ABOUT DAVID

David Weingard was first diagnosed with Type 1 diabetes while training for a six-day survival race. He was 36 years old, a husband, father of two, and on the frontlines of business development at Microsoft. Despite Weingard’s can-do disposition, as a triathlete and entrepreneur, the diagnosis was overwhelming. A few months later, Weingard met Cecelia, a Certified Diabetes Educator (CDE) who gave him what he needed to thrive – compassion and personalized health support. Slowly he learned how to help his body do what it’d always done, Ironman races and all.

Weingard left his job at Microsoft to build a disease management platform that provides the same type of expert clinical education, guidance and coaching that he received from Cecelia, to all patients living with diabetes. With an estimated 30.3 million people in the US and 450 million people worldwide living with the chronic disease, scaling his one-on-one CDE experience to the millions affected by diabetes required innovation, and a persistent commitment to collaboration.

“We are the glue, or rather the creators of common ground, value-wise, for these three groups, providing them with the access points needed to support the 450 million people in the world with diabetes.” - David Weingard
ABOUT

Cecelia Health is a leading technology-enabled diabetes and chronic disease management company that connects clinical coaching and proprietary technology with people living with diabetes and related chronic diseases, to improve patient outcomes for a healthier population.

For health plans and ACOs seeking to improve quality measures and pharma and device companies seeking to improve medication adherence and brand loyalty, Cecelia Health is a diabetes and related chronic condition coaching solution that enables Certified Diabetes Educators (CDE) and other expert clinicians, to scale their reach and deliver effective, personalized, one-on-one care.

COMPANY MISSION

Cecelia Health’s mission is to positively transform the lives of people living with diabetes and related chronic disease states. For health plans and ACOs seeking to improve quality measures, and for pharmaceutical and medical device companies seeking to improve adherence, Cecelia Health is a diabetes and related chronic condition coaching solution that enables Certified Diabetes Educator (CDE) and other expert clinicians to scale their reach and deliver effective, personalized, one-on-one care.

WHAT SOME OF OUR PARTNERS ARE SAYING

“We know that diabetes is a key barrier to achieving better health outcomes, and we are pleased to now offer Cecelia Health’s innovative diabetes coaching solution to Humana members in South Florida. Their services will help educate and motivate members living with diabetes to take control of their health and improve their well-being, as well as support our providers in achieving their quality goals.”

Dr. Fernando Valverde, Regional Medicare President, Humana.

“We were an early partner of Cecelia Health and have worked together with it for several years to scale and improve the health and well-being of our members. Based on the success we’ve seen with our members, we’re now working with Cecelia Health to offer its services to Healthfirst employees. We’re looking forward to continuing to work with Cecelia Health to innovate and identify opportunities to benefit from the expansion of its mission.”

Jay Schechtman, Chief Clinical Officer, Healthfirst.

“I have been impressed by Cecelia Health’s scaled technology coaching model and its use of data-driven insights gained from coaching diabetes patients to help drive our initiative. We recently partnered with Cecelia Health and the Helmsley Charitable Trust to improve the health of people with diabetes using insulin via the scaled initiation, persistency and interpretation of data for patients using continuous glucose monitor (CGM) devices. This innovative model for access to devices, coaching and data at scale has the potential to transform the landscape for treating diabetes and related conditions.”

Dr. Roy Beck, Executive Director, Jaeb Center for Health Research Foundation.

“Cecelia Health’s personalized coaching program complements WellCare’s existing care management resources and will provide yet another avenue to help our members living with diabetes manage their condition and improve their overall health and well-being.”

Dr. Richard Petrucci, Chief Medical Officer, WellCare New York.

“By partnering with Cecelia Health, and using professional Certified Diabetes Educators (CDEs), we will be able to both enhance and scale the education and support we offer our patients benefiting from V-Go device. Cecelia Health CDEs are able to support our mission of providing patients with needed education to initiate and maintain use of V-Go.”

John Timberlake, President and CEO, Valeritas.
FAST FACTS

HUMAN COSTS
