► Ongoing end-user training and support

► Windows 10 management as a service

49% Improvement in Security
*Gartner Annual Enterprise Survey

Windows 10 represents a fundamental shift in delivering experiences to your users. Make sure you get the transition right, to capitalise on modern ways of working.

The **Windows 10 Full service** is all encompassing, enabling you to fully benefit from all that Windows 10 has to offer. If you have the opportunity and the time to think strategically about how you deliver end-user computing going forwards, this service is for you.

Customer challenges

Using our services, we can help address the following key questions:

- What is the most effective way to deploy Windows 10?
- How do you develop your requirements?
- Are you doing the right things in the right order?
- Where do you re-use current investments and where to make new investments?
- How do you meet 2020 deployment deadlines, where relevant, and prepare for the end of extended support for Windows 7?
- How do you know which of your applications will work with Windows 10?
- What do you do if your applications aren't compatible?
- How do you ensure you get most value out of Windows 10?
- How do you demystify deployment scenarios and servicing?
- How do you formulate a deployment plan and feature road-map?
- How do you engage and train your business?
- Where do you find the right skills or enough time to deliver success?
- How do you leverage ATP technology (Windows E5)?

How to realise value from Windows 10

The Windows 10 opportunity will allow you to rethink and modernise your ways of working. The transition to Windows 10 will be your last 'traditional' desktop deployment project before you embark on your Windows-as-a-Service journey. Our services are designed to end your legacy ways of working and start your new evergreen desktop environment. We ensure that it is set up right the first time, in preparation for continual servicing.

Key features
The Windows 10 Full engagement can be tailored to suit your requirements across the following areas:
