SCHOLARCHIP

SCHOOL SAFETY SERVICES

SCHOLAR◆CHIP®

Tools for Smarter Schools™

WELCOME TO SCHOLARCHIP

Dear School Administrator,

We listened to your concerns about safety and accountability. Based on our understanding of the average size school, ScholarChip recommends the implementation of a holistic, scalable solution that will manage student, staff and visitor identity, control building and facility access and provide mental health support to achieve a safe school climate. The following pages provide detail on each of the components included in the recommended solution.

• Building access concern comment here.
• Concerns about dealing with disruptive students.
• Managing student identity and printing smart ID internally.

ScholarChip's school safety and student accountability system gives you the freedom to focus on your most important tasks—like gaining valuable insights into your student population, making data driven decisions affecting student safety and academic success, letting students learn in a safe environment, providing teachers with more class time and delivering peace of mind to parents.
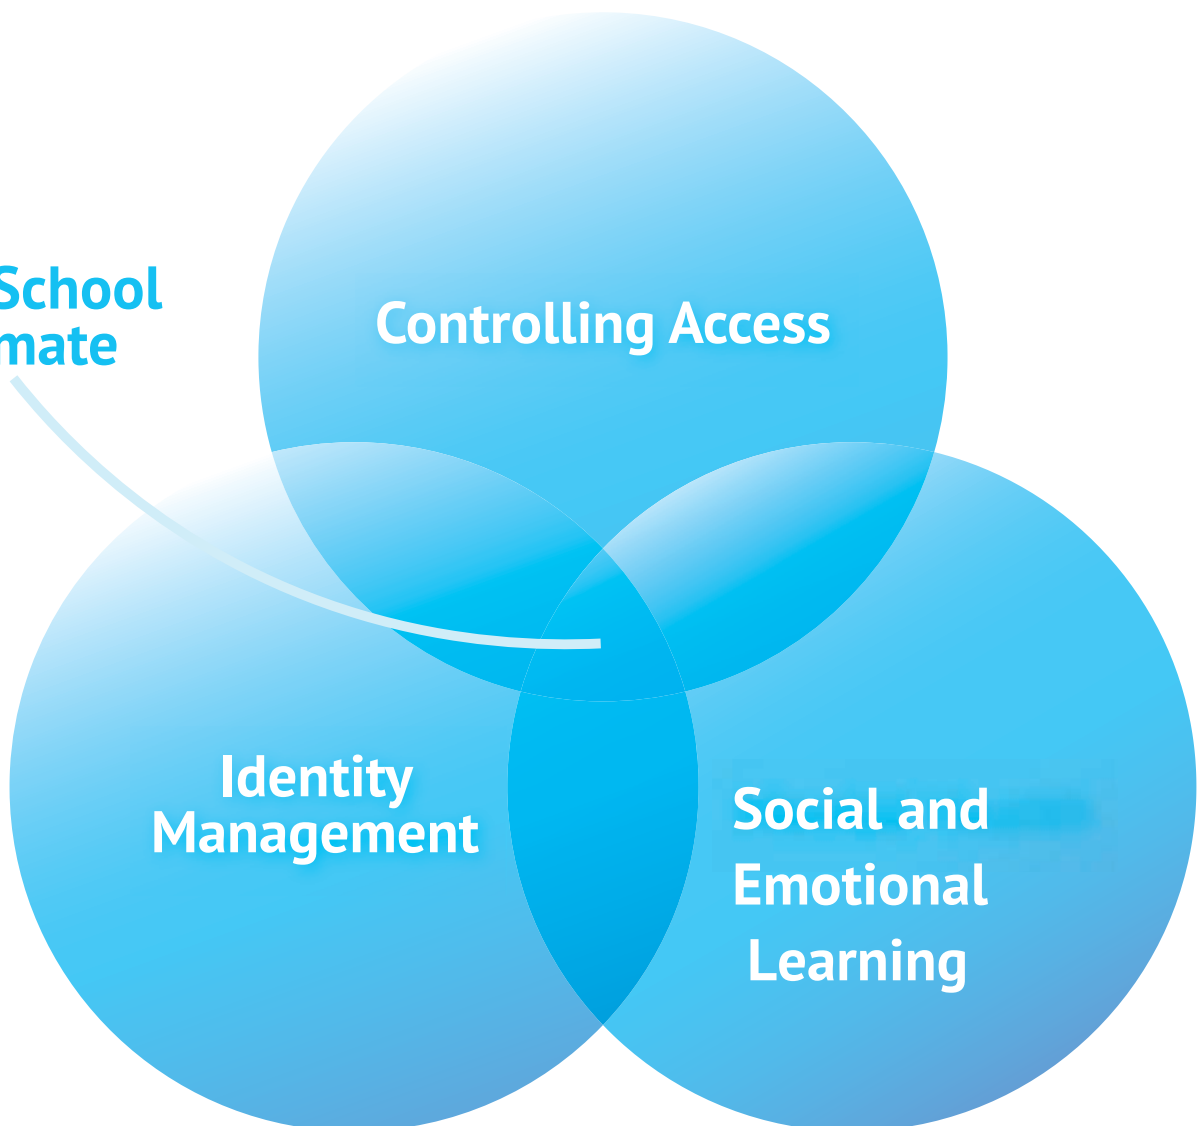

