Bug Fixes

Bug/Defect	Priority	Severity	Vitruvi™ Assistant Ticket
Mobile - "Save as Draft" button only interactable when all required fields are filled.	Medium	Major	
FLHA review on web does not show associated hazard	Medium	Major	
Web – Field Report FLHA - Safety requirement files do not appear on web	Medium	Major	
Mobile - When closing out the FLHA report, the text field still says "Optional" if you say an incident has occurred	Medium	Minor	
Mobile - If no PDF file is uploaded to a critical requirement, the FLHA marks the Critical Requirement section as complete, even though the individual Critical Requirements are not marked as complete.	Medium	Minor	
Mobile - When filling out FLHA, the app requires a name in the permit name field even if the "Permit Not Required" button is checked off.	Medium	Minor	
Mobile - Double header is present when viewing pdf files in the FLHA	Medium	Major	
Share - can't share pdf file on FLHA	Medium	Major	
Mobile - Attempting to view a pdf in the FLHA of a submitted DPR causes the app to freeze up with an infinite loading wheel.	Medium	Critical
