## ECLECTIC, CULTURED COLOUR

The Boho Chic style is all about the story. It has a “collected over time” feel, and embraces the lifestyle of the postmodern movement.

It’s for those who dream of wandering bazaars in Morocco, taking Polaroids in Paris, or sitting at a cafe on the Danube. Taking the best of design from across the world, the Boho Chic style is for those who want a unique space to call their own.

# KEY ELEMENTS

The Boho Chic home was thoughtfully crafted and curated. Eclectic elements like white hexagon tile are paired with natural oak flooring, blue cabinets, and bright gold hardware. White walls and light carpet create the perfect backdrop for this beautiful style.
