

Records Review

Brief and concise patient reports make you breeze through patient encounters.

Guided by your clinic's standard operating procedures, our remote staff organize and summarize your patients' existing reports and make them easier to review.

This service can help you:

- ✓ Review visit notes easily.
- ✓ Provide the applicable treatment faster.
- ✓ Maintain concise and accurate patient reports.
- ✓ Diagnose the patient effectively.
- ✓ Maintain concise and accurate patient reports.

Simplify your workload and maintain the accuracy of health records.

1 Enter the Patient Details in your EHR

With the summarized reports, our remote staff update the information in the patients' visit notes.

2 Organize Patient Records

We go over every report and make a brief, yet comprehensive, summary that is made to suit your preferences.

3 Track Reports

The summaries made by our staff undergo intensive quality control to ensure that everything is accurate and reliable.

4 Handle Patient Information Securely

Our services are HIPAA compliant. Our remote employees are well-trained in various government-mandated guidelines and measures for health care.

We offer more services for clinics of all shapes and sizes:
