Scentsations[®]

A Coordinated Aromatherapy Experience.

A Coordinated Aromatherapy Experience.

Scentsations provides a coordinated aromatherapy experience throughout your facility and in your restrooms.

Unpleasant odors create negative experiences for employees, customers and visitors. Employees become less productive and customers are less likely to return or recommend your business to others.

Pleasant aromas can create a positive experience with customers, making them more likely to return or recommend your business. Employees also become more satisfied and productive.

Scentsations brings a blend of essential oils to an entire suite of products designed to reduce olfactory confusion through coordinated scents. It turns negative experiences from unpleasant odors into a positive, productive experience for employees, customers and visitors.

Great for schools, offices, health care, hospitals, nursing homes, restaurants, shopping malls, hotels, churches, manufacturing, bowling alleys, golf courses, camp grounds and more.
