Consulting Services, Training & Education

SEAtS Software offers a full suite of advisory and technology partners. At SEAtS our primary objectives is to ensure that our customers derive the maximum benefit from the deployment of our software.

Consulting Services

SEAtS cloud and on premise applications are far more cost-effective and easier to deploy and manage than software from traditional HE software applications suppliers.

Delivering Value for our Customers

SEAtS work with our technology, systems integration and consulting partners collaborate to successfully deploy the SEAtS applications in partnership with our customers. All consultants go through a rigorous training to ensure that we deliver the best solution and the best results possible for every customer.

Domain, Technology and Project Expertise

SEAtS believe that the key to delivering value from the strategic use of information technology in HE is building the multi-disciplinary project team. The project team needs expertise ranging from program and project management to technology skills, data integration, business analysis and change management. SEAtS work to leverage the knowledge and expertise in our customer project teams and complement these with our highly trained consultants.

SEAtS Methodology

Customer deployments are driven by the SEAtS tailored methodology. This methodology is designed to deliver the maximum value in the early stages of the project and is particularly effective in Software as a Service Cloud deployments.

Training & Education

Training & Education

SEAtS objective is to ensure that our customers realise the benefits and ROI from our solutions as early as possible. Early ROI requires fast adoption and acceptance of our software and processes across the campus. Early adoption is driven by training and knowledge transfer.

Classroom

SEAtS delivers comprehensive, instructor-led, in-classroom training to prepare both academic and administrative staff to get the maximum benefit from our software. Class-room sessions combine textbook and product walk-throughs with hands-on lab exercises.

Virtual Classroom

SEAtS Virtual Classroom offers the advantage of live instructor-led training without the travel related expense and associated loss of time. Attendees participate remotely through web-meetings to access the virtual training environment, complete the same course and exercises as they would in person.

About SEAtS Software

SEAtS sets a new benchmark for student success with advanced early warning systems, work flows, dashboards, reports and analytics.

What SEAtS can deliver for your institution:

- Retain students through critical early informed interventions.

- Increase completion through better analytical insights into progression.

- Enhance reputation through improved student satisfaction and outcomes.

- Enhance resource and space utilisation with instant analytics.

How it Works

SEAtS works by sitting above and drawing information from whatever student record, timetabling and other systems you have in place. We do not look to change what you have simply to add value.

SEAtS Software provides:

- Early Warning Systems.

- Cloud Based.

- Real Time Data.

- Increased Completion.

- Enhanced Reputation.
