

## SOLUTION SPOTLIGHT

# Switch to Commvault...

You've been reading the reports and comparing the facts, but we know change is still hard. So we're offering special deals to make the decision even easier.

Commvault is the industry-leading technology to protect and manage data - so the product selection decision should be an easy one. Commercially we also want to help with tightening budgets - Switch from your existing backup software and receive significant switch discounts, or switch from Veeam to a brand new Commvault subscription license to receive an EXTRA 10% capacity FREE, to cover your future growth.

**COMMVAULT™**

## How do you know you are ready to switch?

- Running multiple products is creating complexity, not simplicity
- Your staff are tired of using multiple consoles for administration and support
- Lack of innovation is slowing you down. And putting your data and applications at risk

## The Switch Deals

- Commvault Swap-Out Maintenance Renewal Subscription Promotion
- Switch from an existing ISV and receive significant discounts compared to your existing annual renewal cost.
- Switch from Veeam and receive an extra 10% capacity coverage for FREE, at no extra annual cost.

## Why Commvault?

- Native support for 40-plus cloud providers and 9-plus hypervisors with the ability to back up and recover to, in and between clouds
- Consistent, policy-driven protection from a single interface
- Broader data protection for enterprise applications and application-aware backups
- Flexible hardware platform - select what works best for you
