Agency Type Codes below.
ZO (Obtain ORI for all federal agencies in a state)	FED/FBI.STA/TX. (see 6.10 of LOM for Federal Agency Codes)
ZO (Obtain ORI for federal agencies in specified city)	FED/FBI-SAN ANTONIO.STA/TX.

### \*Agency Type Codes for ZO Inquiry by Location

#### Law Enforcement Agencies

PD - an agency of city government  
 SO - an agency of county government  
 SA - a state agency with statewide jurisdiction  
 FE - a federal agency.  
 LE - an agency not fitting the above criteria

#### Non-Criminal Justice Agencies

NJ - non-criminal justice agencies  
 (i.e., Secretary of State)

#### Criminal Justice Agencies

JA - prosecutor  
 JC - corrections agency  
 JG - probation agency  
 JJ - court agency  
 JF - federal non-law enforcement  
 criminal justice agency  
 CJ - defined non-law enforcement  
 criminal justice agency

## Recent Wanted Person Entries (QWAR)

The QWAR inquiry is performed on the LEIN Inquiry screen and will produce a list of up to 100 of the most recent wanted person record entries for your ORI, provided the warrant entries are still active at the time of the inquiry. A date range may also be used for warrant entries that fall outside of the most recent 100. The four QWAR inquiries available are given below.

- Records entered by a specific ORI
- Records entered by a law enforcement ORI for a specific court ORI
- Records entered by a court with a specific law ORI
- Recent cancelled records

When you press **ENTER** your court ORI (53:) is automatically sent by JIS on any LEIN inquiries or entries and is not shown on the LEIN Inquiry screen. A few examples of these inquiries using both literal and numerical scan lines are given below and on the following page. Further information regarding QWAR inquiries can be found in Section 6.1 of the LEIN Operations Manual, the November 2001 LEIN News Bulletin, and a letter dated November 26, 2007 sent to all Terminal Agency Coordinators from Charles Hoffmeyer, Analyst, CJIS Field Services Unit detailing changes to QWAR effective March 1, 2008.

**PLEASE NOTE:** A slight delay should be expected to receive a response to a QWAR inquiry. This list is updated twice daily, at 6:00AM and 5:00PM.

## Multiple Driver License Number Inquiries

The LEIN DLN Inquiries screen is available to request up to 17 Michigan and/or out-of-state driving records. In addition to the driving record, this inquiry will also perform a Q inquiry (open warrant check).

If you only need a Michigan driving record, use the Secretary of State Inquiry screen accessed from the **SOS & LEIN Selection Menu**. Refer to Chapter 2 of this User Guide for more information about requesting Michigan driving records from the Department/Secretary of State.

- On the **SOS & LEIN Selection Menu** type **5 (LEIN Multiple DLN Inquiry)** in the *Option:* field. Press **ENTER**.

**Accessing the LEIN DLN Inquiries screen  
from the SOS & LEIN Selection Menu**

Canadian driving and criminal history inquiries information can be found starting on page 3-25 of this User Guide.

## Hit Confirmation Request (YQ)

The LEIN/NCIC Hit Confirmation Request (YQ) screen is used to determine if a warrant in LEIN is currently valid. This is often referred to as a YQ inquiry (with YQ being the Message Key) and further information can be found in Section 15 of the LEIN Operations Manual.

October 2009:  
Changed to  
Section 13.

- On the **SOS & LEIN Selection Menu** type **6 (Hit Confirmation Request)** or **YQ** in the *Option:* field. Press **ENTER**.

**Accessing the LEIN/NCIC Hit Confirmation Request screen  
from the SOS & LEIN Selection Menu**

The LEIN/NCIC Hit Confirmation Request (YQ) screen is shown below with a sample entry. The top half of the screen is used for confirming warrants on wanted persons. The bottom half of the screen under Other Hit Types is used for confirming wanted vehicles or property. This section of the User Guide will deal with wanted persons. You can refer to Section 15 of the LEIN Operations Manual for guidance on the Other Hit Types section.

October 2009: Changed to Section 13.

# LEIN ENTRIES

*This chapter will focus on how to send an Administrative Message, enter, modify, or cancel warrants, injunctive orders, probation orders, and criminal history records..*

## Record Accuracy/Second Party Check

This chapter of the SOS & LEIN User Guide is meant as an instructional tool while using the JIS System when submitting LEIN entries. Record accuracy is essential when submitting LEIN entries. If you have questions outside the realm of this User Guide, please refer to the LEIN Operations Manual (LOM), contact your Terminal Agency Coordinator (TAC) or refer to page 1-4 of this User Guide, Where to Get Help.

The following is quoted from the LEIN Operations Manual (~~Sec. 1-19, page 63~~):

**Agencies that enter records into LEIN are responsible for their accuracy, timeliness and completeness. To assure the proper operation of the system, the standards, formats and criteria as set forth herein must be strictly adhered to. Stringent administrative procedures and controls are important to ensure that accurate data is entered in computerized criminal justice information systems. An officer's evaluation of the information contained in a hit response is just as important as keeping the information accurate, timely, and complete. Combining these controls with proper evaluation by the officer receiving the LEIN record can prevent lost court cases, civil liability suits, and criminal charges against the law enforcement officer.**

October 2009:  
Changed to  
Section 1.15.

The CJIS Policy Council approved the definition of a second party check to help ensure record accuracy. Administrators and LEIN Terminal Agency Coordinators (TACs) should ensure that their agency is in compliance with this policy (LEIN Operations Manual, ~~Sec. 1-19, page 63~~).

**The accuracy of a record entered into LEIN/NCIC must be verified either by a second party or doublechecked. Agencies lacking support staff for this verification should require the case officer to check the accuracy of the record. The verification of a record should assure that all available crosschecks, e.g., VIN/LIC, were made and that the data in the LEIN/NCIC record match the data in the investigative report. The second party check shall be completed within 48 hours (excluding weekends and holidays) of the entry of the record in LEIN/NCIC.**

