

## YOUR STEPS TO BLEMISH-FREE SKIN

- ✓ Before removing a blemish, your doctor will perform a skin check and explain how the procedure works in detail.
- ✓ At your follow-up appointment, the doctor will remove one or more blemishes of concern. Treatment is only available for people over the age of 18.
- ✓ During the treatment, your doctor will utilise the cosmetic radio wave system Surgitron® to make small incisions in the skin. The high frequency energy will seal the lesion as it is cut away from any area of the body.
- ✓ The treated area is left to heal naturally and a temporary superficial scab will fall off by itself after seven to 10 days. A fresh layer of skin will form to create a permanently smoother, more attractive skin surface.

## FOR BEAUTIFUL, HEALTHY SKIN

Skin imperfections such as moles, age spots, skin tags, warts, and “spider veins” are mostly harmless and are rarely a medical concern. However, they can stand out unfavourably and cause irritation on certain areas of your body or affect your self-esteem.

As part of our comprehensive approach to managing your skin health, we offer cosmetic removal of unsightly lumps and bumps on your face and body. These effective and affordable treatments are performed by our experienced doctors utilising the latest radio wave technology, without scalpels or blades.

## YOUR BENEFITS

- ✓ Virtually no risk of scarring, bleeding or pain.
- ✓ No damage to surrounding skin.
- ✓ Instant, permanent results and improved self-confidence.
- ✓ No pre-surgery preparation or post-surgery downtime.
- ✓ Quick, one-time treatment with short healing period.

# FREE YOUR SKIN OF UNSIGHTLY BLEMISHES

**NO PAIN. NO BLEEDING. NO STITCHES.**

**ASK YOUR DOCTOR TODAY**

## HOW DOES IT WORK?

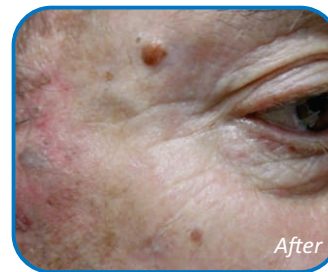

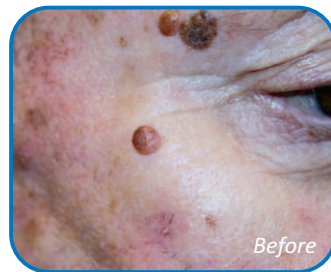

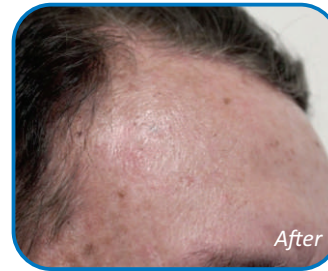

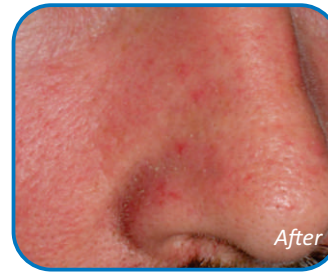

Radio wave treatment is a painless non-surgical, simple procedure administered under local anaesthetic, so you won't feel any discomfort. The treatment takes 15 to 40 minutes, after which you will emerge blemish-free. This procedure is a one-time treatment with instant, permanent results and no downtime.

## WHAT SKIN IRREGULARITIES CAN BE TREATED?

The procedure is suitable for all skin types and is effective in removing many skin irregularities on the face, neck, armpits, and breasts:

- Moles
- Skin tags
- Age spots
- Seborrhoiec keratoses
- Warts
- "Spider veins"

## IMMEDIATE, PERMANENT RESULTS

## - AFTER ONLY ONE TREATMENT
