

It's NOT just a janitorial bond!

Business Services Bonds protect your customers and provide a competitive advantage

When Old Republic Surety Company's Business Services Bond first became available back in the late 70's, it was typically referred to as a "Janitorial Services Bond" because it was requested more for janitor service providers than any other type of business. Over the years it became apparent that there are many more types of businesses that could benefit from having this coverage in place.

As a commercial agency it is certain that you write insurance coverages for many businesses with on-premises exposures. A Business Services Bond will protect them from dishonest acts of their employees while on customer's premises.

Take a look through your list of customers. How many of them occasionally have employees on customers' premises?