All data fields entered by the user (such as for a warrant entry, modify warrant, enter judgment, etc.) will be returned with the LEIN acknowledgment to assist with the second party check. An example of a LEIN acknowledgment response to a warrant entry is shown below.

```

The first six lines are the acknowledgment from LEIN. The remaining indented lines are supplied by JIS to show what scan lines were entered and assist you with your second party check.

#### LEIN Acknowledgment

## Administrative Messages

Administrative Messages are used to transmit messages from one ORI to one or more ORIs. These messages contain a destination header or address line, followed by the text of the message. This format might be used for several reasons:

- Send a message to a Michigan police department ORI to cancel a warrant
- Send a message to an out-of-state police department ORI to inquire about a driving record if the state is not automated
- Confirm attendance at a LEIN sponsored training
- Send inquiries to probation/parole departments regarding defendants

Further information on Administrative Messages can be found in the LEIN Operations Manual. Refer to Section 2 for in-state messages through LEIN and Section 15 for out-of-state messages through NLETS.

## Prohibited Administrative Messages

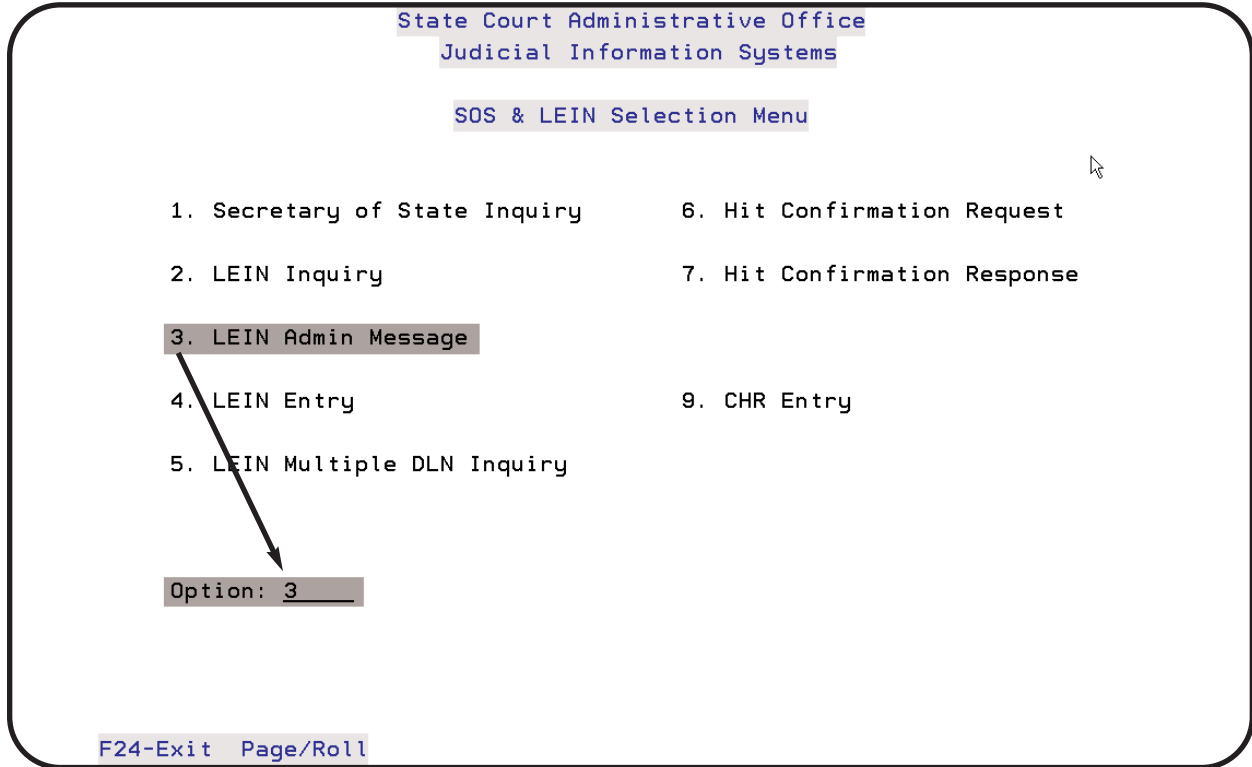

Some types of Administrative Messages are not allowed. A few examples are given below. If in doubt, contact your Terminal Agency Coordinator.

- Matters unrelated to valid criminal justice purposes
- Social announcements
- Recruiting of personnel
- Transmission of subpoenas
- Excessively long messages
- Attempts to locate vehicle (breach of trust) without a warrant
- Messages in which a complainant is interested in property recovery

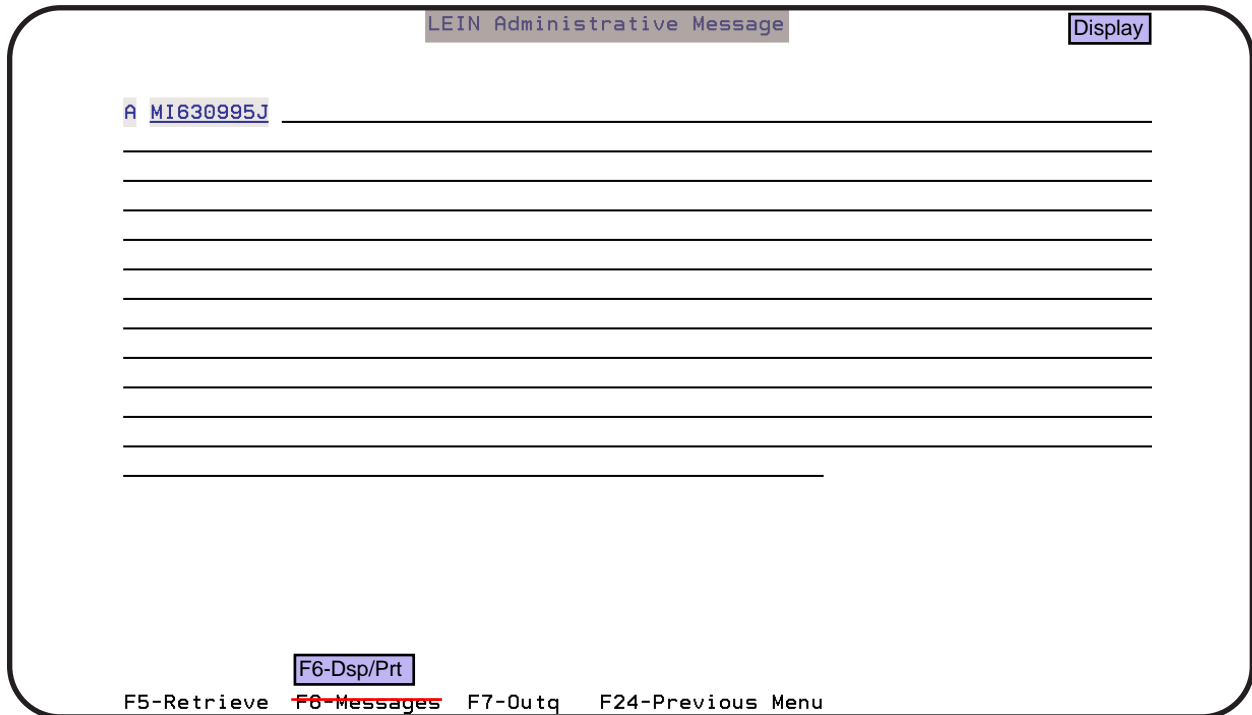

# Administrative Messages (In-State)

The first step to sending an Administrative Message is to access the LEIN Administrative Message screen.

- On the **SOS & LEIN Selection Menu**, type **3 (LEIN Admin Message)** or **A** in the Option: field. Press **ENTER**.

**Access the LEIN Admin Message screen from the SOS & LEIN Selection Menu**

**LEIN Administrative Message screen**

**Function Keys: LEIN Administrative Messages screen**

F24-Previous Menu	Return to the <b>SOS &amp; LEIN Selection Menu</b>

**JIS Header Format**

Administrative Messages contain a destination header or address line, followed by the text of the message. The header line **must** contain the following:

- Message Key (A) (Field is populated by JIS)
- The Sender ORI or Mnemonic (Field is populated by JIS)
- The Destination agency ORI(s) or Mnemonic(s), with one space between ORIs
- A period must end the header line

The header line **may** also contain:

- The Sender ORI again if you want a printed copy of the sent Administrative Message

LEIN Administrative Message
Display

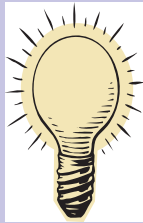

---

A MI630995J MI6375100 MI630995J.

This format example would send the message to the destination ORI and your ORI.

---

**LEIN Administrative Message Header**

**What is a Mnemonic?** A mnemonic is defined as a code which aids one in remembering. Only agencies with terminals directly linked to the LEIN system are assigned a four character alphabetic mnemonic. The mnemonic can be used in place of an ORI to send or receive an administrative message. For example, AAPD is the mnemonic for the Ann Arbor Police Department. The ORI must be used to send an administrative message out of state.

## Suggested Message Format for In-State Messages

Below is a suggested format for sending an Administrative Message in-state. Once you have typed your message, press **ENTER**.

Further information on in-state messages can be found in Section 2.4 of the LEIN Operations Manual.

LEIN Administrative Message
Display

The period is required on the destination header line.

---

1. Use an "ATT:" line to assist in routing the message.
2. Indicate in the "REF:" line if the message is in reference to a case number, warrant, previous message, etc.
3. Use abbreviations where possible. Keep sentences short and concise.
4. The "AUTH:" line is used only to authorize action by the receiving department. Do not use persons who are only an indirect authority.
5. Use paragraph spacing to facilitate easier reading

### In-state LEIN Administrative Message

## LEIN Responses to Administrative Messages

~~Each Administrative Message sent receives one of the following responses from LEIN:~~

- ~~• LEIN-ACK This is an acknowledgment message advising that the destination station(s) have received the message.~~
- ~~• An error message~~
- ~~• \$.7. A delayed message advising the destination agency has not immediately received the message. The destination will receive the message when it becomes operable. Each \$.7. will indicate the terminal agency(s) ORI or Mnemonic in the delayed message status.~~

**September 30, 2007:** The cut over to Next Generation LEIN by MSP eliminated the **LEIN-ACK** and **\$.7.** responses to an Administrative Message.

# Administrative Messages (Out-of-State)

Because of expanded communications capability between National Law Enforcement Telecommunications Systems (NLETS) states, standards have been established relative to the transmission of administrative messages. If the message includes information that is related to officer safety (i.e., armed and dangerous) this phrase should be placed at the top of the text on its own line to highlight the importance.

Messages may be simultaneously sent to up to 40 destination agencies in-state, but only five destinations out-of-state (through NLETS). Further information on out-of-state messages can be found in Section ~~15-1~~ of the LEIN Operations Manual.

October 2009:  
Changed to  
Section 13.

## Standard Format for Out-of-State Messages

Each out-of-state Administrative Message transmitted must be formatted in the prescribed manner. Each message must include the following fields after the header line:

- **MSG:**
- **FROM:**
- **TO:**
- **TXT (or) REF**

The fields of MSG:, FROM:, and TO:, must include the colon and end with a period. Periods are not permitted within the text of MSG:, FROM: or TO:.

Each line described below is limited to 72 characters across, except for MSG: and FROM:. MSG: and FROM: lines are limited to 63 characters. NLETS does not process over 72 characters on any line. **NOTE:** The JIS LEIN Administrative Messages screen lines are 79 characters across.

## Out-of-State Message Line Numbers

- LINE 1** Header: The same type header used in an in-state Administrative Message (described on page 4-5) is also used when sending an Administrative Message to an NLETS state. For example, following the A denoting an administrative message and your ORI (both populated by JIS), type in the the ORI of the NLETS destination agency.
- LINE 2** MSG: This field must be used to indicate your department's message number. To facilitate good communications procedure, agencies are urged to establish a message numbering system. There is a limit of 63 characters in this field. A colon must be included after MSG and the text must end with a period. Periods are not permitted within the text of MSG.
- LINE 3** FROM: Indicate the name of the sending agency. If desired, the sender's name and the sending department's name may be used. There is a limit of 63 characters in this field. A colon must be included after FROM and the text must end with a period. Periods are not permitted within the text of FROM.
- LINE 4** TO: Indicate the name of the destination agency. If desired, the name of the person to whom the message is directed may be included in addition to the name of the destination agency. There is a limit of 200 characters in this field. A colon must be included after TO and the text must end with a period. Periods are not permitted within the text of TO.
- LINE 5** TXT/REF - Either of these identifiers must be used preceding the actual text of the message. Data entered after TXT or REF is not edited.
- LINE 6 - 8** Text of the message. There is no limit to the number of characters permitted in this field. Each line should be limited to 72 characters across, as NLETS does not process over 72 characters. **NOTE:** The JIS LEIN Administrative Messages screen lines are 79 characters across.
- LINE 9** Signature line. Include name of person and/or name of sending agency, city, and state. Also, include operator's name or initials.

## Warrants

This section of the User Guide will cover warrant entry (EW), modifying warrants (MW), supplemental warrant entry (ESUP/CSUP), cancelling warrants (MW), and conditional bonds/injunctive orders (EW). This is a basic guide on using the JIS system for those courts that enter and/or cancel their own warrants. Further information on these topics can be found in Section 5.4 and elsewhere throughout the LEIN Operations Manual.

The various screens used for the above entries have some common fields and function keys. The two tables that follow provide the case information retrieved by JIS and the function keys used on the **Law Enforcement Information Network (LEIN) Entries (EW or MW)** screen, the **Supplemental Entries (ESUP/CSUP)** screen, and the **LEIN - Cancel Warrants Screen**.

EWR is the three letter hop code that allows a user to access the LEIN Entries screen from the Traffic/Criminal or Probation Subsystem. On any hop line, enter **EWR** in the *NXT* field, the case number in the *CASE* field, and press **ENTER**. The fields noted in the table below will already be populated if the case has been entered on the JIS system. **NOTE:** A user must be granted Security/Program Access in the Administrative System File and Program Authority Update to use this feature. See the Administrative User Guide for further details on Security/Program Access.

