The latest trends in health and skin care result in an increased demand for skin repair and rejuvenation services – and skilled practitioners. Patients with clinical skin conditions prefer to receive these services from a trusted, qualified doctor rather than from a beautician or cosmetic nurse. Meeting your patients’ aesthetic concerns and helping them to regain their healthy appearance and confidence will build long-term loyalty and add non-Medicare based revenue to your practice.

This strictly science-based, not company-funded program is delivered by GPs for GPs and features expert demonstrations and training in the evolving field of aesthetic medicine. You will also acquire the medical and business knowledge required to integrate the services into your practice.

**The Aesthetic Medicine program was a wonderful experience and I will definitely integrate my learning into my future practice. The course is very useful in general practice for anyone interested in aesthetic medicine.**

– Dr N. Ahmed, WA –

**The live demonstrations have cleared up some uncertainties I had and now I feel ready to add more aesthetic procedures to my practice.**

– Dr D. Pratt, QLD –

**PRESENTERS**

Dr Anthony Rixen  
Max GB Medical and Skin Centre

Dr Chris Clifopoulos  
The Courten Medical Centre

Dr Dianne King  
National Skin Cancer Centre

Dr Isabelle Jonsson-Lear  
Holy Health & Skin Medical

Melbourne Aesthetics Clinic

Dr Nicholas Kokotis  
Southern Cosmetics Clinic

Dr Paul Davis  
Venuo Van Clincos

**DELIVERY FORMAT**

The certificate courses combine interactive lectures, case discussions, live demonstrations, and practical sessions on pig skin and simulated models. All courses include a digital workbook with all presentation slides, tools and consumables for practical application, and access to additional learning resources, reference materials and video lectures. You will also receive valuable 12 months web-based support from the speakers and participate in regular online learning sessions with the opportunity to ask any questions you might have as you implement your learning.
**COURSE OBJECTIVES**
Increase your clinical knowledge in aesthetic principles and the safe practice of latest evidence-based aesthetic medicine procedures.

**ENTRY REQUIREMENTS**
Completed Professional Certificate of Aesthetic Medicine.

**ACCREDITATION**
RACGP and ACRRM points pending.
Please see website for updates.

**TOPICS COVERED**

- 22-23 Feb 2020 | Melbourne
- 19-20 Sep 2020 | Sydney
- 27-28 Jun 2020 | Gold Coast
- 21-22 Nov 2020 | Brisbane

**FURTHER STUDIES**
Upon completion of the program, graduates are encouraged to complete a clinical attachment to increase the safety and accuracy of their work, deepen their understanding of establishing and operating a successful aesthetic practice, and gain the confidence to independently perform various procedures on their patients. Professional Diploma graduates can apply to enrol in the Postgraduate Certificate in Cosmetic Medicine, with Recognition of Prior Learning (RPL) for module 1, and upon completion of the Postgraduate Certificate may apply for credit to the Postgraduate Diploma and then continue with the MSc in Cosmetic Medicine. These postgraduate qualifications are studied online with Diploma MSc and awarded by the University of South Wales (UK).
