

AESTHETIC MEDICINE

PROGRAM OVERVIEW

The latest trends in health and skin care result in an increased demand for skin repair and rejuvenation services – and skilled practitioners. Patients with clinical skin conditions prefer to receive these services from a trusted, qualified doctor rather than from a beautician or cosmetic nurse. Meeting your patients' aesthetic concerns and helping them to regain their healthy appearance and confidence will build long-term loyalty and add non-Medicare based revenue to your practice. This strictly science-based, not company-funded program is delivered by GPs for GPs and features expert demonstrations and training in the evolving field of aesthetic medicine. You will also acquire the medical and business knowledge required to integrate the services into your practice.

PRESENTERS

Dr Jenny Kimmins
Aesthetic Medicine Doctor &
Medical Director
Southern Cosmetics Clinic

Dr Chris Clifopoulos
Skin Cancer &
Aesthetic Medicine Doctor
The Croxton Medical Centre

Haly Health & Skin Medical

Dr Anthony Rixon
Skin Cancer and Aesthetic
Medicine Doctor
Main St Medical and Skin Centre

DELIVERY FORMAT

The certificate courses combine interactive lectures, case discussions, live demonstrations, and practical sessions on pig skin and simulated models. All courses include a full-colour workbook with all presentation slides, tools and consumables for practical application, and access to additional learning resources, reference materials and video lectures. You will also receive valuable 12 months web-based support from the speakers and participate in regular online learning sessions with the opportunity to ask any questions you might have as you implement your learning.

PATHWAY OPTIONS

This university quality-assured three-part program consists of the Professional Certificate, Advanced Certificate and Professional Diploma of Aesthetic Medicine. Upon completion of the program, graduates are encouraged to complete a clinical attachment to increase the safety and accuracy of their work, deepen their understanding of establishing and operating a successful aesthetic practice, and gain the confidence to independently perform various procedures on their patients. Course graduates may join the American Academy of Anti-Aging Medicine and become a Fellow of the American Society of Cosmetic Physicians, which has 18,000 physician members in more than 20 countries.

“ The course information caters for a variety of needs, from GPs starting out in this field to GPs already practising and expanding their spectrum of knowledge. ”

– Dr J. Petro, NSW –

“ The course provides education on conditions and treatments that have not yet become part of general medical training and yet are very important for a wide variety of patients. ”

– Dr B. Thomson, ACT –
