

# CERTIFICATE PENETRATION TEST

**SySS GmbH**  
72072 Tübingen

hereby confirms that it carried out a penetration test for the company

**softgarden e-recruiting GmbH**  
10789 Berlin

**Test item:** softgarden e-recruiting platform including example front end, back end, API interface (v2 + front end v3), applicant network and the providing infrastructure

**Simulated attack scenarios:**

- a) Perpetrator from the internet without credentials
- b) Perpetrator has a valid back-end login
- c) Perpetrator has valid API interface credentials

**Scenarios excluded from the test:**

- a) Diverting front-end implementations
- b) Differing application versions

**Test period:** December 10 to 20, 2018

**Test depth / resistance period:** The simulated attack lasted 8.5 man-days

**Summarizing test results:**

Vulnerabilities were discovered during the test period. However, they were successfully rectified during the test period. This is hereby confirmed by SySS GmbH.

**Recommendation:** SySS recommends that the test item be retested after every significant change or at the latest after one year.
