

Screening. Training. Understanding.

Trusted Testing Provider

Make Informed Hiring Decisions Faster

With EDPM, you can streamline your drug/alcohol testing services and improve your critical time to hire and train by leveraging unique technology and automation.

What if you could:

- **Always know where the drug test is in the testing process. How?** EDPM's online ordering/reporting solution allows you to locate, schedule and track the status of a drug test at thousands of collection sites across the country.
- **Receive drug test results quicker** by leveraging EDPM's innovative technology that automatically pushes negative results to our clients as soon as the results are transmitted from the lab 24/7/365 without human interaction.
- **Receive the customer care that you deserve. How?** No longer will you have to reach out to a call center and deal with a different person each time you have an employment testing question. EDPM will provide you with an account manager that is supported by an account team that is knowledgeable about your specific testing program.
- **Complete company/best practice training 24/7/365. How?** EDPM's proprietary online eLearning training platform allows supervisors and employees to complete training courses from an internet enabled computer.
- **Have complete confidence in your provider. Why?** Two of EDPM's executive staff are two of the original architects of the federal drug and alcohol testing regulations.
