Acquiring in-depth knowledge in dermoscopy will enable you to assess skin lesions with greater accuracy, detect melanomas in the early stages, and avoid unnecessary excisions. Presented by global leaders in the field, this three-part program can be considered the most comprehensive dermoscopy online training as it offers the substantial knowledge required to correctly diagnose a wide range of lesions on any body part, skin type and patient group. The foundation to advanced courses will allow you to start practising dermoscopy in your practice and help you progress to the most accomplished level in skin cancer diagnosis.

PROGRAM OVERVIEW

This online three-part program consists of the Professional Certificate, Advanced Certificate and Professional Diploma of Dermoscopy. Upon completion of the program, participants can continue their studies towards the Master of Science in Dermoscopy and Preventive Dermato-Oncology at the Medical University of Graz at a significantly discounted rate. Professional Diploma graduates will also receive automatic Recognition of Prior Learning (RPL) for the unit IMED7003 of the Graduate Certificate of Medicine (Skin Cancer) which is the first step in the Master of Medicine (Skin Cancer) at The University of Queensland. Course graduates may also continue their professional development by completing a clinical attachment at a dedicated skin cancer facility in Australia, or the university teaching hospitals in Vienna under the supervision of Professor Harald Kittler or in Lyon under the supervision of Professor Luc Thomas.

PRESENTERS

Prof Giuseppe Argenziano  
Second University of Naples  
Italy

Prof Harald Kittler  
Medical University of Vienna  
Austria

Prof Rainer Hofmann-Welnhof  
Medical University of Graz  
Austria

Prof Ashfaq A. Marghoob  
Memorial Sloan Kettering Skin Cancer Center, USA

Prof Masaru Tanaka  
Tokyo Women’s Medical University  
Medical Center East, Japan

Prof Luc Thomas  
Medical University of Lyon  
France

Prof Cliff Rosendahl  
The University of Queensland  
Australia

A/Prof Andreas Blum  
University of Tuebingen  
Germany

A/Prof Caterina Longo  
University of Modena and Reggio Emilia, Italy

A/Prof Iris Zalaudek  
University of Trieste  
Italy

Dr Aimilios Lallas  
Aristotle University  
Greece

Dr Elvira Moscarella  
S. Maria Nuova Hospital Emilia  
Italy

PATHWAY OPTIONS

This online three-part program consists of the Professional Certificate, Advanced Certificate and Professional Diploma of Dermoscopy. Upon completion of the program, participants can continue their studies towards the Master of Science in Dermoscopy and Preventive Dermato-Oncology at the Medical University of Graz at a significantly discounted rate. Professional Diploma graduates will also receive automatic Recognition of Prior Learning (RPL) for the unit IMED7003 of the Graduate Certificate of Medicine (Skin Cancer) which is the first step in the Master of Medicine (Skin Cancer) at The University of Queensland. Course graduates may also continue their professional development by completing a clinical attachment at a dedicated skin cancer facility in Australia, or the university teaching hospitals in Vienna under the supervision of Professor Harald Kittler or in Lyon under the supervision of Professor Luc Thomas.
There are three intakes for each course per year and participants can begin their studies in any trimester of the year. Participants may enrol in one (professional certificate), two (professional and advanced certificates), or all three (professional and advanced certificates and professional diploma) courses at once. The three courses build upon the knowledge of the previous course and must be completed in sequential order to qualify for the professional diploma. Bundle pricing available.

**COURSE OBJECTIVES**
Learn how to manage difficult benign lesions, rare skin tumours, melanomas, and the broad spectrum of BCC and keratinocyte skin cancer.

**ENTRY REQUIREMENTS**
No previous training required.

**ACCREDITATION**
RACGP 40 Category 1 QI&CPD points
ACRRM 30 PRPD points

**TOPICS COVERED**
- Module 1: Pink tumours
- Module 2: Mucosal lesions
- Module 3: Difficult benign lesions
- Module 4: Nail lesions
- Module 5: Rare skin tumours
- Module 6: BCC and keratinocyte skin cancer
- Module 7: Difficult melanomas
- Module 8: Dermoscopy in general dermatology

**ENTRY REQUIREMENTS**
Completed Professional Certificate of Dermoscopy.

**ACCREDITATION**
RACGP 40 Category 1 QI&CPD points
ACRRM 30 PRPD points

The three courses build upon the knowledge of the previous course and must be completed in sequential order to qualify for the professional diploma. Bundle pricing available.

**COURSE OBJECTIVES**
Learn how to screen lesions in different age groups and skin types, and manage various types of lesions and patients with multiple moles.

**ENTRY REQUIREMENTS**
Completed Advanced Certificate of Dermoscopy.

**ACCREDITATION**
RACGP 40 Category 1 QI&CPD points
ACRRM 30 PRPD points

**TOPICS COVERED**
- Module 1: Screening children
- Module 2: Screening young adults
- Module 3: Screening older patients
- Module 4: Lesions in different skin types
- Module 5: Flat/nodular and pigmented/non-pigmented lesions
- Module 6: Patients with multiple moles
- Module 7: Use of dermoscopy for NMSC
- Module 8: Rules not to miss a melanoma

**COURSE OBJECTIVES**
Learn how to manage melanoma, facial lesions, acral lesions, and benign and malignant non-melanocytic lesions commonly seen in clinical practice.

**ENTRY REQUIREMENTS**
No previous training required.

**ACCREDITATION**
RACGP 40 Category 1 QI&CPD points
ACRRM 30 PRPD points

**TOPICS COVERED**
- Module 1: Three Point Checklist and The Elephant Method
- Module 2: The Chaos & Clues method
- Module 3: Benign non-melanocytic lesions
- Module 4: Malignant non-melanocytic lesions
- Module 5: Melanocytic naevi
- Module 6: Facial lesions
- Module 7: Acral lesions
- Module 8: Melanoma

**ENTRY REQUIREMENTS**
No previous training required.

- Module 8: Rules not to miss a melanoma

**ENROLMENT OPTIONS AND DATES | ONLINE**

---

I would highly recommend this program to anyone with even the remotest interest in lesion recognition. It was highly informative and expertly delivered. The courses provided me with a new dimension to my clinical practice. I will use these skills on a daily basis working as a GP.

– Dr F. Armstrong, VIC –

A fantastic program that has greatly increased my confidence in skin cancer screening.

– Dr A. Beisenherz, NSW –

One of the most useful CPD programs I have done in the past few years. It has changed my day-to-day practice to a great extent.

– Dr B. Subramaniam, QLD –
