SKIN CANCER

"If you ever look at skin lesions in your practice, you must do these courses. You can't do any skin cancer medicine in general practice without this information."

– Dr S. Southgate, WA –

PROFESSIONAL CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#) 

Offering the ideal starting point for building your core knowledge, this course will teach you the foundations of skin cancer diagnosis with dermoscopy and basic surgical and non-surgical treatments, as well as how to set up your practice, choose the right equipment, and appropriately bill for procedures.

- Skin anatomy and histology
- Diagnosis with dermoscopy
- Benign and malignant skin lesions
- Melanoma management
- Dermatopathology
- Topical treatment options
- Punch and shave biopsies
- Elliptical excisions and suturing
- Workflow and Medicare billing

AVAILABLE ON SATURDAY, 27 JUNE OR SUNDAY, 28 JUNE + ONLINE THEORY COMPONENT.

ADVANCED CERTIFICATE OF SKIN CANCER MEDICINE

[LEARN MORE](#) 

This intermediate course will solidify and advance your knowledge in dermoscopy and surgical and non-surgical skin cancer treatments. The program provides hands-on training in rarely covered skin cancer management techniques and offers an excellent introduction to more advanced dermoscopy.

- Advanced dermoscopy
- Biopsy techniques
- Curettage and cautery
- Diathermy
- Topical treatment options
- Local anaesthetics
- Incisions / haemostasis
- Lower leg grafts
- Large elliptical excisions
- Suturing, including paper-thin skin

PROFESSIONAL CERTIFICATE OF SKIN CANCER SURGERY

[LEARN MORE](#) 

This highly practical foundation course focuses on different anatomical areas with supporting theory. You will learn how to perform surgical procedures with optimal scarring results and practise a range of flaps and grafts, large elliptical excisions and suturing techniques on pork parts.

- Surgical anatomy and skin lines
- Local anaesthetic blocks
- Large elliptical excisions
- Advanced suturing techniques
- Advancement flaps
- Rotation flaps
- Full thickness grafts
- Dog ear repairs
- Wound care
- Selection of dressings

PROFESSIONAL DIPLOMA OF SKIN CANCER SURGERY (Prerequisite Complex Workshop)

[LEARN MORE](#) 

This course is ideal for doctors who treat skin cancer patients regularly and wish to acquire and hone the most advanced skin cancer surgery techniques on anatomically complex and sensitive areas, including the nose, eyelids, ears, lips, and lower limbs. The program includes practical surgery sessions with a team of surgical assistants who will guide and support you as you practise surgical techniques on pork parts.

- Neurovascular island flaps
- Bilobed flaps
- Banner flaps
- Rhomboid flaps
- V-Y flaps
- Lip wedges
- Periorbital defects
- Case presentations

AESTHETIC MEDICINE

"Excellent course! I did not have any experience in this field and didn't know how to address my patients' demands regarding these issues."

– Dr A. Irannezhad, QLD –

Professional
Certificate

Advanced
Certificate

Professional
Diploma

Did you know that Australians spend over \$1billion each year on cosmetic procedures? To help meet this demand for skilled practitioners, this strictly science-based, not company-funded program is delivered by GPs for GPs and features expert training in the evolving field of aesthetic medicine. The certificate courses combine interactive lectures, case discussions, live demonstrations, and practical sessions on pork parts and simulated models. You will also acquire the business knowledge required to integrate the services into your practice and grow your non-Medicare based revenue.

PROFESSIONAL CERTIFICATE OF AESTHETIC MEDICINE

LEARN MORE ▶

This introductory course will help you develop solid foundation knowledge in aesthetic principles and the safe practice of quick, highly requested and low-cost-to-deliver aesthetic treatments for clinical conditions.

The Professional Certificate of Aesthetic Medicine will help you meet the increasing demand for skin repair services in your practice. Helping your patients to regain their healthy appearance and confidence at their local GP's clinic will build long-term loyalty and add non-Medicare based revenue to your practice. Most aesthetic treatments are safe, quick and low-cost to deliver requiring repeated visits with minimal side-effects, no downtime, and immediately visible results for your patients.

- Concepts of aesthetic medicine
- Facial anatomy and skin classifications
- Planning of cosmetic procedures
- Chemical peels
- Topical skin treatments
- Botulinum toxin injections
- Dermal fillers and basic filler techniques
- Set up and marketing of services in general practice

ADVANCED CERTIFICATE OF AESTHETIC MEDICINE

LEARN MORE ▶

This intermediate course will increase your clinical knowledge in aesthetic principles, demonstrate the latest aesthetic medicine treatments and enable you to practise the procedures on pork parts and simulated models.

The intermediate course in the three-part pathway towards the Professional Diploma of Aesthetic Medicine, the Advanced Certificate course will enhance your clinical knowledge in aesthetic principles and the safe practice of the latest evidence-based aesthetic medicine procedures. Ideal for practitioners who are considering working in the field, the course provides a new level of confidence and competence relevant to primary care, enabling you to integrate highly sought-after cosmetic services into your day-to-day work.

- Managing complications during procedures
- Sclerotherapy
- Advanced Botulinum toxin injection techniques
- Advanced dermal fillers techniques
- Hyperhidrosis treatments
- Advanced chemical peels
- Laser use for hair and tattoo removal
- Laser use for vascular and pigment conditions
- Set up and marketing of an aesthetic clinic
