OUR DOCUMENTUM OFFERING

Our teams of experienced consultants and technical experts, combined with a training center and international Documentum support services, are continuously focused on your Documentum optimization, ensuring business compliance, process continuity, high level of service and real return of investment.

DESIGN | DOCUMENTUM STRATEGY

Strategic consultancy services to formulate a customized Documentum approach for your business requirements, including technology infrastructure, configurations, training and operation.

- ▶ ECM audit & roadmap
- ▶ Project lifecycle management
- ▶ Documentum training program
- ▶ Documentum maintenance plan

BUILD | SOFTWARE DEVELOPMENT

Our experienced and certified software engineers, architect and implement new Documentum based solutions (D2, xCP or Custom) or adapt existing implementations, focused on usability, performance, maintainability and flexibility.

- ▶ IT infrastructure integration
- ▶ Business processes
- ▶ Built-in compliance
- ▶ Information security

RUN | DOCUMENTUM SUPPORT SERVICES

Our shared service center consisting of certified engineers is committed to maintain and support Documentum software, thereby maximizing availability and business continuity.

- ▶ Remote & on-site assistance
- ▶ Continuous optimization
- ▶ 24/7 real-time monitoring
- ▶ Migration & upgrade services

EDUCATE | DOCUMENTUM TRAINING CENTER

As an OpenText training partner, we offer a world-class learning program in information storage and content management to help you maximize the return on your Documentum investment.

- ▶ Highly experienced consultants & trainers
- ▶ On-site training or at AMPLEXOR premises
- ▶ Official OpenText training materials
- ▶ Tailor-made workshops
