From success stories and best practices from industry pros

NETWORKING

Through face-to-face interaction with peers in the industry

INFORMATION

On the latest features, what's coming from ServiceChannel and how to boost your own facilities program performance

What You'll Get by Attending!

"I get so much from attending the ServiceChannel User Conferences. It's a great opportunity to speak with people at all phases of use and/or implementation whose days are spent doing what I do. The chance to quiz a peer and use that information to better our every day is invaluable."

- *Wendy Neikrie, Chipotle Mexican Grill, National Facilities Project Manager*

"I find the User Groups are very beneficial for me. I enjoy being able to gather tips from other retailers as well as hear and see updates and new releases from SC. The venue is very casual and I'm surrounded by other people who are like me that deal with repair and maintenance all day - every day and trying to keep it all sorted and flowing through the ServiceChannel system."

- *Betty Hernandez, The Container Store, Facilities Specialist*

"User meetings provide a unique opportunity to meet and interact with other ServiceChannel customer users, and learn how others use the technology to improve their facilities management. The presentations and break-out sessions are very organized and informative, and time is always set aside for fun, too."

- *Bob Russell, Sr Facilities Manager - Asset Management, Deutsche Post DHL*
