

RESTAURANT SOLUTIONS *by* **RELYCO**

In order to have a successful restaurant, you need to have menus that can hold up in a hectic and often messy environment. With the constant spills that go along with food and drink, durable paper is essential.

REVLAR synthetic paper is the perfect solution for restaurants who are looking to upgrade their menu aesthetics. Through REVLAR menus, you can offer your customers a more pleasant dining experience.

Menu on paper

vs.

Menu on REVLAR

REVLAR waterproof synthetic paper

A waterproof synthetic paper will achieve the upscale look you want right out of the printer and without any additional steps (like lamination) to make it durable. Plus, you can use it for both indoor and outdoor dining spaces!

REVLAR waterproof synthetic paper looks and feels like regular paper, but it is:

Long-lasting durability + easy cleaning = profit

- Menus printed on this high-quality material will look as good on day 30 as they did on day 1
- REVLAR can be washed and sanitized with a mild cleanser - no need to throw away menus (and money) when they get dirty, wet or unhygienic
- By eliminating the need to reprint menus, the switch from paper to REVLAR is cost-effective
- Menus that are aesthetically pleasing, clean, long-lasting and professional can help restaurants & bars achieve their sales and profit goals

Food-safe

- REVLAR Premium synthetic paper is FDA compliant as a food contact substance (FCS), so it is proven to be safe if it directly touches food

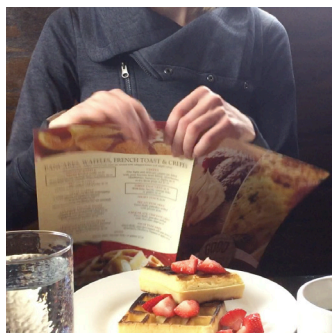

Versatility

A variety of sizes, thicknesses and material grades allows for flexibility of use:

- Insert REVLAR menus into menu books
- Bind them into their own stitched or spiral bound pieces
- Use REVLAR to create one-sheet flat or folded menus

How else can you use REVLAR?

- Signage - back kitchen or customer-facing
- Loyalty cards
- Labels
- Training manuals
- Tags
- Recipe cards