Best regards,

Kevin Barney
Senior Vice President
of Business Development

OUR HOLISTIC
APPROACH

"Rather than viewing school safety as a targeted outcome of a designated stand-alone program or piece of equipment, a comprehensive model seeks to integrate all services for students and families by framing behavioral, mental health, and social services within the context of school culture and learning." *

- ☑ ScholarChip Issuance
  (Cloud Smart ID)
- ☑ Visitor Management
- ☑ Large Group Entry
- ☑ ABE
  (Alternative Behavior Educator)

Safe School Climate

Controlling Access

Identity Management

Social and Emotional Learning

WE ALL NEED
SAFER SCHOOLS

1. ScholarChip Issuance
Print and photograph student and staff smart ID cards right in school.
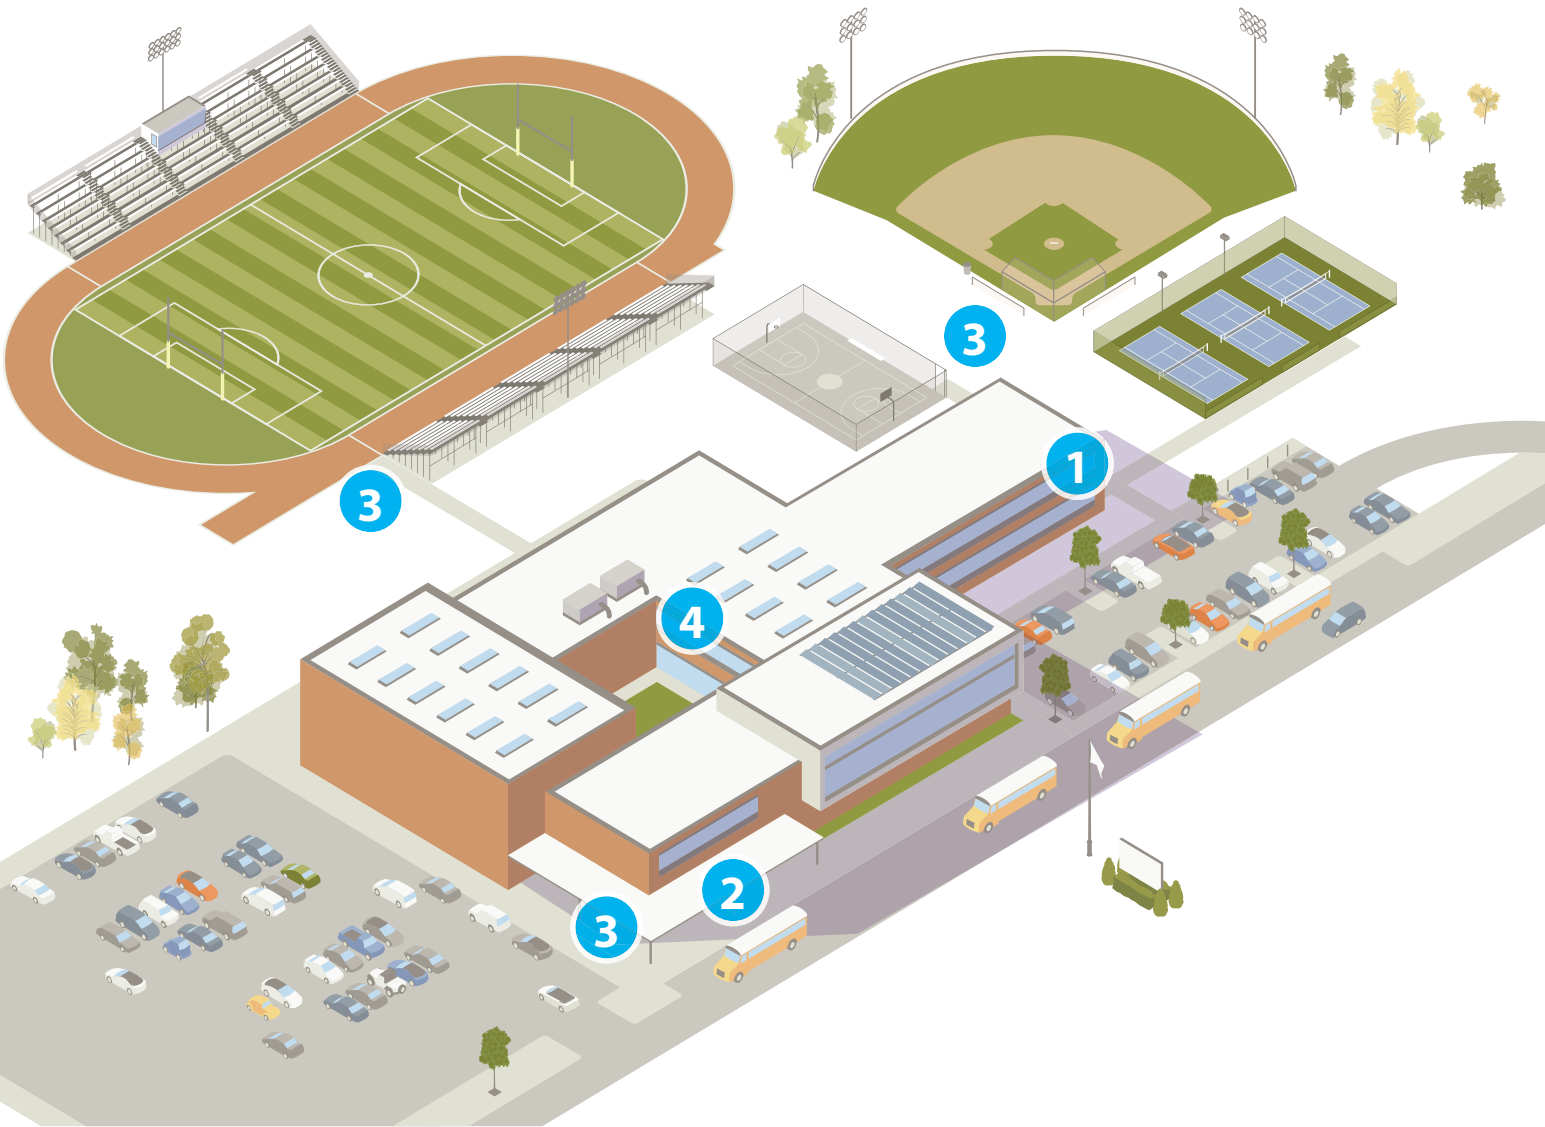

3. Large Group Entry
Take student attendance at the school entrance. Only enrolled students have access into the school. Stations can be moved and used for special events.

