

Fax and Document Management

Focus on your patients and increase your productivity with DrCatalyst.

Let our highly trained remote staff deal with your faxes and documents, update the patient charts, and have the necessary records ready when you need them.

This service can help you:

- ✓ Expedite faxes.
- ✓ Increase productivity.
- ✓ Save time when processing documents.
- ✓ Have the patient's records ready when you need it.
- ✓ Provide care at the right time.
- ✓ Keep accurate health records.
- ✓ Ensure that the right fax is sent to the right recipient.

Maximize your time with the patients and provide health care on time.

1 Perform Fax-Related Tasks

We perform other fax-related tasks such as sending faxes for reports, referrals, authorizations, refills, laboratory orders, and prescriptions.

2 Record Document Information

We perform other fax-related tasks such as sending faxes for reports, referrals, authorizations, refills, laboratory orders, and prescriptions.

3 Ensure that Faxes are Delivered Accurately

We regularly review the fax numbers and ensure that every fax is sent to the appropriate recipient.

4 Attach the Faxed Documents to the Patient Chart

We immediately attach the faxed document to the applicable patient chart.

5 Monitor and Sort Faxes

We track and organize the faxes that you receive.

6 Around-the-Clock Availability

Our services and support are available 24/7.

We don't stop at faxes!