F12-Literals	Convert scan line numbers to literal field names
F24-Prev or F24-Prev Menu	Return to <b>TRAFFIC and CRIMINAL CASE MANAGEMENT, PROBATION, or SOS &amp; LEIN Selection Menu</b>

### Warrant Entry (EW)

The LEIN Entries screen is used to enter all warrant information into LEIN/NCIC. LEIN Administrative Rule 402 (2) states:

The entry shall be made as soon as possible after the investigating department either ascertains that a vehicle or other property is stolen or obtains a warrant for an individual's arrest. In no case shall this time be more than 12 hours after the user agency determines that it has grounds to believe that a vehicle or other property is stolen or that a wanted person should be taken into custody.

There are a two different ways to access the LEIN Entries screen to enter a warrant:

- On the **SOS & LEIN Selection Menu**, type a **4 (LEIN Entry)** or **EW** in the *Option:* field. Press **ENTER**.  
- OR -
- In the Traffic/Criminal or Probation subsystem, type **EWR** on the hop line in the *NXT* field. If you include the case number in the *CASE* field, many required fields will be populated on the LEIN Entries screen. Press **ENTER**.  
**NOTE:** Using EWR has several benefits that are described further beginning on the following page.

The LEIN Entries screen and the required fields for warrant entry are found on page 4-14.

### Using the Enter Warrant (EWR) Hop Code

If you have security authority you may use the hop code **EWR** from the Traffic/Criminal or Probation Subsystem in the *NXT* field. If you include the case number in the *CASE* field, several required fields on the LEIN Entries screen will be populated. Once you submit the entry to LEIN, several actions will be recorded on the Register of Actions.

NXT EWR CASE 07-0004 PTY D01 COUNT 1 INQ \_\_\_\_\_ ST \_\_\_\_\_

#### Using Hop code EWR from Traffic/Criminal or Probation Subsystem

The EWR process works as follows. ROA examples are given below.

- **When a warrant is sent to LEIN using the Enter Warrant (EWR) hop code and screen**, code WR32 [WARRANT ENTRY REQUESTED] will be automatically entered. The date and time of the request will be recorded in the text portion of the ROA, and in the *Misc* field of the Action (ACT) screen.
- **If the warrant is entered into LEIN**, code WR33 [SYSIDNO (20:) GENERATED BY LEIN] will be entered. The SYSIDNO will be recorded in the text portion of the ROA, and in the *Misc* field of the Action (ACT) screen. The SYSIDNO also will be stored, and if the warrant is cancelled using the EWR screen, it will be automatically filled in on the screen. Also, code WR30 [WARRANT ENTERED INTO LEIN] will be entered, and the case will be placed in warrant status. If the case was changed to warrant status prior to using the EWR process, the WR30 code will not be entered.
- **If the warrant entry is rejected by LEIN**, code WR34 [WARRANT REJECTED BY MSP, NOT ENTERED INTO LEIN] will be entered. The date and time of the rejection will be recorded in the text portion of the ROA, and in the *Misc* field of the Action (ACT) screen.

	***** END OF REGISTER OF ACTIONS		

Date and time of warrant request

Date and time of LEIN response

**ROA Entry - WARRANT REJECTED BY MSP, NOT ENTERED INTO LEIN**

A similar process works when using the EWR hop code to cancel a warrant. ROA examples are given below. See page 4-29 for more information on cancelling warrants.

- **When a warrant cancellation is sent to LEIN using the Enter Warrant (EWR) hop code and screen**, code WR35 [WARRANT CANCELLATION REQUESTED] will be entered. The date and time of the request will be recorded in the text portion of the ROA, and in the *Misc* field of the Action (ACT) screen.
- **If the warrant cancellation is accepted by LEIN**, code WR36 [WARRANT CANCELLATION ACCEPTED] will be entered. Also, code WR31 [WARRANT CANCELED FROM LEIN] will be entered, and the case will be removed from warrant status.
- **If the warrant cancellation is rejected by LEIN**, code WR37 [WARRANT REJECTED BY MSP, NOT ENTERED INTO LEIN] will be entered. The date and time of the rejection will be recorded in the text portion of the ROA, and in the *Misc* field of the Action (ACT) screen.

**December 2011:**  
JIS added Additional Offense (ADO: or 95:) and Ethnicity (ETN: or 100:) fields to the screen. The fields were not activated for use by LEIN at time of User Guide publication. See Appendix A and C.

**Information below can be added in the *Add'l Information:* field**  
**NOTE: This field must end with a period.**

FPC: (18:)	Fingerprint Class	See LEIN Operations Manual
VIN: (32:)	Vehicle Identification Number	32:IW80KAR412669.
VMA: (33:)	Vehicle Year, Make and Model	See LEIN Operations Manual
VST: (34:)	Vehicle Body Style	See LEIN Operations Manual
POB: (58:)	Place of Birth - state or country code	58:OH. (App. A or NCIC Manual)

**REMINDER:** If you access the LEIN Entries screen by using EWR and the case number from the Traffic/Criminal or Probation Subsystem, some fields will already be populated. See table on page 4-9 and EWR process on 4-11.

**REMINDER:** It is recommended that prior to entering a warrant into LEIN that a CHR inquiry be done using an Identification Segment purpose (PUR:) inquiry. You can obtain additional information, such as an alias, to help you "pack" the warrant entry. See page 3-15 for further details.

**Civil Infraction Warrants**

A LEIN entry of Civil Bench Warrants for Failure to Appear (FTA) on a Civil Infraction or Failed to Comply with Judgment (FCJ) violation will require an Offense/Charge Code *OFF: (17:)* indicating whether the original charge was for a violation of a local ordinance or state law. Enter one of the charge codes below in *OFF: (17:)*. The Warrant Type field *ENT: (14:)* must have a **1** (Civil Bench Warrant FTA/FCJ) entered.

- **0080** (Civil Infraction Local Ordinance)
- **0081** (Civil Infraction State Law)

In addition, a description of the charge must be entered in the *MIS: (41:)* field as shown in the example at the bottom of this page.

This information is important for Michigan State Police (MSP) officers because they do not have arrest authority for civil infraction warrants issued for violations of local ordinances. MSP officers only have the authority to arrest on civil infraction warrants issued for violations of state laws. Local and county law enforcement agencies have the authority to arrest for all civil infraction violations (local ordinance and state law).

Some courts may view a failure to appear as contempt of court and order a warrant for contempt of court. In that case, the Warrant Type field *ENT: (14:)* would have a **6** (Criminal Bench Warrant) and the Offense/Charge Code *OFF: (17:)* field **5005** (Contempt of Court).

**March 2008:** Per LOM 3.97, the *OCG:* field cannot be used with *OFF:* code **0080**. See LOM 3.97 for list of valid *OFF:* codes that can be used in conjunction with the *OCG:* field.

This is a Civil Infraction Local Ordinance Warrant (OFF:0080). Required fields are shaded. In this example the OCG: field was entered with 5405. 5405 is the Charge Code for Moving Traffic Violation. Description of the charge is required in MIS: field.

F5-Retrieve ~~F6-Message~~ F7-Outq F8-ESUP/CSUP F9-Cancel F12-Line #'s F24-Prev

**Civil Infraction Warrant Entry - Failure to Appear or Comply with Judgment**

**Misdemeanor Warrants**

When a warrant entry includes one of the Offense/Charge Codes *OFF: (17:)* listed below, the Original Charge Code *OCG: (97:)* is required. However, some agencies do not have this information. When the *OCG: (97:)* is not filled in, LEIN will automatically insert the same Offense/Charge Code in *OCG: (97:)* that is entered in *OFF: (17:)*. Whenever possible, agencies should include the Original Charge Code.

If the offense is written under state statute, use the corresponding 4-character LEIN Charge Code (Appendix E) in the *OFF: (17:)* field. If the offense is written under local ordinance, find the closest LEIN Charge Code matching the description or use a generic code such as 5499 - Traffic Offense or 7399 - Public Order Crimes.

**NOTE:** When using a generic LEIN Charge Code like 5499 - Traffic Offense in the *OFF: (17:)* field, the Miscellaneous field *MIS: (41:)* will need to indicate the actual description of the offense the defendant is charged with committing, such as DROVE WHILE LICENSE SUSPENDED or RECKLESS DRIVING.

Commonly used codes in the District Court are given below. A complete list may be found in Section 3.17 of the LEIN Operations Manual.

**Offense/Charge Codes *OFF: (17:)* requiring Original Charge Code *OCG: (97:)***

- 5012 - Probation Violation
- 5013 - Conditional Release Violation
- 5015 - Failure to Appear  
(5015 requires additional remarks - see following page)

In this example, 5012-Probation Violation was entered in *OFF: (17:)* field. This required an entry in the *OCG: (97:)* field and the PACC code was used.

F5-Retrieve ~~F6-Message~~ F7-Outq F8-ESUP/CSUP F9-Cancel F12-Line #'s F24-Prev

If *EXT: = YES*, then *EXL: (24:)* field (not shown) is required. See note on Page 4-14 and Appendix C.

**Offense/Charge Codes (OFF: or 17:) Additional Remarks**

Effective June 1, 2002, when one of the Offense/Charge Codes OFF: (17:) listed below is used, an additional description is required after the code to explain the offense. An example using **5015 - Failure to Appear** is shown in the screen example below.

- 0199 - Sovereignty
- 0299 - Military
- 0399 - Immigration
- 4901 - Escape (identify type of institution)
- 4902 - Flight to Avoid Prosecution, Confinement, etc
- 5005 - Contempt of Court
- 5015 - Failure to Appear (also requires the OCG: (97:) field)
- 5099 - Obstruct Judiciary, Congress, Legislature, or Commission
- 7099 - Crimes Against Person
- 7199 - Property Crimes
- 7299 - Morals-Decency Crimes
