Set up quickly and manage easily
Get up and going in less than 90 minutes with a flat, new-age UI.
Handle the setup, delivery, and tracking of learning all by yourself. Leverage smooth content-LMS integration to seamlessly bring in and track any content.

Maximize learning impact
Impact business by identifying the skill gaps and quickly developing new skills.
Quickly roll out personalized learning plans to individuals and groups, using do-it-yourself workflows. Get actionable insights by tracking all training imparted to your employees or external partners.

Establish a learning culture
Create a participatory culture that sees users embrace learning rather than dodging it.
Improve course completion rates by making learning exciting through gamification, leaderboards and badges. Enable users to learn on the move on their mobile devices.

Offer stimulating learner experiences
Engage learners with the unique Fluidic Player that runs virtually any eLearning content uniformly regardless of format. Deliver mobile learning to allow learners to consume eLearning on various devices in online and offline mode.
