

FOLDING WEDGE

INCLINED SLEEP SOLUTION

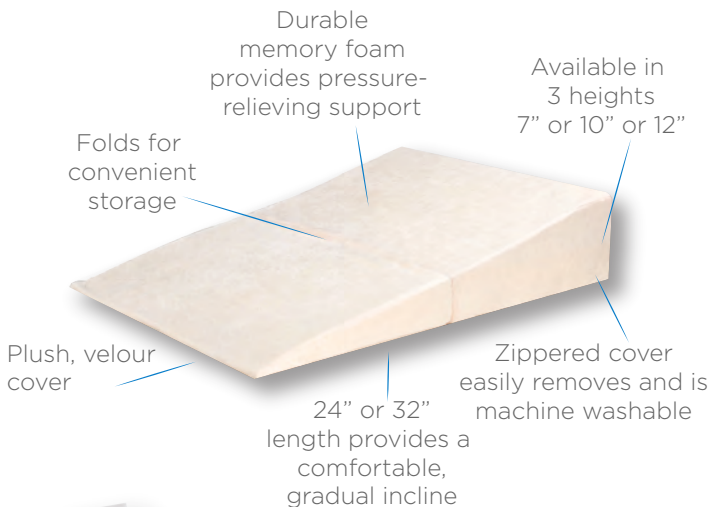

Sleep Comfortably Elevated

- Ergonomic design properly aligns spine to help relieve muscle tension & back pain
- Elevate head, shoulders, and feet for relief from:
 - Acid reflux and other digestive issues
 - Sinus pressure, CPAP discomfort, and other respiratory problems
 - Edema and swelling
 - Snoring and more

Sleep Comfortably Elevated

Contour's Folding Wedge is a less intrusive solution to many health problems - instead of surgery or medications. Doctors often recommend elevated sleep to combat acid reflux, GERD, respiratory issues, back pain, edema, snoring and more. It's one of the easiest ways to get the comfort, support, and sleep that you need each night.

Soft, microfiber fitted pillowcase is available for an additional purchase
