

AESTHETIC SKIN THERAPY

PROGRAM OVERVIEW

Well-educated aesthetic skin therapists are vital for the delivery of a high standard of patient care in every aesthetic medicine practice. Through their invaluable support, they allow the general practitioners to focus on the critical tasks of patient consultations, planning, management and treatment.

This course is aimed at dermal therapists, clinical assistants, enrolled nurses, and other medical professionals who work alongside and under the direct supervision of an aesthetic medicine physician or GP, and provides the knowledge required for aesthetic skin therapists to safely assist the practitioner with key procedures.

PROFESSIONAL CERTIFICATE OF AESTHETIC SKIN THERAPY

[LEARN MORE](#)
