

## Space Utilisation

**SEAtS Software the student success platform allows universities, schools & colleges to manage current space utilisation options with future prospects in mind.**

Space utilisation is the measure of whether and how well a space is being used and is a strategically important form of space management that universities colleges and institutions should be aware of. SEAtS Software provides support for universities to collect the required data needed in order to maximise their space and plan for the future.

### Key Benefits

#### Introduction

SEAtS can assist you maximise space and other resource utilisation, manage your rental bill and plan for the future. SEAtS Software, in addition to retaining your students and protecting fee income, can maximise your facility and infrastructure investments. University timetable can never tell the full story or paint the full picture of campus utilisation and fitness for purpose.

#### What SEAtS does...

SEAtS Software delivers a consistent picture of utilisation that is updated in real-time. SEAtS analytics will eliminate the need for physical room audits and give you the analysis of the data you need to inform time-tabling and plan for the future.

#### What it means for your campus...

Where SEAtS can assist in driving efficiency:

- ✦ Are you looking to expand or move campus?
- ✦ Are you sharing space with other Universities?
- ✦ Would you like to know how you are currently using spaces?
- ✦ Do you want to model future requirements based on actual data?

#### Supporting the Strategic Planning Team

A large scale strategic investment in facilities/ estates/ new campus requires rock solid data to model expected space utilisation over the coming decade. Time-tables and room audits are but two pieces of the jigsaw. Achieving complete insight into your space utilisation, requires accurate student engagement and attendance data and this is where SEAtS comes into its own, mirroring what is really happening on your campus.

## About SEAtS Software

SEAtS sets a new benchmark for student success with advanced early warning systems, work flows, dashboards, reports and analytics.

What SEAtS can deliver for your institution:

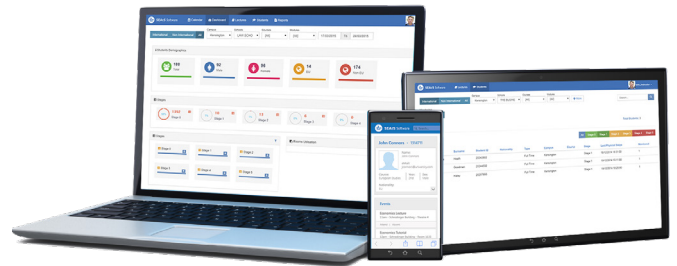

- Retain students through critical early informed interventions.
- Increase completion through better analytical insights into progression.
- Enhance reputation through improved student satisfaction and outcomes.
- Enhance resource and space utilisation with instant analytics.

## How it Works

SEAtS works by sitting above and drawing information from whatever student record, timetabling and other systems you have in place. We do not look to change what you have simply to add value.

SEAtS Software provides:

- Early Warning Systems.
- Cloud Based.
- Real Time Data.
- Increased Completion.
- Enhanced Reputation.
