

Bandwidth Testing in an Adobe Connect Room

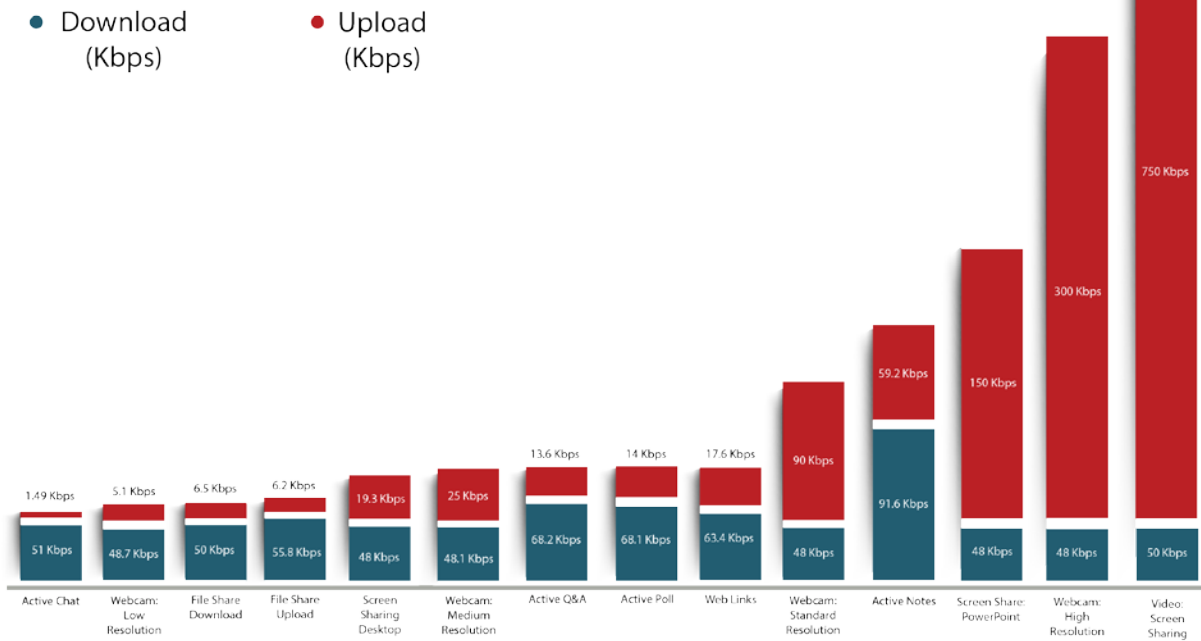

The following rates reflect the average, minimum bandwidth requirements for various features.

- Webcams:
 - Low Resolution: 48.7/5.1 kbps
 - Medium Resolution: 48.1/25 kbps
 - Standard Resolution: 48/90 kbps
 - High Resolution: 48/300 kbps
- Screen Sharing:
 - Normal Desktop: 48/19.3 kbps
 - PowerPoint: 48/25-150 kbps
- Video:
 - Screen Shared: 50/380-750 kbps
- Active Chat: 51/1.49 kbps
- Active Poll: 68.1/14 kbps
- Active Notes: 91.6/59.2 k
- Active Q&A: 68.2/13.6 kbps
- File Share (with 3 Files):
 - Upload: 50/6.5 kbps
 - Download: 55.8/6.2 kbps
- Web Links (with 3 Links):
 - 63.4/17.6 kbps

Bandwidth Testing within an Adobe Connect Room

Important Notes:

- When screen sharing the PowerPoint, my highest rate of bandwidth usage topped out at 325 Kbps upload (or 0.325 Mbps)
- When screen sharing a video, my highest rate of bandwidth usage topped out at 1,250 Kbps upload (or 1.25 Mbps)
- The high end of the range for active note taking surprised me. At its highest, the range hit 180 down & 135 up (Kbps).