- 7399 - Public Order Crimes

**NOTE:** Effective October 1, 2007, the National Crime Information Center (NCIC) discontinued the use of charge codes 5050, 5051, and 5052. You should use 5015 for failure to appear entries.

## Modify Warrants (MW)

The purpose of the MW feature is to modify (add, change or delete) fields in a Wanted Person record entered in LEIN/NCIC. Modification can be made only by the ORI that entered the record and the State Control Terminal Agency (ELLT). ELLT can modify a record for quality control purposes. The entering ORI is notified via a LEIN automated message when ELLT modifies their record.

There are a two different ways to access the LEIN Entries screen to modify a warrant:

- On the **SOS & LEIN Selection Menu**, type **4 (LEIN Entry)** or **MW** in the *Option:* field. Press **ENTER**.  
- OR -
- In the Traffic/Criminal or Probation subsystem, type **EWR** on the hop line in the *NXT* field. If you include the case number in the *CASE* field, many required fields will be populated on the LEIN Entries screen. Press **ENTER**.
- The *Type of Entry:* field will be populated with **EW**. Change to **MW** for modifying a warrant and proceed to the fields you wish to modify.

Fields that cannot be modified, required fields for modifying a warrant, and fields that may be modified are given in the tables below and the following pages.

<b>Fields that Cannot be Modified</b>	
If any discrepancy exists in these fields, you must cancel the original entry and enter a new record.	
Field	Information
AKA: (19:)	Alias Name
PNO: (20:)	Person Entry Number
OPR: (55:)	LEIN Terminal Operator

<b>Required Fields for Modify Warrant</b>		
Additional fields are required if modifying a name NAM: (1:) See page 4-23.		
Field	Information	Format
Type of Entry:	Message Key for LEIN Entry	MW (Modify Warrant)
OPR: (55:)	LEIN Terminal Operator (field populated by JIS)	D1500JLF
MOD: (23:)	Modify Record	YES
PNO: (20:)	Person Entry Number (aka SYSIDNO) This is the number generated by LEIN for each entry into the Wanted and Missing Person Files.	5035455

**Modify Warrant - Required Fields and Fields that cannot be modified**

Fields that May be Modified	
Field	Information
NAM: (1:)	Name of Defendant (see page 4-23)
RSX: (2:)	Race and Sex (Appendix A)
HGT: (3:)	Height
WGT: (4:)	Weight
HAI: (5:)	Hair Color (Appendix C)
EYE: (6:)	Eye Color (Appendix C)
DOB: (7:)	Date of Birth
STR: (8:)	Street Address
CTY: (9:)	City
STA: (10:)	State (Appendix A)
ZIP: (48:)	Zip Code
OLN: (11:)	Driver License Number
SOC: (12:)	Social Security Number
ENT: (14:)	Entry Type (Appendix B)
OCA: (15:)	Complaint/Case Number (see page 4-24)
DOW: (16:)	Date Warrant Issued

Table is continued on the following page

Table continued from previous page

Fields that May be Modified	
Field	Information
OFF: (17:)	Offense/Charge Code (Appendix E)
FPC: (18:)	Fingerprint Class (See LEIN Operations Manual)
EXT: (21:)	Extradite {change <b>YES</b> to <b>NO</b> or <b>YES</b> to <b>YES</b> with <del>NOEX in MIS: (41:)</del> (see section 3.21 of LOM)
PKU: (22:)	Pickup Radius (Appendix B)
BND: (27:)	Whole dollar amount of cash/surety bond
DOE: (29:)	Date of Emancipation
DOX: (99:)	Date of Expiration
LIC: (31:)	License Plate
FBI: (39:)	FBI Number (add or delete only)
MNU: (40:)	Miscellaneous Identifying Number
MIS: (41:)	Miscellaneous Remarks (no period at the end)
CAU: (44:)	Caution should be exercised (add only) (Appendix B)
SID: (50:)	State Identification Number
CRT: (53:)	Court ORI
DKT: (54:)	Court Docket Number
POB: (58:)	Place of Birth (Appendix A)
SKN: (59:)	Skin Tone (Appendix C)
SMT: (60:)	Scars, Marks, and Tatoos (Appendix G)

If *EXT:* = **YES**, then *EXL:* (24:) field is required. See note on Page 4-14 and Appendix C. The use of the *EXL:* field eliminates the need to enter **NOEX** in *MIS:*.

More than one field may be modified at a time. Besides the required fields, enter only those fields which you are going to modify. **NOTE:** If you are modifying the *NAM:* (1:) field, additional fields are required. See page 4-23. Modifying the *OCA:* (15:) field requires information in *Add'l Information:* field. See page 4-24.

Examples of modifying a warrant entry are shown on the following page. Once you have typed in the required fields and the fields you wish to modify, press **ENTER** to submit message to LEIN. You will receive an acknowledgment or rejection from LEIN. An acknowledgment example is on page 4-2.

# Cancel Warrants and Conditional Bonds

The LEIN Administrative Rules require prompt cancellation of records from LEIN/NCIC files when a wanted person is arrested, appears in court, or in any other circumstance where the record is no longer valid.

Additions or deletions can be made only by the ORI that originally entered the record or by a law enforcement ORI identified in a court-entered record. The exception to this is the State Control Terminal Agency (ELLT). ELLT can cancel a record for quality control purposes (refer to LOM Section ~~1.19~~).

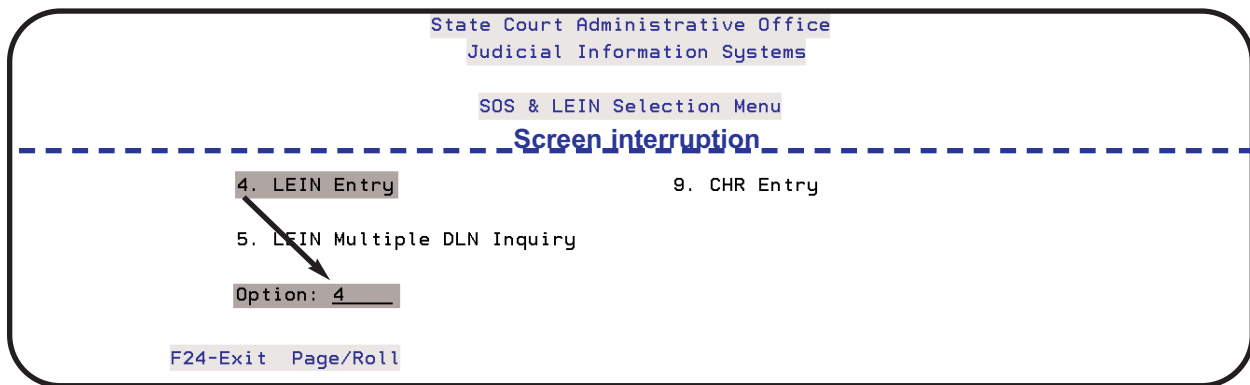

October 2009:  
Changed to  
Section 5.3.

The LEIN - Cancel Warrants screen is used to cancel Warrant and Conditional Bond Release records. See page 4-32 for information regarding Conditional Bonds.

- On the **SOS & LEIN Selection Menu**, type **4 (LEIN Entry)** or **CW** in the *Option:* field. Press **ENTER**.
- If you typed **4**, you will be taken to the LEIN Entries screen. Press **F9-Cancel**.
- If you typed **CW**, you will be taken directly to the LEIN-Cancel Warrants Screen.

- OR -

- In the Traffic/Criminal or Probation subsystem, type **EWR** on the hop line in the *NXT* field. If you include the case number in the *CASE* field, many required fields will be populated on the LEIN Entries screen. Press **ENTER**.
- Press **F9-Cancel** on the LEIN Entries screen

**SOS & LEIN Selection Menu**

**Using Hop code EWR from Traffic/Criminal or Probation Subsystem**

**QPACC inquiry on LEIN Entries Screen**

## Orders of Probation

Public Act 449 of 1998 mandates that orders of adult probation containing a condition for the protection of one or more named persons be entered into LEIN. LEIN will also accept Orders of Probation with conditions of “interest to the criminal justice community.

Further information on entering, modifying, or cancelling Orders of Probation in LEIN can be found in Section ~~5.17~~ of the LEIN Operations Manual.

## Probation Records Inquiry (QPBN)

An inquiry into adult probation records only is available through the LEIN Inquiry screen using Message Key QPBN. Required fields for this inquiry are:

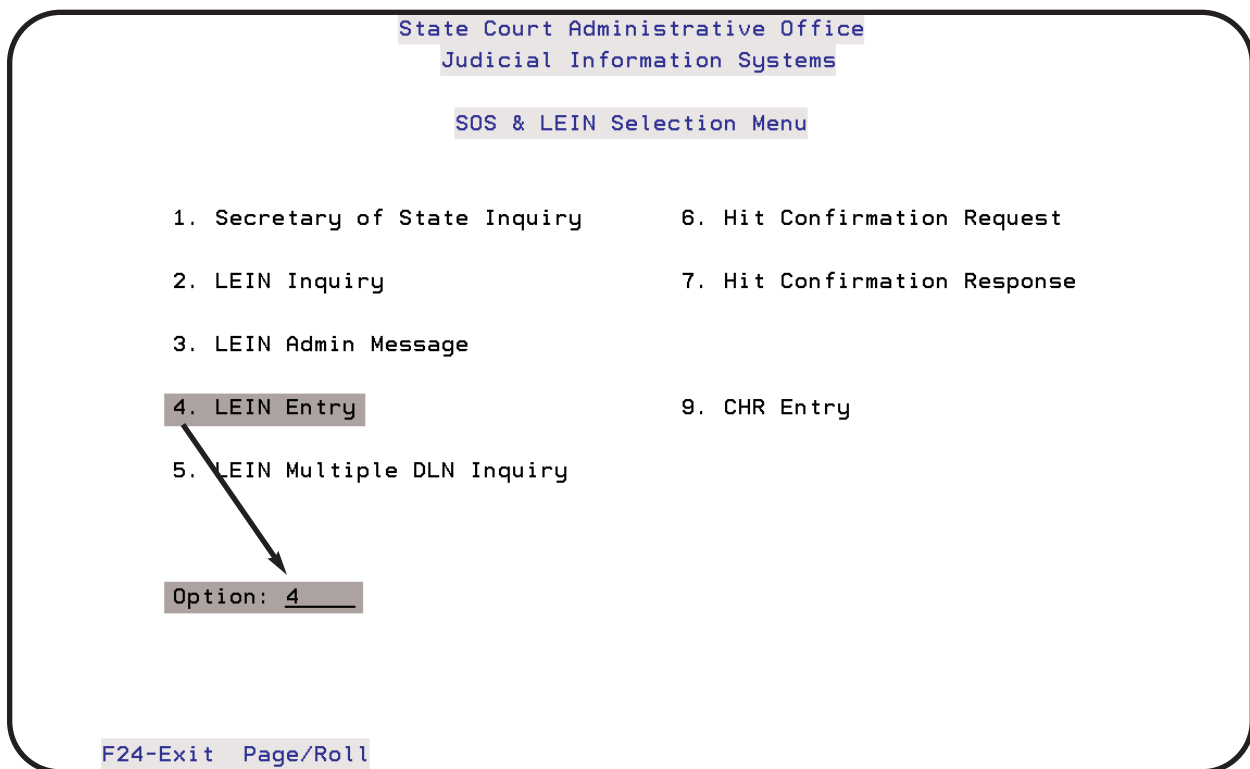

- Type of Search: QPBN
- OPR: (55:) LEIN Terminal Operator
- FOR: (56:) Person/Agency requesting inquiry
- PBN: (87:) Probation Number assigned by the court

This inquiry is described further in Chapter 3: LEIN INQUIRIES. See page 3-23.

## Enter Probation Conditions (EPB)

Entry of probation conditions is done on the LEIN Entries screen.

- On the **SOS & LEIN Selection Menu**, type **4 (LEIN Entry)** or **EPB** in the *Option:* field. Press **ENTER**.  
- OR -
- In the Traffic/Criminal or Probation subsystem, type **EWR** on the hop line in the *NXT* field. If you include the case number in the *CASE* field, many required fields will be populated on the LEIN Entries screen. Press **ENTER**.
- The LEIN Entries screen will have **EW** populated in the *Type of Entry:* field. Change the **EW** to **EPB** and complete the required fields as described on the following page.

### Conditions of Probation Field (CND: or 88:)

This scan line may be used to enter codes to indicate the conditions of probation in a LEIN probation conditions record. Scan line 88: may be used seven times in a probation record entry, followed by probation condition codes. Codes 1 - 7, followed by a slash (/), may be used. Codes 1, 2, 6, and 7 require additional text up to 120 characters further explaining the condition. Codes are separated by a period. **No period is required at the end of the conditions.** The first condition does not need to be preceded by CND: or 88:. Codes 1 - 7 output are described below:

<u>CODE</u>	<u>LEIN OUTPUT</u>
1/	NO CONTACT WITH VICTIM(S)/
2/	NOT NEAR HOME/BUSINESS OF/
3/	NO ASSAULTIVE, THREATENING OR INTIMIDATING BEHAVIOR.
4/	NO ALCOHOL OR DRUGS.
5/	NOT POSSESS ANY FIREARMS OR DANGEROUS WEAPONS.

## Criminal History Records (CHR)

The judicial segment of a Criminal History Record (CHR) is tied to an arrest segment and charge segment. A Criminal Tracking Number (CTN) is established during the charge segment by the county prosecutor that links each defendant to a specific warrant. The judicial segment can also be tied to a Transaction Control Number (TCN) generated by the police department at time of arrest when Live Scan prints are done and a Police Incident Number (OCA). The CTN or TCN and OCA is the basis for tracking the defendants record through the arrest, trial, and disposition process.

Information entered on the Case Entry (CAS) screen in the Traffic/Criminal Subsystem is critical for CHR purposes. For example, data entered in the *PIN* field on the Case Entry (CAS) screen populates the *OCA* field on the Criminal History Records - EJUD screen.

After entering disposition information into the JIS Traffic/Criminal Subsystem, you may immediately hop to the screens below to enter, modify, or cancel records with CHR.

<u>Hop Code</u>	<u>Screen</u>	<u>Purpose</u>
• EJD	Criminal History Records - EJUD	Enter into CHR
• MJD	Criminal History Records - MJUD	Modify in CHR
• CJD	Criminal History Records - CJUD	Cancel from CHR

CHR uses the CTN with the State Identification Number (SID) and/or Name at Arrest (NAA), or TCN and OCA with SID and/or NAA to update the judicial segment.

