

LEADERSTAT CONSULTING

Driving outcomes and results

Our nationally-recognized consultants can help you maintain a financially healthy organization, bounce back from a difficult survey, improve the quality of your clinical systems, implement successful marketing strategies and much more. Our consultants have worked in key leadership roles in a variety of senior care settings and have hands-on knowledge of regulations, reimbursement rules and facility operations. We have operated facilities, developed innovative programs and repositioned facilities in the market. This extensive experience gives us the ability to understand the challenges you are facing and identify opportunities for improvement.

SERVICES INCLUDE:

- **Financial and Operational Assessment:** We'll review and audit the core operational systems that directly impact your cash flow and net operating income and provide actionable recommendations to improve your bottom line.
- **Clinical Reimbursement:** Our consultants will assess your organization's performance and identify opportunities to enhance both financial and clinical outcomes.
- **Quality Improvement:** Our team will work with you in the days, weeks and months following a difficult survey to kick-start and sustain improvements in your clinical systems.
- **Marketing and Census Development:** Our marketing and business development consultants are experts at helping post-acute and senior living organizations increase referrals, optimize census and build market share.
- **EMR Implementation and Consulting:** Our experienced EMR specialists provide expertise with everything from system selection, implementation and reconfiguration to training and ongoing support.
- **Customized Engagements:** Different senior care organizations have different needs. We've got a team of nationally recognized consultants who are experts at addressing each client's unique operational, financial and clinical challenges.
