SENTIX MOBILE APP

TRAIN ANYWHERE, ANYTIME

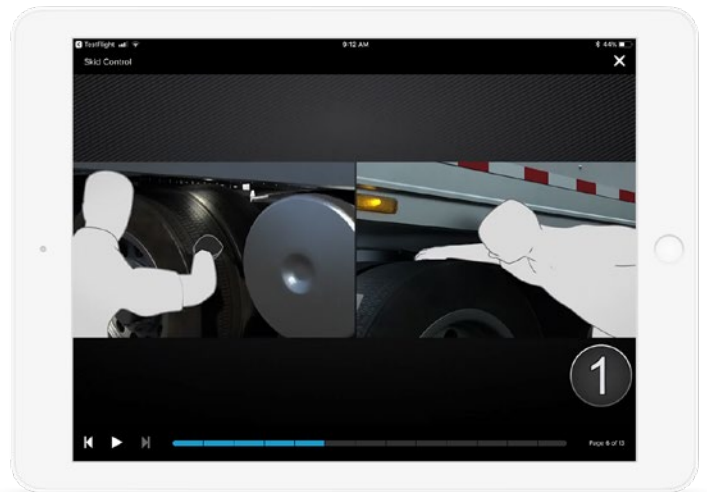

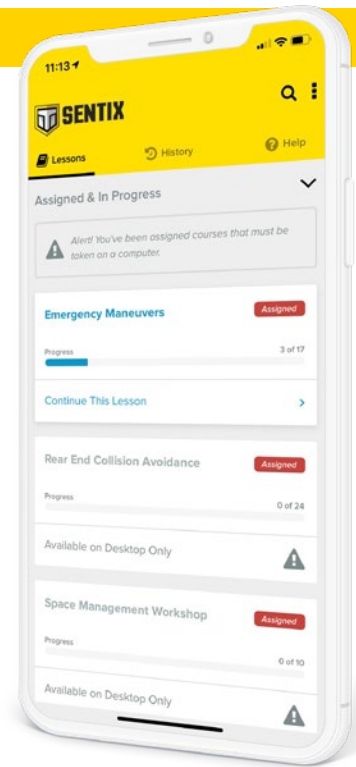

The next generation of training is here: the Sentix™ mobile app for iOS and Android devices. When your fleet uses the Sentix automation platform, training can be taken via the app any time and any place. Assignments, custom courses, and scheduled training all work. And they won't lose their place if they switch to a computer mid-lesson.

iOS AND ANDROID APP FOR TRAINING

Available through the Apple App store and Google Play, the app provides your employees access to PRO-TREAD content on the Sentix platform.

- Heavy-duty and medium-duty truck training
- Warehouse and light-duty vehicle training
- Custom and company-specific training

Further empower your employees and meet your training, safety and compliance needs with the tools you're already providing.

SENTIX MOBILE APP FEATURES

- Access to assigned courses and available libraries
- Easy to integrate into your IT group's approved app list or on pre-configured mobile devices
- Same user login as website — Sentix LMS account required
- Keeps user logged in until they log out
- Assignment and access controls in Sentix LMS apply to the mobile app as well
- No in-app purchases or outside links
- App to website and back again — never lose your spot in a lesson
- Lesson starts, progress and completion data instantly recorded in Sentix LMS
