

PCI COMPLIANCE SERVICES

COMPASS IT COMPLIANCE

Approximately every ten seconds, someone is a victim of identity theft. And one of the most common forms of identity theft – credit card fraud – has reached near epidemic proportions.

*To counter this problem, the five major credit card companies – American Express, Discover, JCB, MasterCard, and Visa – teamed up to form the **Payment Card Industry Security Standards Council (PCISSC)**.*

SECURE. COMPLY. SAVE.

Expertise

- Compass, already a leader in IT Compliance services throughout the U.S., is certified as a PCI Approved Scanning Vendor (ASV) and Qualified Security Assessor (QSA).
- Each member of our IT compliance team is a Certified Information Systems Auditor (CISA)
- Our knowledge of IT Auditing and Compliance spans multiple industries, software/hardware platforms, and applications

Experience

- Each IT Auditor possesses more than fifteen years of experience within the industry
- Our experience has breadth - we draw on deep skill sets, both technical and managerial.

Judgment

- The extent of our expertise and experience give Compass good judgment - a crucial skill in balancing the requirements of compliance with the realities of running a successful organization

How Compass Can Help Your Business

PCIDSS compliance is a complex and extensive process that can overwhelm staff. Compass works with businesses of different scales and from a multitude of industries to ensure compliance. Our QSA-certified teams are expert at evaluating credit card system security and bringing it in line with standards.

Compass has the knowledge, tools, and experience to tailor the right approach for your business and exceed all PCI DSS requirements.

Compliance requirements include IT risk assessments, quarterly ASV scanning, security awareness training, policies, procedures, and other critical protective measures to help ensure the safe handling of sensitive credit card information.
