FOR IMMEDIATE RELEASE

## **Rochester Midland Publishes 2013 Sustainability Report**

*May 30, 2014, Rochester, NY* Rochester Midland Corporation (RMC) announced the publication of its 2013 Sustainability Report, fourth in a series of annual reports on the company's efforts to be more sustainable and to provide sustainable solutions to their customers. The report includes highlights of 2013 as well as an overview of planning and setting of goals for the future. A copy of the report is available on the company's website at: [www.rochestermidland.com/sustainability](http://www.rochestermidland.com/sustainability).

"The major accomplishment this year was the training of our global sales forces in both the concepts of sustainability and the practical auditing and consulting processes for each of our 6 product lines that deliver sustainable solutions for health, productivity and the environment," said Glenn Paynter, President of RMC.

In 2013 we obtained ISO 9001:2008 certification for our manufacturing locations in the United States. The certification covers operations in RMC's facilities in Riverside, CA; Montgomery, IL; Randleman, NC and worldwide headquarters in Rochester, NY

RMC was an early adopter of Transpare, a free online registry for commercial cleaning products created through efforts by ISSA, The Worldwide Cleaning Industry Association, and Ecoform. We also continued to increase the number of 3<sup>rd</sup> party certified products, and further expanded the RMC program to minimize solid waste by reducing packaging and increasing use of recycled materials.

Founded in 1888, Rochester Midland is a leading manufacturer of specialty chemicals for food sanitation, industrial cleaning and water treatment as well as housekeeping and restroom care programs. Rochester Midland is the leader in Green Housekeeping and our programs utilize third party certified, biobased cleaning products, along with education and training programs for workers and

building occupants. Rochester Midland is committed to developing sustainable solutions for health, productivity and the environment. For more information, please contact Liz Taylor, Manager of Corporate Marketing Communications, at 585-336-2358 or [ltaylor@rochestermidland.com](mailto:ltaylor@rochestermidland.com).
