

4 out of 5 Pap Users **SLEEP BETTER** with a **CPAPmax[®] 2.0** PILLOW

CPAP Masks can leak and be noisy. The straps can slip and the hose can be cumbersome. A recent survey shows that a CPAPMax 2.0 Pillow dramatically improves sleep for CPAP Mask Users (traditional and nasal). Here's what Nasal Mask Users are saying:

94% slept better throughout the night

experienced improved comfort during their CPAP therapy

97%

86%

had improved breathing and airway alignment while sleeping

cited reduced mask shifting

89%