If you have questions regarding electronic submissions or responses from CHR, please contact Diane Sandborn, MSP Court Interface Analyst. She may be reached by phone at 517-636-0121, by email to [sandbord@michigan.gov](mailto:sandbord@michigan.gov) or fax 517-322-6288. Also see page 4-65 for further information regarding a "Reject Error Response Message" from MSP.

# CHR - Enter Judgments (EJUD)

Use the Criminal History Records - EJUD screen to enter the judicial portion of a person's criminal history to Michigan State Police Central Records. After entering the disposition in the Traffic/Criminal Subsystem you can send the judgment to CHR on the EJUD screen.

- On the **SOS & LEIN Selection Menu**, type **9 (CHR Entry)** or **EJUD** in the *Option:* field. Press **ENTER**.  
-OR-
- In the Traffic/Criminal or Probation subsystem, type **EJD** on the hop line in the *NXT* field and the case number in the *CASE* field. If you are not count specific, the first three counts will appear on the EJUD screen. If you are count specific, only that count will appear on the EJUD screen. Press **ENTER**. Many fields on the EJUD screen will be populated and in the correct format for submission to CHR.

**2010/1 Release: ECIT:**  
(246:) field added. Used for enhanced PACC Code. See 2010/1 Release Announcement for details.

### Criminal History Records - EJUD screen

The fields in the EJUD screen above (except *Add'l Information:*) are described in the table on the following page. The scan line numbers are not shown on this screen, but are given in the table to assist you when reviewing CHR responses. The *Add'l Information:* field is used to add information for scan lines that are not available on the screen. For example, effective January 1, 2002, the DNA flag (DNA: or 71:) was added to CHR for entry if available. This would be entered as shown below, with Y=Yes or N=No. The period is required.

**Add'l Information:**  
**71:Y.**

If you use the EJD hop code and are not count specific, up to three counts (CCN:) will populate the EJUD screen. Many fields for all three counts will be populated with the correct CHR format. After you submit the initial three counts to CHR, you can return to the Traffic/Criminal hop line and use the EJD hop code for subsequent counts. For example, if you type **4** in the *Count* field on the hop line, only count 4 will appear on the EJUD screen. You may manually complete counts 5 and 6 on the EJUD screen and transmit the three counts. Alternatively, you can transmit count 4, then return to a hop line and bring up subsequent counts on the EJUD screen individually.

Press **ENTER** to submit the entry to CHR. A response from MSP will be sent to your printer indicating if the entry was accepted or rejected. This response does **not** update the Register of Actions for the case. See page 4-65 for further information regarding a "Reject Error Response Message" from MSP.

GOC: (216)	<b>General Offense Character</b> A code which further describes the final offense as <b>ATTEMPTED</b> , <b>CONSPIRACY</b> , or <b>SOLICIT</b>	BLANK, A, C, or S
CIT: (220)	<b>PACC Code</b> The valid PACC Code for the final charge. Replace period in code with a slash "/". See first example on page 4-53 for further details.	750/81A 257/6251-A
CDC: (223)	<b>Court Disposition Code</b> CHR based disposition code	See table on following page or Appendix F
CSR: (224)	<b>Court Sentencing Remarks</b> Maximum of 90 characters to provide summary of sentence imposed	F/C/R \$250/PROB 12 MO

**2010/1 Release:**  
ECIT: (246:) field added. Used for enhanced PACC Code. See 2010/1 Release Announcement for details.

**Court Disposition Codes (CDC: or 223:)**

**Per March 2011 Court Disposition Issues from MSP:** If the local ordinance does not correspond to a PACC code, courts can request the removal of the arrest record by reporting a Court Disposition Code of **NSC**, "No State PACC Code". When using NSC, the corresponding PACC code must be 111.111.

**Per May 2, 2008 Court Dispositions Issues from MSP:** CHR now has the ability to accept all counts with a BOC Court Disposition Code.

Convictions Considered Public	
Code	Disposition
BWI	Bench Warrant Issued (Only submit one count and use a 1 in CCN: field)
GTY	Found Guilty
GMI	Found Guilty - mentally ill
PLG	Plead Guilty
PMI	Plead Guilty - mentally ill
NOC	Plead Nolo Contendere
Non-Convictions or Non-Public	
BOC	Bound over to Circuit Court <del>If this code is used, enter the Circuit Court ORI number in the CIROR: field and only use a 1 in CCN: field, even if bound over charge is not count 1.</del>
DPD	Deferred - 7411
DPS	Deferred - Domestic Assault
DPH	Deferred - Health Care Professional-Practicing Under the Influence
DPK	Deferred - Parental Kidnaping
DIS	Dismissed
FNG	Found Not Guilty - Acquittal
NGI	Found Not Guilty - Insane
ADJ	<del>Juvenile Adjudication</del>
NOP	Nolle Prosequi
Suppressed	
CSA	Conviction Set Aside (must be submitted manually using form MC228)
DPY	Deferred - HYTA
DMY	Dismissed - HYTA
DMD	Dismissed - 7411
DMS	Dismissed - Domestic Violence
DMH	Dismissed - Health Care Professional-Practicing Under the Influence
DMK	Dismissed - Parental Kidnaping

ADJ = Juvenile Adjudicated

**Implemented by CHR 2009Feb:**  
DPM = Deferred - MIP

**Implemented by CHR 2013Feb:**  
DPV = Deferred - Veterans Treatment Court

**Juvenile Codes as of 2009Feb:**  
JCC = Juvenile Consent Calendar  
JDA = Juvenile Diversion Act  
NAP = Not Authorized Petition  
TRS = Transfer to Another County  
TTC = Transfer to Tribal Court  
WTA = Waived to Adult Court

**Implemented by CHR 2014Mar:**  
DPC = Deferred - Mental Health Court

**Updated in January 2014 SNAD**  
DPT = Deferred - Drug Treatment Court

**Implemented by CHR 2009Feb:**  
DMM = Dismissed - MIP

**Implemented by CHR 2013Feb:**  
DMV = Dismissed - Veterans Treatment Court

**Update in January 2014 SNAD**  
DMT = Dismissed - Drug Treatment Court

**Implemented by CHR 2014Mar:**  
DMC = Dismissed - Mental Health Court

## EJUD Entry Guidelines

1. The combination of CTN with SID and/or NAA, or TCN and OCA with SID and/or NAA can be used to update the judicial segment of CHR.

2. The following information is combined to make up the criminal history record. See the table on 4-49 for a further description.

- Court Charge Number (CCN)
- General Offense Character (GOC)
- Court Sentencing Remarks (CSR)
- Ordinance Flag (ORF)
- Court Disposition Code (CDC)
- PACC Code (CIT)

3. You may report dispositions for up to three counts in one entry transaction. Exceptions to this are cases bound over to Circuit Court (see item 5) or cases with final disposition of Bench Warrant Issued (see item 8) **When there is a multi-count case, do not send the disposition until all counts are disposed.**

4. The Court Transaction Date (*CTD:*) should correspond with the conviction or dismissal disposition date. If there are different dates of disposition on several counts, the *CTD:* field should be populated with the last disposition date. (See items 4 and 5 on page 4-58, MJUD Entry Guidelines, for more information on the *CTD:* field)

5. If a case is bound over to Circuit Court, enter **BOC** in the Court Disposition Code (*CDC:*) field ~~and 1 in the Court Charge Number (*CCN:*) field, even if that charge is not the count being bound over. This may require the user to change the *CCN:* to a 1 if using the EJD hop code. Only submit one count.~~ \* See NOTE below regarding BOC.

6. When disposing charges deferred under 7411, HYTA, Parental Kidnaping, Practicing Under the Influence, or Spouse Abuse, the deferred Court Disposition (*CDC:*) code (see chart on page 4-50) is used to report the disposition and the Court Sentencing Remarks (*CSR:*) field is used to provide the term of probation. Use the MJUD screen to modify a disposition from deferred to dismissed or deferred to convicted.

7. If a case has multiple counts and one of the counts is deferred under a non-public file and other counts are convicted or dismissed, the court enters the disposition for all counts to CHR. When the probation period is completed successfully or unsuccessfully, take the following steps:

- A. If probation period was unsuccessful and deferred status was revoked, use the MJUD screen to modify the CDC code to the disposition entered for that count.

**NOTE - Per May 2, 2008 Court Disposition Issues from MSP:** A BOC disposition no longer requires only using count 1. The CHR system now has the ability to accept all counts.

***EJUD Entry Guidelines continued from previous page***

- B. If the probation period was completed successfully you may use one of the two following options.
- i. Cancel only convicted count(s) on CJUD screen. Modify deferred status count to the appropriate CDC code to update the incident to a non-public status. Send a paper copy of the judgment for the convicted count(s) to the MSP Criminal Justice Information Center (CJIC). MSP will create an incident on the CHR to reflect the disposition for the convicted count(s). Make a note to specify which count was non-public.
  - ii. Cancel all counts on the CJUD screen. Then enter a judgment with the appropriate CDC code for the non-public record on the EJUD screen. Send a paper copy of the judgment for the convicted count(s) to the MSP Criminal Justice Information Center (CJIC). MSP will create an incident on the CHR to reflect the disposition for the convicted count(s). Make a note to specify which count was non-public.

8. When disposing charges as a Delayed Sentence under MCL 771.1, a comment must be made in the Court Sentencing Remarks (CSR:) field about the period of delay with the statute reference. Do not include any sentence terms. ~~When the supervision period is completed, use the MJUD screen to either revoke the delay, dismiss the case or nolle prosequi.~~ (See item number 6 on page 4-58, MJUD Entry Guidelines, for further details) **If the Delayed Sentence was not successful, use the MJUD screen to enter the sentence terms.**

