

Click&Meet
Sub-Conference Rooms

Sub-Conference rooms can be used in a variety of ways for different interactions within your audio meeting. You can use Sub-Conference rooms for collaboration, meeting with hosts, small group discussions or any other reason a small group conversation will be needed within a larger meeting.

Open Sub-Conferences – Toggles Sub-Conferences on and off.

- Allows for up to 8 smaller group calls
- Host Controlled- Host can drag and drop or use right click commands to place participants into a sub-conference
 - * Participants can be set up with a pre-determined break out room using the directory
- Participant Controlled - participants can move themselves in and out of the different rooms using keypad commands

Note: Audio from sub-conference rooms does **not** record
