Frank Cottle
Chairman of Alliance Virtual Offices

“The flexibility of the system makes it the ideal product to support the Alliance Virtual Offices Live Reception service, underpinning excellent customer service with advanced technology to transform a standard service into an even more impactful value-add for our members. Not only this, but Appointedd makes it possible for Alliance Virtual Offices centers to optimize their accessibility by allowing members to book facilities 24/7 online with booking tools that integrate with the center’s website. The cross-timezone capability of the software is also a valuable asset for the businesses we accommodate in our centers, allowing them to easily operate internationally.

“Working with Appointedd to deliver a high-quality, progressive technological solution to support centers gives us the opportunity to broaden the scope of the services we provide and future-proof the process of making our facilities available to members. The main benefit of the system lies in its ability to offer solutions and

advantages to a variety of users for a range of purposes - from the management of our centers to the advancement of the businesses who occupy them.

"The team at Appointedd worked closely with us to ensure the service we delivered was tailored to the needs of our members and could provide real added value to the centers we work with."

"Appointedd understand our industry and have developed a solution that is closely aligned with the requirements of flexible workspace operators. Key features like real-time appointment setting, online bookings, and CRM is no longer a nice-to-have; in our increasingly competitive environment, this level of automation opens up new opportunities for operators to add value to clients, which is paramount to the success of every workspace center. Appointedd's service provision is second to none and I am proud to call them a partner of the Alliance Business Centers Network."