9. Do not enter a CHR disposition of Bench Warrant Issued (BWI) for a case unless it is the last recorded action in the court record and there is no case disposition. Enter the Court Disposition Code (CDC:) field as **BWI** and the CCN: as **1** if there has been no finding or plea on the charges. If the case is disposed and a warrant is issued because the defendant fails to appear for sentencing, report the applicable CDC code and add a "failed to appear for sentence" statement in the Court Sentencing Remarks (CSR:) field.

10. Information to be entered in the Court Sentencing Remarks (CSR:) field include probation term, minimum, maximum, or alternative term of imprisonment, total of all fines, costs and restitution ordered.

11. Probation information should be entered upon sentencing and modified using MJUD if a probation violation results in changes to probation or probation being revoked.

12. Pursuant to MCL 28.243, if a defendant is convicted of a local ordinance that substantially corresponds to a violation of state law and fingerprints were taken, the PACC code of the state statute must be included in the CIT: field and the Ordinance Flag (ORF:) field marked **Y (Yes)**. The Transaction Control Number (TCN:) and Police Incident Number (OCA:) fields, along with Name at Arrest (NAA:) and/or State Identification Number (SID:), are used for reporting local ordinance dispositions. Local ordinances that do not substantially correspond to a state statute are not reportable to CHR.

**Per March 2011 Court Disposition Issues from MSP:** If the local ordinance does not correspond to a PACC code, courts can request the removal of the arrest record by reporting a Court Disposition Code (CDC:) of NSC, "No State PACC Code". When using NSC, the corresponding PACC code must be 111.111.

 CSR: F/C/R \$420/PROB 12 MO

**2010/1 Release: ECIT:**  
 (246:) field added. Used for enhanced PACC Code. See 2010/1 Release Announcement for details.

When using the EJD hop code, the PACC Code format is changed for the CIT: field by replacing the period with a slash to meet CHR requirements. The PACC code comes from what your court has entered as the PACC# on the Statute File Inquiry & Update screen for that charge.

In this example, the EJD hop code was used to access the EJUD screen. If the SID field is populated on the Case Entry (CAS) screen, current software populates the SID: field and leaves the NAM: field blank when accessing the EJUD screen. If needed, you can add the name in the NAA: field (LAST/FIRST/MIDDLE/) and submit the judgment to CHR with the SID.

These are local ordinance convictions for counts 1 and 2 that substantially correspond to state statute. The **ORF:** field must have a Y for Yes. The PACC Code for the corresponding state statute is entered in the **CIT:** field. If you use the EJD hop code, the **CIT:** field will be populated in the correct CHR format based on what your court has entered in the **PACC#** field on the Statute File Inquiry & Update screen.

**EJUD entry using Transaction Control Number (TCN:) and Police Incident Number (OCA:) - Local Ordinance - Found Guilty**

## CHR - Modify Judgments (MJUD)

Use the Criminal History Records - MJUD screen to record subsequent court action to a previously recorded disposition or to correct errors in the criminal history record. Modifications would include, but are not limited to, reporting of:

- Discharge from probation which suppresses a record under 7411, Parental Kidnapping, Practicing Under the Influence, or Spouse Abuse Act.
- Convictions which were successfully appealed causing a disposition change.
- Unsuccessful probations which revert back to a commitment to jail.

Access the Criminal History Records - MJUD screen as follows:

- On the **SOS & LEIN Selection Menu**, type **9 (CHR Entry)** or **MJUD** in the *Option:* field. Press **ENTER**.
- Press **F9-MJUD** on the EJUD screen.  
- OR -
- In the Traffic/Criminal or Probation subsystem, type **MJD** on the hop line in the *NXT* field, the case number in the *CASE* field, and the count number in the *COUNT* field. If you are not count specific, count 1 will appear on the MJUD screen. If you are count specific, only that count will appear on the MJUD screen. Press **ENTER**. Many fields on the MJUD screen will be populated and in the correct format for submission to CHR.

### Criminal History Records - MJUD screen

The fields in the MJUD screen above (except *Add'l Information:*) are described in the table on the following page. The scan line numbers are not shown on this screen, but are included in the table to assist you when reviewing CHR responses. The *Add'l Information:* field is used to add information for scan lines that are not available on the screen. If this field is used, a period is required at the end.

Press **ENTER** to submit the entry to CHR. A response from MSP will be sent to your printer indicating if the entry was accepted or rejected. This response does **not** update the Register of Actions for the case. See page 4-65 for further information regarding a "Reject Error Response Message" from MSP.

CSR: (224)	<b>Court Sentencing Remarks</b> Maximum of 90 characters to provide summary of sentence imposed	F/C/R \$250/PROB 12 MO	

## MJUD Entry Guidelines

1. The Court Charge Number (CCN:) is mandatory if any of the following information on the charge is to be modified: General Offense Character (GOC:), PACC Charge Code (PACC:), Ordinance Flag (ORF:), Court Disposition Code (CDC:), and Court Sentencing Remarks (CSR:).
2. An "@" symbol is used to delete the data on file for General Offense Character (GOC:), Ordinance Flag (ORF:), and Court Sentencing Remarks (CSR:). This will leave the data field blank.
3. New data in the Court Sentencing Remarks (CSR:) will replace the previous information entered for CSR:. There is a limit of 90 characters in this field.
4. Upon successful completion of a deferral status, report the Court Transaction Date (CTD:) as the current date. (See item 6 and 7 on page 4-51, EJUD Entry Guidelines, for further details on deferrals)
5. Upon a violation of deferral status, the conviction disposition date entered on the Disposition screen (DSP) in the Traffic/Criminal Subsystem is the date of the violation. However, the Court Transaction Date (CTD:) for CHR purposes should be the **original** disposition date entered for the deferral status with a conviction disposition code in the Court Disposition Code (CDC:) field. If you use the MJD hop code, the original CTD: date will populate the field. (See item 6 and 7 on page 4-51, EJUD Entry Guidelines, for further details on deferrals)
6. When the supervision period is violated ~~or completed~~ for a delayed sentenced under MCL 771.1, use the MJUD screen ~~to either revoke the delay, dismiss the case or nolle prosequi~~. If the delayed sentence was revoked, enter the sentence terms in the Court Sentencing Remarks (CSR:) field. ~~If the case is dismissed or nolle prosequi has been entered, remove the comments originally entered in the CSR: field by using the @ symbol.~~

The Delayed Sentence information below is from **Frequent Issues Regarding Court Disposition Reporting to MSP** distributed by the Michigan State Police, January 14, 2009:

Transmit (EJUD) the adjudication of guilt (plea taken) and any conditions of the delay such as probation and monetary assessments to MSP. The court may include in the sentencing remarks, "sentence delayed until (date)". *Do not* include any sentence terms.

When the probation period is completed, update the CCH using your **MJUD** screen enter the sentence terms in the court sentence remarks field if the delayed sentence was unsuccessful.

Refer to the SCAO chart Deferred Judgment of Guilt and Delayed Sentence for Adult Offenders; Comparison of Processing for further information.

**Examples: MJUD Entry**

Criminal History Records - MJUD Print

Type of Entry: MJUD

JUDORI: MI630995J    CIRORI: \_\_\_\_\_    CTD: 20070123    CFN: 07-0004  
 NAA: \_\_\_\_\_    SID: 78944432  
 CTN: 630722333444    TCN: 98744432567    OCA: 07-0033

CCN: 001    ORF: \_    GOC: \_    CIT: 750/390    CDC: GTY  
 CSR: F/C/R \$504/PROB 12 MO; PROB VIOL 5/16/07, NEW SENT: COMMITTED TO JAIL  
 FOR 30 DAYS

In this example the CSR: field is being modified. If possible, include the original sentence, followed by a reason for modification, date, and new sentence. The MJD hop code was used to access the MJUD screen. Since the Case Entry (CAS) screen had CTN and SID fields populated, the NAA: field was left blank on the MJUD screen. If needed, you can add the name in the NAA: field (LAST/FIRST/MIDDLE/) and submit the modified judgment to CHR with the SID.

**MJUD entry - changing deferred disposition to a dismissed disposition**

## CHR - Cancel Judgments (CJUD)

Use the Criminal History Records - CJUD screen to cancel the judicial portion of a previously recorded disposition to Michigan State Police Central Records. Court cancellation of a judicial record is limited to the purpose of correction of data entered. Every effort must be made to re-enter the correct information as soon as possible after the delete process.

Access the Criminal History Records - CJUD screen as follows:

- On the **SOS & LEIN Selection Menu**, type **9 (CHR Entry)** or **CJUD** in the *Option:* field. Press **ENTER**.
- Press **F10-CJUD** on the EJUD screen.  
- OR -
- In the Traffic/Criminal or Probation subsystem, type **CJD** on the hop line in the *NXT* field, the case number in the *CASE* field, and the count number in the *COUNT* field. If you are not count specific, the *CCN:* field on the CJUD screen will be populated with 001. Press **ENTER**. Many fields on the CJUD screen will be populated and in the correct format for submission to CHR.

F5-Retrieve F6-Message F7-Outq F8-EJUD F9-MJUD F24-Previous Menu
    
```

