

**Everyone
deserves
a **chance**
at life**

*Say **NO** to abortion as
an austerity measure*

The cost of every abortion... One human child...

As unbelievable as it sounds, there are some Irish people who think that those less fortunate than themselves don't deserve to have children.

To put it bluntly, they see abortion as a solution to poverty.

It's appalling that abortion might be used as some sick type of austerity measure.

Or that the government would try to save money by aborting babies instead of actually helping women.

The right to life is not just for the fortunate, the privileged or the perfect. Everyone in this country, rich or poor, deserves a chance.

**Vote NO on May 25th to
give EVERYONE a chance.**

YOUR NO VOTE WILL:

- 1 Stop** the government from bringing in abortion on demand and late-term abortion
- 2 Ensure** BOTH mothers and babies are protected in our laws and you retain YOUR SAY on something too important to be left to politicians alone.
