## About Compass IT Compliance

Founded in 2010, Compass IT Compliance is a nationwide leader in providing IT security, compliance, and risk management services to organizations of all sizes in all industries. Our mission back in 2010 remains the same today: *To partner with your organization to help you mitigate your overall information security risk while providing you with the best customer service possible. Period.*

Whether you are working with our Security Specialists or our Compliance Auditors, you can rest assured knowing that our team is committed to partnering with you to provide you with expert knowledge around your risks and steps you can take to mitigate those risks. Compass IT Compliance has the tools to help you minimize and manage your IT compliance burden:

- Our Security Specialists, Auditors, and Account Managers carry smaller workloads in order to devote more time and attention to each of their clients and projects
- Our staff come from previous roles in many different industries, bringing with them decades of experience and numerous certifications and awards
- Our team of ethical hackers are experts at simulating real-world attack scenarios, so you can better protect yourself when a real threat arises
