

Revenue Cycle Management

Whether you want to handpick individual services that you need or you want to get the full set of RCM, we'll make sure that **you'll get the smoothest, most tailored-fit remote staffing experience.**

Utilize our suite of Revenue Cycle Management services and maximize your revenue!

Eligibility and Benefits Verification

Having insurance eligibility issues? Our real-time insurance eligibility and benefits checking to help you **breeze through patient visits, avoid claim denials, increase collections,** and prepare patients for the necessary payments.

Medical Coding

Spending countless working hours reviewing charges and codes? Let our **certified remote medical coders** do it for you. You can rest assured that the bills accurately reflect the care given to your patients, thereby **reducing errors and ensuring proper reimbursement.**

Charge Posting

Charge posting errors can often complicate the way you get paid. DrCatalyst helps you **secure your reimbursements** by processing the first step of your revenue cycle with the highest level of accuracy and efficiency.

Claims Service

Tired of generating and sending bulk claims? **We generate bulk electronic claims and send them to the applicable payer** through your integrated clearinghouse of choice. Got claim errors? We'll take care of corrections and resubmission!

Payment Posting

Get paid on time! With impeccable attention to detail, our remote staff record the payments and reimbursements that your clinic receives. They see to it that the complete and exact payment information are posted in your EHR.

AR Management

Spend less effort on the collecting the money you deserve!

To help you **secure the necessary payments on time**, our remote team automate your accounts receivable management without interrupting your standard workflow.

Revenue Reports

Have an easy way of keeping an eye on your income!

Our remote staff help you monitor your income by providing **accurate, customizable, and timely revenue reports**.

Patient Statements

Provide your patients with a quick, accessible, and fully electronic payment process!

Through BillFlash, we can generate electronic patient statements and collections letters for your clinic so that all you will have to do is mail them to your patients.

"We have been very pleased with DrCatalyst... They have been instrumental in implementing improvements in our process. Their knowledge of IMS is a major advantage for us."