2. Visitor Manager
Identify all visitors and run a sex offender check. Visitors will have data records that include destination and time stamp of arrival and departure.

4. Alternative Behavior Educator (ABE)
Proactively address student social and emotional learning and behavior issues. Provides effective interventions, tracks and evaluates student progress throughout their school career.

VISITOR MANAGEMENT STATION

Visitor Manager

ScholarChip Visitor Manager integrates with Student Information Systems to manage student pick-up and custodial issues. Administrators have access to visitor data and can manage a visitor's status from the web 24/7. Our visitor stations rapidly process visitors, capture staff-time and attendance, and issue key-chain style fobs to frequently visiting parents. We know that no two schools operate alike; for flexibility, our visitor service is available in several software and hardware formats.

FEATURES & BENEFITS:

- Secures adult visitor entry to the school
- Automated visitor data collections
- Sex offender search and school defined alerts
- Prints visitor passes

SECURE DOOR ACCESS

Door Access

Know which staff members and students pass through which doors; allow specific members entrance at particular times of day; and lock down instantly, with one-click efficiency.

ScholarChip's door access system is integrated natively into the platform–no additional software or management tools are required. Our new Power over Ethernet devices result in lower total cost of ownership as well as easy installation for retrofitting or new construction.

FEATURES & BENEFITS:

Web-based door access management
Scales easily to manage a single door toh undreds of doors
Automated lock down via the web or Interactive Voice Response ordoor buzzer entry

Access roles may be derived automaticallyfrom the Student Information System orother school systems without manualintervention

BUILDING & LARGE GROUP ATTENDANCE

Large Group Entry

Automated building attendance secures a school by allowing authorized students while alerting for exceptions. Administrators need to know who has arrived, who was late and who has left.

As they enter the building, students tap their smart ID-cards onto our wheeled kiosks. Our Large Group Attendance Service captures previously uncollected data, gathering real time attendance data for any location outside of a classroom.

FEATURES & BENEFITS:

Integrates with all modern student information systems
A lerts for suspended students
Real time and historical reporting and graphic dashboards
Entry speeds at 50 students per minute

Integrates with our discipline referral and behavioral intervention service
A utomates tardy arrival processes
Secures "open campus" student egress

ALTERNATIVE BEHAVIOR EDUCATOR - ABE

ScholarChip ABE - Behavior Management
Designed with student success in mind, ScholarChip ABE focuses on the importance of student behavior and social success. We believe good behavior is within reach for all students.

Our Behavior Management software empowers teachers to work through student performance patterns. Educators have at their fingertips, one of the most comprehensive methods to combat class disruptions. It starts with a reported misbehavior by a student; next, a corrective course of action is determined for the teacher to take; and finally, the student is positively reinforced through interactive software to deter repeat offenses.

FEATURES & BENEFITS:

Paperless Discipline Referral saves teachers time
Enrolls students in a behavior reward program
Over 700 evidence-based modules available

Intuitive user interface
Provides administrators with an online method of recording and acting on student behaviors
Administrators can view valuable student and staff data through your ScholarChip Management Portal.

SCHOLARCHIP
FOCUSED ON YOUR SCHOOL'S SUCCESS

Throughout America, our large and small districts have found the freedom to achieve and succeed.

"**Attendance** for our high school students **has gone up more than four percentage points** over the past three years and ScholarChip's system is one of the reasons for this increase. The technology is unbelievable."

- School District of Philadelphia

"...their visitor manager seamlessly processes thousands of visitors a day. **The system flawlessly sends alerts to key administrators** reporting potential sex offender name matches."

- Fairfax County Public Schools

"Because it's an electronic process, I can tell who is in the building in real time, which is **vital information from a security standpoint.**"

- Bay Shore, NY High School
