

## **Driver Qualification Files (DQF) Online Platform**

DQF management will include the following components:

- Secure, web-based, and paperless DQF management platform
- Executive Dashboard to quickly and easily monitor key compliance metrics
- Configurable, permission-based access with multiple layers (corporate, region, division, and location)
- Third party review and evaluation of DOT-related documentation and compliance
- Automated notifications for document expiration dates with ability to “escalate” notifications based on customized client rules
- Ability to generate reports and export data in electronic (Excel) formats
- Ability to manage non-DOT documentation (e.g., non-DOT drivers, etc.)
- Automated generation of annual Motor Vehicle Records (MVRs) and PSP (Pre-Employment Screening Program) documents
- Ability to upload documents directly into the DQF platform
- DOT Audit support services