The Type of Entry:, JUDORI:, RSN:, and CANCEL: fields are populated by JIS.

If you used the CJD hop code, the CCN: field will be populated. You may change to a different count number or leave blank to cancel all judgments for all counts.

A description of the function keys can be found on page 4-46.

**Criminal History Records - CJUD screen**

The fields in the CJUD screen above (except *Add'l Information:*) are described in the table on the following page. The scan line numbers are not shown on this screen, but are included in the table to assist you when reviewing CHR responses. The *Add'l Information:* field is used to add information for scan lines that are not available on the screen. If this field is used, a period is required at the end.

Press **ENTER** to submit the entry to CHR. A response from MSP will be sent to your printer indicating if the entry was accepted or rejected. This response does **not** update the Register of Actions for the case. See page 4-65 for further information regarding a "Reject Error Response Message" from MSP.

<b>Criminal History Records - CJUD Screen Fields</b>		
<b>Field Name</b>	<b>Field Name Translation (in bold) and Information needed</b>	<b>Format</b>
Type of Entry:	<b>Cancel Judicial Disposition</b>	CJUD (field is populated by JIS)
JUDORI: (53)	<b>Court ORI Number</b> Originating agency	MI630995J (field is populated by JIS)
NAA: (199)	<b>Name at Arrest</b> Name of defendant at time of arrest. Either <i>NAA</i> : or <i>SID</i> : must be entered, not both.	SMITH/JOHN/ROY/JR SMITH/JOHN/ROY/ SMITH/JOHN//
SID: (50)	<b>State Identification Number</b> Unique identifying number for the defendant. Either <i>NAA</i> : or <i>SID</i> : must be entered, not both.	1234567K
CTN: (200)	<b>Criminal Tracking Number</b> Twelve digit number assigned by the prosecutor's office. No alpha characters allowed.	630312345601
TCN: (244)	<b>Transaction Control Number</b> Eleven digit number generated by the police department at time of arrest when Live Scan prints are done. An alpha character may be at the beginning or end.	85434543458
OCA: (15)	<b>Police Incident Number (<i>PIN</i> field on CAS screen = <i>OCA</i>: field on CJUD screen)</b> Incident number assigned by police agency. This field is populated if you use CJD hop code and the <i>PIN</i> field is filled in on Case Entry (CAS) screen.	1234567890
RSN: (201)	<b>Reason</b> Reason code for the cancellation. The only valid reason is Delete and Re-enter.	DRE (field is populated by JIS)
CANCEL: (26)	<b>Cancel</b> Cancel the judgement	YES (field is populated by JIS)
CCN: (209)	<b>Court Charge Number</b> The count number for the case or leave blank for all counts	1, 2, 3, etc. 001, 002, 003, etc. BLANK FOR ALL COUNTS

## CJUD Entry Guidelines

1. By entering **YES** in the *CANCEL:* field (field is populated by JIS), the entire judicial segment for the Court Charge Number (*CCN:*) chosen is deleted. If the *CCN:* field is left blank, judicial segments for all counts will be deleted.
2. Only judicial records entered by the court may be cancelled by the court.
3. Each transaction must have the "Delete and Re-enter" reason code **DRE** in the *RSN:* field. This field is populated by JIS when the CJUD screen is accessed.
4. Disposition reporting for MCL 600.1076, Drug Treatment Court, must be submitted manually to MSP for entry on the Criminal History Record. The Order of Probation, DC243, and Motion and Order for Discharge from Probation, MC245, are used for this purpose. This cannot be entered electronically at the present time.
5. If an order is entered setting aside a conviction, submit a paper copy of the court order (MC228, Order on Application to Set Aside Conviction) to MSP. This cannot be entered electronically at the present time.
6. It is recommended that the court cancel a judicial record having a disposition of bench warrant issued (BWI) when the subject is apprehended and scheduled for court. After sentencing, the appropriate Court Disposition Code (*CDC:*) can be re-entered using the EJUD screen.

## CHR - Reject Error Response Messages

In some instances when transmitting an EJUD, MJUD or CJUD you may receive a "Reject Error Response Message" from the Michigan State Police (MSP). If you are not able to determine a resolution to the error, you can contact MSP for assistance.

When contacting MSP for resolution, send an email to [MSP-CourtRej@michigan.gov](mailto:MSP-CourtRej@michigan.gov) and include the complete "Reject Error Response Message" along with the following information:

- Defendant name
- Date of birth
- Criminal Tracking Number (CTN)
- Transaction Control Number (TCN)/Police Incident Number (OCA)

If email is not available, fax the error response message to 517-322-6288, Attention: Electronic Reject Resolution. Include a cover sheet with your name, phone and fax number.

## Sex Offender Registration

The Michigan Sex Offender Registry (SOR) is a database containing the names, addresses, and listed offense information of all persons in Michigan convicted of certain sexual offenses. The complete SOR is **only available for law enforcement purposes**.

The ability to enter or modify SOR records via LEIN was disabled by the Michigan State Police (MSP) in November 2007 and replaced by a new SOR system through the MiCJIN portal. Contact MSP for further details.

## Public Sex Offender Registry

Similar to the SOR, the Public Sex Offender Registry (PSOR) is a **database available to the public** containing the names, addresses and listed offense information of persons in Michigan convicted of certain sexual offenses after October 1, 1995, or under the supervision of the Michigan Department of Corrections for a listed offense on October 1, 1995. In 1999, as a result of Public Act 85, the PSOR became available online at <http://www.mipsor.state.mi.us/>, allowing for searches by zip code or name and approximate age to identify registered sex offenders.

## Sex Crimes that Qualify for Registration

See MCL 28.722 for listed offenses that require registration. If the defendant is convicted under a local ordinance, the court must determine which of the listed offenses under MCL 28.722 substantially corresponds to the local ordinance and enter that offense and PACC code.

# LEIN TAC SELECTION

This chapter will describe how the Terminal Agency Coordinator (TAC) will certify LEIN Operators, validate warrants, and obtain a history log of criminal history inquiries.

## Accessing the LEIN TAC Selection Menu

The three ways to access the LEIN TAC Selection Menu are:

- On the **District Court System** menu type option **5 (SOS/LEIN)** in the *Option:* field. Press **ENTER**. (*EXAMPLE 1*)
- On the hop line from any screen, type **SOS** in the *NXT* field and press **ENTER** (*EXAMPLE 2*). The **SOS & LEIN Selection Menu** on the following page will display.
- An option on a “personalized” menu.

SUNNY SPRINGS State Court Administrative Office

**EXAMPLE 1** District Court System

Select one of the following Subsystems:

1. Traffic/Criminal
2. Civil
3. Cash
4. Probation
5. SOS/LEIN

#### Adding a new certified LEIN operator

## Inquiry on All Certified LEIN Operators

Besides doing an individual inquiry, the Terminal Agency Coordinator can do an inquiry and receive a response containing all the certified users in the court.

- Type **INQ** in the *Add/Del/Inq:* field
- Type **///** (three slashes) only in the *NAM:* field
- Press **ENTER**

## Re-certification of LEIN Operators

LEIN requires that operators be re-certified every two years. When re-certifying a LEIN operator, go to the LEIN - Certification Registration screen and proceed as follows. An example is given below.

- Type **ADD** in the *Add/Del/Inq:* field
- Type the operator's name in the *NAM:* field. Three slashes (/) are required.
- Type **REAFFIRM** in the *MIS:* field
- Press **ENTER**

**NOTE:** If you are re-certifying **ALL** LEIN Operators at once, take the same steps above, but leave the *NAM:* field blank.

Display

**Re-certifying a LEIN operator on the LEIN - Certification Registration screen**

## History Log of CHR Inquiries (QLOG)

The QLOG Format screen is used to get a history of the number or type of requests for criminal histories made by your court. This log is used by LEIN auditors and the court Terminal Agency Coordinator to monitor the kinds of requests being made.

- On the **LEIN TAC Selection Menu**, type **2 (QLOG Format)** or **QLOG** in the *Option:* field. Press **ENTER**.

**Accessing the QLOG Format screen from the LEIN TAC Selection Menu**

## On-line Warrant Validations (VLN)

Courts that enter their own warrants into LEIN/NCIC are required to validate these warrants monthly.

1. An Administrative Message is sent by JIS to the court on the Tuesday between the 11th and 17th of each month informing the court that a file containing their warrants is available. The validation month is three months prior to the current month. An example of the message sent by JIS is given below.

A MI630995J MI130035J

FROM: State Court Admin Office, JIS-OPERATIONS  
TO: WARRANTS DEPT, 10TH JUDICIAL DISTRICT  
REF: MONTHLY WARRANT VALIDATION FILE

AFTER 8:15 AM TOMORROW, A FILE CONTAINING ALL OF YOUR COURTS ACTIVE WARRANTS WILL BE AVAILABLE ON YOUR LOCAL COMPUTER SYSTEM.

AT THAT TIME PLEASE REQUEST FROM PAGE 2 OF THE LEIN MENU

3. District Court Warrant Validation Reports

AUTH: GREG CAILLOUETTE, JIS OPERATIONS

**JIS Administrative Message to Courts - Warrant File available**

2. On the LEIN TAC Selection Menu, type an **X** next to the report format (*Alpha by NAM*, *Numeric by DKT*, or *Numeric by OCA*) you want generated. Type **3** in the *Option:* field and press **ENTER**. See the example below.

State Court Administrative Office  
Judicial Information Systems

LEIN TAC Selection Menu

1. LEIN Operator Certification  
and Warrant Validation Notification
2. QLOG Format
3. District Court Warrant Validation Reports  
for ORI MI630995J
  - Alpha by NAM
  - Numeric by DKT
  - Numeric by OCA

Option: 3

F24-Exit Page/Roll

Alpha by NAM = Data on reports are in order by name of defendant.

Numeric by DKT = Data on reports are in order by case number.

Numeric by OCA = Data on reports are in order by police incident number. OCA comes from *PIN* field on CAS Entry (CAS) screen.

**Request Warrant Validation Reports with an X next to report format and option 3**

After making the report request, the four sets of reports listed below will be available in the court defined output queue to print. Use these lists to verify the warrants for the court.

	<u>User Data</u>
Warrants - All	ALL WARNTS
Warrants - Month Only	AUG WARNTS (i.e. August Warrants)
Injunctive Orders - All	ALL INJORD
Injunctive Orders - Month Only	AUG INJORD
Errors - All	ALL ERRORS
Errors - Month Only	AUG ERRORS
Reverse Check - All	ALL REVCHK
Reverse Check - Month Only	AUG REVCHK

(For the Reverse Check, JIS searches the JIS system for cases in WARRANT status for which there is no warrant entered in LEIN/NCIC. Names that do not match will appear on this report.)

