The Right Solution

Choosing the right BCP Software solution for your organization is critical to ensure your organization is ready to respond to and survive an unplanned incident or disaster. The risks and liability that can result from making the wrong choice can run into the millions of dollars. Compass Business Continuity software reduces the time you spend managing and maintaining plans and enables you to understand your organization, develop implementable plans, keep your plans up-to-date, and increase the availability of critical operations across the enterprise.

One Complete BCP Solution

Compass Business Continuity software keeps your data flowing throughout the BCP process without having to re-enter your data into separate modules. Compass Business Continuity process includes:

- ⇒ Business Impact Analysis
- ⇒ Risk Assessment (Threat and Vulnerability Analysis)
- ⇒ Strategies and Solutions Development
- ⇒ Plan Development
- ⇒ Plan Maintenance
- ⇒ Exercise Management
- ⇒ Email Notifications
- ⇒ Incident Management

Flexibility and Scalability

The easy-to-use Compass platform allows you to quickly construct your BC plan on the fly with minimal effort. Simply point, click, and configure your way to the perfect tool to fit your needs. The software is designed to grow with your organization and scale from simple to complex implementations with little effort.
