HOSTED VOICE SERVICES

The key to success for your business is the ability for your employees, clients and vendors to communicate live, on-demand — from any location, on any device, at any time.

Our customizable voice solutions deliver robust business communications for both small businesses and large enterprises with multiple locations, mobile workers and unique technology needs.

Effective communication is at the center of every successful business.

HOSTED VOICE SERVICES

Transformyx has partnered with 3CX to deliver an all-inclusive IP PBX communications solution which includes web conferencing, presence indicators, softphone and smartphone clients, instant messaging and more – all without the added costs or management issues of those old-school phone systems or the constraints of a public cloud-based PBX.

The strategic partnership between Transformyx and 3CX allows any size organization to consume an enterprise class of service without the significant cost associated with traditional voice systems.

Benefits of 3CX:

- **Minimal downtime**
- **Windows and Mac softphones**
- **Unified communications**
- **Cloud hosting**
- **Mobile clients**
- **UC handsets**

Transformyx and 3CX have worked together to bring our customers best-in-class handsets at a fraction of the cost of traditional voice systems. Sleek, stylish and rich with features, Yealink is our go-to in our Hosted Voice offering.

By combining 3CX and Yealink phones, you create an ultra-modern, unified communications solution that's also affordable.

Yealink Features:

- **HD audio**
- **Industrial design**
- **User-friendly interface**
- **Convenient and flexible**

THE TRANSFORMYX DIFFERENCE

With more than 40 years of combined unified communications experience, our team of highly-skilled Transformyx engineers have designed, developed and implemented individual turnkey solutions for a wide array of customers of varying sizes, complexities and use cases.

Owning and operating our own data centers allows us to offer our customers unique add-on services to their voice environment, including colocation of voice systems and equipment as well as the management of unified communications solutions.

TRANSFORMYX MANAGED VOICE SERVICES

Transformyx Managed Voice services allow our customers to consume support from all our voice engineers and technicians, both on-site and remotely. Every Hosted Voice solution we implement automatically includes our Managed Voice offering.

Managed Voice Benefits:

- **Access to voice engineers at no added cost**
- **Handset warranty**
- **Adds, moves, changes**
- **Updates to 3CX system**

Transformyx Hosted Voice lets you take an innovative approach to communication while reducing costs and increasing productivity.