3. The last step in the warrant certification process is the actual on-line validation. Press **F8-Validate Warrants** on the LEIN - Certification Registration screen to display the LEIN - Warrant Validation Screen.

Display

**Additional Offense**  
**ADO: (95:)**

Indicates to inquiring agencies in NCIC that multiple warrants for same subject from same ORI. The most serious warrant should be marked.  
Y - Multiple warrants exist from same ORI.  
N - Multiple warrants do not exist from the same ORI.

## Secretary of State Codes SOS: (47:)

Vehicle Records Requests	
11	Full Registration and Title Record from Plate
11C	Certified copy of Registration/Title Record
13	Registration Record from Plate
14	Registration with fees paid information
15	Vehicle Alpha File (all vehicles owned)
19	Partial Plate search for passenger and commercial plates
21	Watercraft Registration information from Plate
22	Watercraft Title information from BHN
24	Moped Registration information from Plate or VIN
25	Owner and Snowmobile information from Plate
26	Snowmobile information from VIN
52	Complete Title Record from VIN
53	Registration and Title information from VIN
53C	Certified copy of Registration/Title Record
78	Handicapper parking permit
Driver Services Requests	
31	Compute and verify driver license number
32	Clearance to issue original license
33	Clearance to issue renewal license
34	Clearance to issue duplicate license
35	Status of license
35/42	Status of license and complete driving record (unedited)
35/42C	Status of license and certified copy of complete driving record
35/PRIOR	Prior actions for plate confiscation
36	Complete driving record (edited)
38	Complete history since date specified
39	License information
40	Current address
42	Complete driving record (unedited)
42C	Certified copy of complete Driving record
43	History of all convictions
49	Partial name search
60	Compute Personal ID Number (PID)
62	Clearance to issue original PID
63	Clearance to issue renewal PID
64	Clearance to issue duplicate PID
66	Complete PID record
69	Partial Name Search in PID file
71	Current financial responsibility status

SC = Sobriety Court  
Restricted License Eligibility  
(implemented 8/29/2011)

42B = MIP Deferment  
information. This request is  
the same as using the SOS  
Inquiry screen and doing an  
**MIP** in *Access Type:* or **SYS**  
in *Access Type:* and **42;3** in  
the *Key:* field. See page 2-2.

**Commonly Used Charge/Offense Codes OFF: (17:)**  
**See LEIN Operations Manual, Section 3.17, for a full list**

CODE	OFFENSE	CODE	OFFENSE
0029	Runaways, Missing Persons, Etc.	3605	Indecent Exposure
0040	Juvenile Custody Order- FIA	3612	Fail to Register as Sex Offender
0080	* Civil Infraction - Local Ordinance	3806	Child Neglect (non-payment child support)
0081	* Civil Infraction - State Law	3807	Non-payment of Alimony

2406	Receive a Stolen Vehicle	5314	Loitering
2499	* Stolen Vehicle	5399	* Public Peace
2504	* Forgery - Passing	5404	Driving Under Influence of Liquor
2606	Fraud - Insufficient Funds - Check	5405	Moving Traffic Violation
2699	* Fraud	5406	Non-Moving Traffic Violation (not parking)
2799	* Embezzle	5499	* Traffic Offense
2899	* Stolen Property	5599	* Health - Safety Offense
2902	Damage Property - Private	5707	* Trespassing
2999	* Damage Property	6101	* Income Tax
3512	Heroin - Possession	6202	* Conservation - Fish
3532	Cocaine - Possession	6204	* Conservation - License - Stamp
3550	Narcotic Equipment Possession	6299	* Conservation
3562	Marijuana - Possession	7399	* Public Order Crimes
3599	* Dangerous Drugs	8100	Juvenile Ward - Escape from Custody

\* Describe offense or identify object in *MIS*: (41:) or *OCG*: (97:).

## CHR - Court Disposition Codes CDC: (223:)

**Per March 2011 Court Disposition Issues from MSP:** If the local ordinance does not correspond to a PACC code, courts can request the removal of the arrest record by reporting a Court Disposition Code of **NSC**, "No State PACC Code". When using NSC, the corresponding PACC code must be 111.111.

### Convictions Considered Public

Code	Disposition
BWI	Bench Warrant Issued (Only submit one count and use a 1 in CCN: field)
GTY	Found Guilty
GMI	Found Guilty - mentally ill
PLG	Plead Guilty
PMI	Plead Guilty - mentally ill
NOC	Plead Nolo Contendere

ADJ = Juvenile Adjudicated

### Non-Convictions or Non-Public

BOC	Bound over to Circuit Court <del>If this code is used, enter the Circuit Court ORI number in the CIROR: field and only use a 1 in CCN: field, even if bound over charge is not count 1.</del>
DPD	Deferred - 7411
DPS	Deferred - Domestic Assault
DPH	Deferred - Health Care Professional-Practicing Under the Influence
DPK	Deferred - Parental Kidnaping
DIS	Dismissed
FNG	Found Not Guilty - Acquittal
NGI	Found Not Guilty - Insane
ADJ	Juvenile Adjudication
NOP	Nolle Prosequi

**Implemented by CHR 2009Feb:**  
DPM = Deferred - MIP

**Implemented by CHR 2013Feb:**  
DPV = Deferred - Veterans Treatment Court

**Juvenile Codes as of 2009Feb:**  
JCC = Juvenile Consent Calendar  
JDA = Juvenile Diversion Act  
NAP = Not Authorized Petition  
TRS = Transfer to Another County  
TTC = Transfer to Tribal Court  
WTA = Waived to Adult Court

**Implemented by CHR 2014Mar:**  
DPC = Deferred - Mental Health Court

**Update in January 2014 SNAD:**  
DPT = Deferred - Drug Treatment Court

**Per May 2, 2008 Court Dispositions Issues from MSP:** CHR now has the ability to accept all counts with a BOC Court Disposition Code.

### Suppressed

CSA	Conviction Set Aside (must be submitted manually using form MC228)
DPY	Deferred - HYTA
DMY	Dismissed - HYTA
DMD	Dismissed - 7411
DMS	Dismissed - Domestic Violence
DMH	Dismissed - Health Care Professional-Practicing Under the Influence
DMK	Dismissed - Parental Kidnaping

**Implemented by CHR 2009Feb:**  
DMM = Dismissed - MIP

**Implemented by CHR 2013Feb:**  
DMV = Dismissed - Veterans Treatment Court

**Update in January 2014 SNAD:**  
DMT = Dismissed - Drug Treatment Court

**Implemented by CHR 2014Mar:**  
DMC = Dismissed - Mental Health Court

**County Codes**  
**COU: (75:)**

MY	Aircraft, (Military)		
NP	Aircraft (Civilian Non-passenger)		

## Types of Searches - Inquiries

Chapter 3 of this User Guide covers LEIN inquiries. The number in parentheses following the description is the section of the LEIN Operations Manual (LOM) where you can find further information.

Q	Used for all valid operational inquiries and will cause a search of LEIN and NCIC (III) files for open warrants. (LOM, Section 6.1)
QCCW	Inquire on a Permit Number in the <a href="#">Concealed Pistol License (CPL) File</a> . This inquiry will not check the LEIN/NCIC wanted person files.
QH	Search for possible matches in Michigan CHR and/or NCIC files for a segment of the criminal history. When used with the SID, FBI, CTN or PRN a more complete criminal history record can be obtained. (LOM, Section 6.4)
QHIT	Search the LEIN "No-Hit" File. The "No-Hit" File contains records of recent inquiries by other courts/agencies also without a "hit". (LOM, Section 6.1)
QHW	Search the LEIN and NCIC CHR files, and also the LEIN and NCIC Wanted Persons and Missing Persons Files. (LOM, Section 6.4)
QPBN	Search the Probation Conditions File only using the Probation Number. (LOM, Section 5.17)
QR	This search provides the full CHR from the SID number for Michigan and each state or federal CHR from NCIC by using the FBI number. This inquiry is done after an initial "Q", "QH", or "QHW" inquiry that provides the Michigan SID number or FBI number. (LOM, Section 6.4)
QWAR	Produce a list of up to the 100 most recent warrant records entered by an ORI that are still active. (LOM, Section 6.1)
ZO	Obtain ORI number information by either using the ORI number as the search criteria to determine the agency or using agency location to obtain the ORI number. (LOM, Section 6.10)

Purpose of CHR Inquiry	PUR: (52:) Format
Criminal Justice	C/(purpose of inquiry) C/Arrestment C/Sentencing
Criminal Justice Employment	J/(purpose of inquiry) J/Probation Officer J/Court Clerk
Concealed Use of Firearm Inquiry	F/(purpose of inquiry) F/CCW
<p><b>Controlled Substance</b> To determine if a subject has used the provisions allowed under MCL 333.7411 (Controlled Substance). This information is suppressed if using the purpose code "C".</p>	<p><b>7411</b> (This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Conviction Set Aside</b> To determine if a subject has used the provisions allowed under MCL 780.621 (Setting Aside Conviction).</p>	<p><b>CSA/purpose of inquiry)</b> CSA/Arrestment CSA/Sentencing (This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Domestic Abuse</b> To determine if a subject has used the provisions allowed under MCL 769.4a (Domestic Assaults). This information is suppressed if using the purpose code of "C".</p>	<p><b>ABUSE</b> (This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Holmes Youthful Training Act</b> To determine if a subject has used the provisions allowed under MCL 762.14 (Holmes Youthful Training Act). This information is suppressed if using the purposed code of "C".</p>	<p><b>HYTA</b> (This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Identification Segment</b> It is recommended that LEIN operators use this prior to entering a warrant into LEIN, to "pack" the record with additional information, such as physical descriptors and alias names. An inquiry by name using QH or QHW will return any possible matches along with the SID. Then an inquiry by the SID using QR is made to obtain the Identification Segment.</p>	<p><b>I/(purpose of inquiry)</b> I/Warrant</p>
<p><b>Drug Treatment Court</b> (MCL 600.1070)</p>	<p><b>DTCT</b> (This can <b>not</b> be used with QHW inquiry.)</p>
<p><b>Minor in Possession</b> (MCL 436.1703)</p>	<p><b>MIP</b> (This can <b>not</b> be used with QHW inquiry.)</p>

**2/23/09:** The CSA Purpose code also is used for Set Aside Adjudication under MCL 712A.18E

**2/23/09:** Drug Treatment Court (DTCT) and Minor in Possession (MIP) Purpose codes added per MSP.
