

REAL PEOPLE.

REAL PROBLEMS.

REAL ANSWERS.

MAKING A DIFFERENCE IN HEALTHCARE, ONE LIFE AT A TIME.

As a leader in the healthcare consulting industry, we at Primaris truly understand just how complex the healthcare industry truly can be. For many patients, navigating simple things, such as a hospital bill, can be a frustrating process in which miscommunication can lead to late payments and penalties.

Helping Americans try and ease the pain of getting quality care is what drove us to create the Primaris Foundation. Built on the principle that knowledge is power, our not-for-profit organization focuses on helping educate Americans on how to make good health decisions that maximize the quality of their care while minimizing the impact on their wallets.

THE PRIMARIS FOUNDATION SEEKS TO IMPROVE LIVES THROUGH EDUCATION.

ABOUT THE FOUNDATION: Founded in 2005, the Primaris Foundation is a not-for-profit organization based out of Missouri dedicated to being the trusted resource for helping individuals maximize their access to healthcare and benefits. Driven by a passion for improving the lives of others and building better and healthier communities, the Foundation empowers individuals to make informed decisions about their healthcare choices through outreach opportunities and education programs.

ASSISTANCE FOR THOSE WHO NEED IT MOST: Every day, more than ten-thousand Americans become Medicare eligible. Faced with this growing segment of the population, demand for the services of CLAIM and its nationwide partners, has grown from 1.2 million client contacts in 2005 to over 3.5 million contacts in 2014, almost a 300% increase. These personal, face-to-face services are especially important for the significant number of Medicare beneficiaries with cognitive illness or other chronic conditions that make it more difficult to process complicated information.

A DIFFERENCE THAT LASTS A LIFETIME: In addition to Medicare education, The Primaris Foundation has partnered with a national network of organizations to help provide education about insurance options offered through the Affordable Care Act (ACA). Tasked with helping inform Americans about their options under ACA regulations, the Primaris Foundation's team of certified counselors journey from the rural towns of the heartland to the bustling hearts of some of the nation's largest cities to help remove the barriers between people and better health care.
