

VIZOROOMS

ENTERPRISE GRADE ZOOM ROOMS

PRODUCT SUMMARY

VizoRooms are enterprise-grade Zoom Rooms that come pre-configured, in consolidated packaging, and include one-year support that can be extended and/or renewed.

PLUG N PLAY

VizoRooms arrive completely configured and setup for a Plug N Play experience. Everything has been considered so that setting up a VizoRoom takes a matter of minutes. The PC/Mac simply needs to be powered on and connected to the internet; sign into your Zoom Room account and you're done. The tablet also comes configured and in its meeting console ready to go; like the PC/Mac, turn it on, connect to the internet, and sign in. If the VizoRoom is going to a location with minimal IT support, a Vivo-Comm technician can have the VizoRoom signed into beforehand so setup becomes even more simple.

CONSOLIDATED PACKAGING

Prior to a VizoRoom, deploying a Zoom Room likely consisted of buying the various components and getting multiple packaging for even one room. VizoRoom simplifies the experience entirely. Everything you'll need for your room shows up in a single package ready for deployment. Even the cables and accessories have been packaged in a way that makes setup a breeze!

SUPPORT

Manufacture warranties are often limited in scope and can't be extended, not to mention that most require you to send them the defective unit on your dime with receipt prior to them sending back the replacement part. VizoRoom support is far more comprehensive. VizoRoom Support includes:

- Remote setup. A technician can even help over video.
- Total hardware coverage with advanced replacement parts. That means we'll send you the replacement parts immediately, then simply put the defective component in the packaging and send it back to us, shipping to and from your location is on us. Replacement parts are shipped 2-day air, but can be overnighted on request.
- Remote training. We can train your IT staff or trainer(s), or we can even do a remote video training to your end users.

VizoRooms come with one-year support that can be extended to three years and renewed year over year.

KEY BENEFITS

There are three VizoRoom packages that are customizable to work for any space:

VizoExec – Ideal for corporate boardrooms.

VizoPro – Versatile conference room option.

VizoHuddle – Perfect for huddle rooms.

Room solutions come pre-configured and setup for a quick, simple deployment.

Consolidated packaging reduces complexity and makes clean up easy.

Support is comprehensive and includes advanced replacement parts.
